Morris A. Copeland
David Durand
Milton Friedman
Raymond W. Goldsmith
Mifford Hasset
W. Braddock Hickman
J. F. Hill
Daniel M. Holland
Herbert B. Woolley
RELATION OF THE DIRECTORS

TO THE WORK AND PUBLICATIONS

OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions, and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmission of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926 and revised February 6, 1933 and February 24, 1941)
COMMITTEE ON FISCAL RESEARCH

In the planning and conduct of its fiscal studies the National Bureau benefits from the advice and guidance of its Committee on Fiscal Research. The members of the Committee are:

Acknowledgment

Samuel M. Cohn, of the Bureau of the Budget, brought his expert knowledge of the statistics of federal expenditures and his rare skill in their interpretation to the service of the study. His contribution was substantial. I am also grateful for the assistance provided by the comments of W. L. Grum and by those of the Committee of Directors consisting of Clarence Heer, Harold M. Groves, and John H. Williams. The editorial work of C. Harry Kahn and Regina S. Sands improved the manuscript. And the charts reflect Irving Forman's skill as a draftsman.
