# Subject Index

- Affirmative action, 247, 281–82  
Age-earning profiles, 368–70  
Age effect on separations, 53  
Antibias activities, 270, 280; effect on demand for black labor, 281
- Baily-Feldstein model, 188–206; duration of temporary layoffs amendment, 190–91; experience-rating provision amendment, 191–96  
Bayes's theorem, 52  
Black labor, demand for, 276, 280–81; relative to white, 269–70  
Bureau of National Affairs (BNA) survey, 281
- Civil Rights Act of 1964, 269, 270  
Contingent contracts, 376–84
- Data Resources Data Bank, 244  
Discrimination, statistical, 295–96
- Earnings, ratio of blacks to whites, 250–52, 254  
Economic gains of blacks, measurement of, 248–55  
Economic status of blacks, factors contributing to improvement of, 269–83  
Education, 359. *See also* Schooling  
*Employment and Earnings*, 197  
Equal Employment Opportunities Commission (EEOC), 269  
Experience rating, definition of, 188
- Family background, effect on labor market position, 263–65; effect on years of schooling, 257–63; measures of, 257–58
- Hazard function, definition of, 23–24  
Heckman-Willis model, 110–14  
Household reading resource, 260–61  
Human capital, 21, 22, 42; model, 75, 320–22, 325–32, 338–39, 359, 360–61; theory of, 84
- Income. *See* Earnings; Wages
- Jobs credit. *See* Wage subsidy  
Job search, purpose of, 43  
Job search behavior, sample, 178–84; outcomes of, 172–77  
Job specific human capital, 25–26  
JOBS program, 211
- Labor market discrimination, 248  
Labor markets, informational aspects of, 319  
Labor mobility, analysis of, 22; declines with age, 24; declines with length of tenure, 24; definition of, 23, 67; earlier studies of, 22–23; effects on wages, 43  
Labor supply, female, 92  
Labor turnover and wage growth, across jobs, 70–73  
Labor turnover variable, definition of, 67  
Licensure, occupational, 343–48  
Local labor market, size of, effect on wage growth, 80

- Marital status, effect on wage growth, 79–80
- Michigan Income Dynamics (MID), 21, 23, 25, 104, 108–9, 127, 132, 142, 151–52
- Mobility. *See* Labor mobility
- Movers and stayers, comparison of, 53–54, 67–70
- “Mover-stayer” model, 22–23, 35, 93
- MPSID. *See* Michigan Income Dynamics
- National Federation for Independent Businesses, survey, 216–17
- National Longitudinal Surveys data (NLS), 21, 23, 24, 30–31, 60, 66, 75, 78–79, 81, 249, 254, 255–68
- NBER study, 87
- NBER-TH sample, 360
- New Jobs Tax Credit, background, 210–13; impact on employment, 213, 240; impact on inflation, 213–15, 240; models, 218–21
- Occupation, relative position of blacks and whites, 252–54
- Occupational Change in a Generation* survey, 249, 263
- On-the-job: training, 47; wage growth, 73–77
- Panel Study of Income Dynamics. *See* Michigan Income Dynamics
- Parental occupation, effect on attainment of blacks and whites, 258–59
- Personnel policies, 281
- Privacy issue, 348–50
- Quality standards, 353–56. *See also* Licensure
- Rationing model, 320, 322–23, 337–39
- Regional effect on years of schooling, 259
- “Residual” discrimination, definition of, 265; background versus, 265–68
- Risk-shifting function, 295–314
- Schooling, 325–35, 337–39, 350–53
- Screening and signaling models, 319–56
- Search behavior, 21
- Search theory, 22–23
- Self-employment, 335–37
- Signaling and screening models, 319–56
- Signaling model, 320–21, 323–32, 338–39, 340–43, 359, 362, 372–75
- Socioeconomic position, measures of, 256
- Sorting model, 362–71
- Statistical Analysis System*, 163–67
- Structural state dependence, 120–23
- “Tenure effect,” 27–30, 53
- Tenure turnover profile, 23–24
- Time series analysis data, 285
- Tobit model, 126
- Turnover, 84; job-matching theory of, 47
- Unemployment, analysis of, 22; effects of, 172–73; measurements of, 141–42
- Unemployment insurance, 145, 147, 148, 161–62, 171, 172, 176, 178, 183–84, 203–6; changes in benefits, 181–82; influence on labor supply, 187; influence on unemployment, 187
- Unemployment variable, measurement of, 152–55
- Urn models, 94–99, 101–2
- Wage growth, 65, 84; and job turnover, 66–81
- Wages, determination of, 143–49; tenure effects on, 36–42
- Wage structure, 28, 364–68
- Wage subsidy program, 172, 182–83
- WIN program, 211
- Workmen’s compensation, 171
