Subject Index

ACUs. See Asian Currency Units (ACUs)
ADM. See Asian Dollar Market (ADM)
ANIEs (Asian newly industrialized economies). See Newly industrialized economies (NIEs)
Arbitrage: in deviations from covered interest rate parity, 337, 340, 355
Asian Currency Units (ACUs), 359–60
Asian Development Bank: dragon bond issue, 366, 380
Asian dollar bond market, 364–66
Asian Dollar Market (ADM): creation, 359–60; Eurodollar, Euroyen, Euromark, etc. segments of, 360; growth of, 362–63
Asia-Pacific countries, FDI share, 80–90
Balance of payments: capital account, Asia and Western Hemisphere (1973–93), 112–14; capital account averages, Asia and Western Hemisphere, 112–14; capital accounts in Pacific Asia (1982–92), 114–18; capital account transactions in Indonesia, 317; capital account without restrictions, 18–19; current account behavior, Taiwan and South Korea, 215–22; Japan's long-term capital account, 134–38; Korean capital account transaction liberalization, 251, 275; Korean current account surpluses (1980s and 1990s), 251, 261; long-term capital account, Pacific Asia, 114–18
Bangkok International Banking Facilities, 386
Banking system, Japan: compared with Korean principal transactions banks, 293–95; dominance in Pacific Asia, 132; as model of bank-business relations, 295–96, 305
Banking system, Korea: with abolition of capital controls, 275–76; deregulation, 249, 275; evaluation of principal transactions bank system, 287–93; evolution of principal transactions bank system, 278–82; proposals for bank-business relations, 295–99, 305; role in credit control, 279–82; shift to universal, 271; structure and role of principal transactions bank system, 282–87
Banking systems: effect of capital inflows on newly liberalized, 22; with financial reform and economic stabilization, 42–48; with liberalization and financial innovation, 22–25; loan flow in international, 131–34; in overborrowing model, 19–21; Pacific Asia cross-border interdependence, 131–34; with policy response to overborrowing, 28–35
BIAC. See Bond Issue Arrangement Committee (BIAC), Japan
Bond Issue Arrangement Committee (BIAC), Japan, 171–72, 176, 178
Bond markets, international: Asian dollar bond market in, 364–66; dragon bond market in, 366
Business groups, Korea: basket credit control, 282, 287–88; proposals for bank-business relations, 295–99, 305; subject to credit control, 280–81
Capital: absence of controls in Indonesia, 317–18; model of consequences in China of foreign, 90–99
Capital flows: amendment to imperfect capital mobility, 309–10; in and out of Asia, 112–18; to China, 78–79; components of, 108; components of official, 126; in domestically liberalized economy, 15; effect of inflows on banking sector risk, 22; implications of covered and uncovered interest parity on, 337–38; from industrial to developing countries (1990–93), 1; international mobility of Korean, 261–65, 271, 273; Japanese-Korean cross-border, 274; long-term capital flows between Japan and Pacific Asia, 134–37; macroeconomic consequences of large inflows, 12–14; market-determined and government-determined, 142; mobility with uncovered interest parity deviations, 341; in model of Singapore interest rate–exchange rate relationship, 347–53; net resource flows to developing countries (1982–94), 109–12; perfect and imperfect capital mobility, 308–9; role of Singapore financial markets in international, 359–60; shift in pattern to developing countries, 108–9; using covered interest parity swap pricing, 319–22; volume and mobility, 1
Capital flows, Pacific Asia: changing pattern in, 108, 138–40; inflows, 118–20; interdependence with, 125–34
Capital markets: borrowing from international, 18–19; government role in Korea, 278; response to reform and stabilization programs, 10–11; short-term in Japan, 150; Singapore syndicated loans and dragon bonds, 366, 380
Caribbean, 109–12
Central bank, Korea: credit system, 212–15; financial sector regulation, 214; index of independence, 206–7, 226; role in export-led growth, 206–10
Central bank, Taiwan: credit system, 211–15; currency appreciation, 218–19; export financing, 211–12; index of independence, 206–7, 226; role in export-led growth, 206–10
Central banks: differences in role in developed and developing countries, 194; role in swap mechanism in Indonesia, 318–19
Chicago Mercantile Exchange. See SIMEX-CME Mutual Offset System
China: attraction for FDI compared to other countries, 87–90; consequences of foreign capital in, 90–99; as host country for FDI, 77–79, 82–87; joint ventures with Singapore, 380; model of consequences of foreign capital in, 90–99; relation of output growth to foreign investment, 92–94
Cities, China: analysis of output growth in, 92–94, 103–4; relation of human capital, output, and foreign investment, 94–96, 103–4; with special economic status, 94–96, 103–4
Consumption: in domestically liberalized economy, 15–18; Fisherian two-period model of intertemporal, 13–15, 49–50; in internationally liberalized economy, 18–19; with overborrowing, 11–12
Corporate finance, Japan: changes in, 168–69; securitization of, 168; structural change (1980s), 178
Corporate governance, Japan: evidence to support hypothesis related to, 183–86; hypothesis related to, 178–79; model of hypothesis related to, 181–83; questions related to, 189–90
Corporations, Korea: application of principal
transactions bank system to, 282–83; behavior with credit control system, 287–93; exemptions from credit control of Major Corporations, 287–93; subject to credit control, 280–81
Countries: destination countries for Japanese and U.S. FDI, 58–65; destination country in model of trade, investment, and growth, 80–90; Japan and United States as source countries in FDI analysis, 58–65; source country in model of trade, investment, and growth, 53–58; sources of FDI to China, 81
Countries, host: determinants of foreign investment, 121–25; factors in rise and fall of FDI in, 142–46
Countries, investor: factors in rise and fall of FDI from, 142–46

