Prefatory Note

Preliminary versions of the papers and discussions contained in this volume were presented at two conferences, held in August 1988 in Cambridge, Massachusetts, and November 1989 in Washington, D.C. Funds for these conferences were provided to the National Bureau of Economic Research by the National Science Foundation through grant SES-8821944. Funding of the Conference on Research in Income and Wealth series is now provided by the Bureau of the Census, the Bureau of Economic Analysis, the Bureau of Labor Statistics, Statistics Canada, the Department of Energy, and the Statistics Division of the Internal Revenue Service. We are indebted to all of them for their support. We also thank Geoffrey Carliner and Charles R. Hulten for critical advice throughout the project, and the referees for critical advice on the final manuscript.