Covered interest parity: deviations of Singapore data from, 342–53; Indonesia, 317–22; in model of Singapore interest rate–exchange rate relationship, 340–41; of price swap transactions in Indonesia, 319
Credit system, Korea: See Credit system, Korea
Credit markets: domestically liberalized economy, 15–18; internationally liberalized economy, 18–19
Credit system: foreign loans to Asian countries, 112–14; liberalization of credit controls in Korea, 249; South Korea, 213, 226, 247–48; Taiwan, 211–12, 226. See also Finance, external; Overborrowing; Overborrowing episodes
Credit system, Korea: credit control, 277, 282, 287–93; evolution of credit control, 279–82; with financial deregulation, 255–59; subsidized bank loans to industry, 278. See also Principal transactions bank system, Korea
Currencies: composition in East Asian external debt, 161–62; East Asian currency links, 147–48; tying to U.S. dollar of East Asian, 155; U.S. dollar as dominant invoicing currency, 142. See also Exchange rates; Invoice currencies
Data sources: analysis of FDI in China, 91–92; for FDI in China, 78, 83–84; invoice currency analysis, 155, 160, 162; relation between Japanese-U.S. direct foreign investment and exports, 70; response of stock prices to convertible bond issues, 184, 185; Singapore interest rate–capital mobility analysis, 341; Taiwan money and price analysis, 242
DBU. See Domestic banking unit (DBU)
Debt, external: currency composition of East Asian, 161–62; Pacific Asia, 118–20; Taiwan and South Korea, 216, 222, 227
Derivatives, Singapore markets, 381
Development institutions, Korea, 255
DFI (direct foreign investment). See Foreign direct investment (FDI)
Distance: relation to FDI, Japan and United States, 58–65, 67–70, 73–75; relation to FDI in China, 84
Dixit-Stiglitz production relationship, 53
DLE. See Domestically liberalized economy (DLE)
Domestically liberalized economy (DLE): effect of market failure, 23–24; features with reform, 15; in intertemporal model with perfect certainty, 15–18; solving for outcomes of, 36–37
Domestic banking unit (DBU), 360
East Asia: changes in capital flows to, 109–14
Economic growth: influence of FDI on, 101–2, 103–4; link to macroeconomic policy, Taiwan and South Korea, 195–205; role of government in Korea for, 247–48
Economic policy, China, 78
Economic shocks, Taiwan and South Korea, 218, 222
Economy: domestically liberalized reform economy, 15; financially repressed pre-reform economy, 15–16; internationally liberalized reform economy, 15
Efficient market hypothesis, 340
Eicker-White standard errors, 60
Euromarkets, 175–77
Exchange rate policy, Korea, 216–18; Market Average Exchange Rate System, 251, 260, 270; Multiple Currency Basket Peg System, 259–60, 265, 270
Exchange rate policy, Taiwan, 216–18
Exchange rates: in choice of invoice currency, 151; in FDI, 101; influence on uncovered interest parity deviations, 345–46; model of relation to interest rates in Singapore, 339–53; monetary autonomy with fixed exchange rate policy, 308; regression of Japanese export prices on, 156–57; risk avoidance of Japanese trading companies, 150–51

Exchange rates, Korea: basket-peg system, 250; determinants of real, 268–70; fluctuation of nominal and real, 265, 271; model for real, 265–68; volatility, 270

Export-led growth: role of central bank, Taiwan and South Korea, 205–10; role of fiscal policy, Taiwan and South Korea, 205–10

Export prices: choice of Japanese invoice currency, 155–57, 164; determinants of, 164. See also Invoice currency ratios

Export promotion: FDI as, 102; Taiwan, 211, 215

Exports: differences in Japan's invoice currencies for, 152–56, 161; with foreign investment in China, 96–98; Japan's reliance on exports to United States, 150; relation to direct foreign investment in country receiving technology, 56–58; relation to foreign investment in China, 96–98; relation to outward FDI positions, Japan and United States, 58–65

Factor endowments, Japanese-U.S. trade and investment, 58–65, 73–75

Finance, external: conditions for sustained, 125; to developing countries, 108; official capital flows in Pacific Asia, 126–28; to Pacific Asia, 108, 138–40; Taiwan and South Korea, 214

Financial centers, international: challenges for Singapore as, 372–79; future locations, 384; Hong Kong as, 133, 384; prospects for Singapore as, 379–81, 384; transformation of Singapore into, 133, 360

Financially repressed economy (FRE): pre-reform economy as, 15–16

Financial markets: cross-border claims and liabilities, 133–34; diversification in Korea, 278; internationalization, 168, 170, 174–78, 188–89; with uncertainty, 22–25

Financial sector, Singapore: ACU as proportion of total assets, 362

Financial services, Singapore, 359–60; deregulation and liberalization, 360–64, 385; future of, 379–81. See also Asian Currency Units (ACUs); Asian Dollar Market (ADM)

Financial systems: international liberalization, 189; liberalization of Japanese, 167–68

Firms: with foreign investment in China, 96–98; growth of nonstate Chinese, 98–99. See also Foreign-invested firms (FORs), China; Individual-owned firms (INDs), China; Township and village enterprises (TVEs), China

Fiscal policy: associated with large capital inflows, 12–14; role in developing countries, 194; role in export-led growth, Taiwan and South Korea, 206–10, 225; tax reform in Korea (1981), 248

Foreign direct investment (FDI): China as host country for, 77–79, 82–87; determinants, 72; factors influencing, 101; factors in rise and fall of, 142; as form of capital flow to developing countries, 109–13; forms in China of, 79; geographic distribution in Pacific Asia, 128–31; gravity and factor endowment specifications, 59, 72; industrialized and developing countries worldwide, 80–90; model of distribution to China, 82–87; predictions for China, India, and four NIEs, 87–90; relation of distance and regional effects, Japanese-U.S., 58–65, 67–70, 73–75; relation to exports in country receiving technology, 56–58; share in foreign capital inflows in Pacific Asia, 118–20

Foreign Exchange and Foreign Trade Control Law (1948), Japan, 174–75

Foreign exchange markets: relation with Singapore International Monetary Exchange, 360; Singapore, 366–68, 373–74, 380

Foreign exchange reserve policy, Taiwan and South Korea, 218–21

Books of Related Interest

Growth Theories in Light of the East Asian Experience
*Edited by Takatoshi Ito and Anne O. Krueger*

These papers investigate the growth experiences of Japan, Korea, China, Hong Kong, Singapore, and Taiwan within the framework of endogenous growth theory.

**NBER-East Asia Seminar on Economics, Volume 4**

Macroeconomic Linkage
*Savings, Exchange Rates, and Capital Flows*
*Edited by Takatoshi Ito and Anne O. Krueger*

This volume explores East Asia's macroeconomic experience in the 1980s and the economic impact of East Asia's growth on the rest of the world.

**NBER-East Asia Seminar on Economics, Volume 3**

Trade and Protectionism
*Edited by Takatoshi Ito and Anne O. Krueger*

American and East Asian scholars look at the current global trading system and at the potential threats to East Asian economies from possible regional arrangements, such as separate trading blocs in the Western Hemisphere.

**NBER-East Asia Seminar on Economics, Volume 2**

The Political Economy of Tax Reform
*Edited by Takatoshi Ito and Anne O. Krueger*

This volume addresses the importance of the East Asian region for the international economy. Focusing on the complexities of tax reform, the contributors examine problems of interdependence in a global economy.

**NBER-East Asia Seminar on Economics, Volume 1**
