Section 1: Introduction

Introduction

The American Hospital Association's Annual Survey Database™ for fiscal year 2001 is derived from the AHA Annual Survey of health care providers. The survey has been conducted each year since 1946, and the database is recognized as health care's most respected provider database. This data is used by academic institutions, government and research organizations, private companies, and health care providers.

In order to use the CD-ROM you must have a data management program. The CD-ROM includes multiple database formats. It is important to review the documentation book in order to choose the version and documentation that best suits your operating environment. The documentation book should be used as a reference guide that provides:

- A description of the files on the CD-ROM
- Layout of the file
- Identification of hospitals that have been added or deleted since the Fiscal Year 2000 database
- A copy of the 2001 Annual Survey

This is the fourth year that the database has been provided on CD-ROM rather than the magnetic tape or diskette. Every effort has been taken to make the database easier to use, while maintaining the traditional flat-ASCII format with SAS® code. Beginning with the fiscal year 1998 database and included again on the 2000 fiscal year CD-ROM is a Microsoft® Access format.

Section 2: New in 2001

A highlight of changes to the fy 2001 AHA Annual Survey Database™ and valuable information on recently added fields of information

New for Fiscal Year 2001

No significant changes were made to the survey instrument for fy 2001.

Seven new facility and service categories have been added in recent year to the survey instrument. These are:

- Ambulance services
- Enabling services
- Palliative care program
- Enrollment assistance services
- Hemodialysis
- Sleep center
- Tobacco treatment/cessation program

Technical User Notes

The American Hospital Association's Annual Survey of Hospitals database fiscal year 2001 is provided in ASCII and ASCII delimited formats to be used in a statistical application or other applications. A Microsoft® ACCESS 97 database is also provided for your convenience.

The files are included on the enclosed CD-ROM and are organized this way:

Readme.txt	A description of the files included on the CD-ROM
/flat pubas01.asc	The flat ASCII fixed-length file
/comma pubas01.dat	Database file, delimited ASCII variable-length file and dictionary
as01dem.dbf as01svc1.dbf as01svc2.dbf	Files are subsets of database in data base form files (.dbf)
as01dem.xls as01svc1.xls as01svc2.xls as01util.xls	Files are subsets of database in Excel files, (.xls)
/access pubas01.mdb	Microsoft Access 97 database
/doc /V97 as01desc.doc as01lay.xls	The database description in Microsoft Word 97 format The technical layout in Microsoft Excel 97 format
/V95 as01desc.doc as01lay.xls	The database description in Microsoft Word 95 format The technical layout in Microsoft Excel 95 format
/Other as01desc.txt as01lay.txt	The database description in text format The technical layout in text format
/SAS01.txt	Complete SAS code to import the flat ASCII file
/termsandconditions.pdf	A copy of the license agreement accompanying this database

We have tried to accommodate the needs of each user and the versions of applications available to you. In order to decide which files are most appropriate for your use, please read these descriptions and choose the data and documentation that will work with the applications you have.

Data

PUBAS01.ASC

This is a traditional fixed length flat ASCII file that the AHA Annual Survey Database has delivered in previous years. There are several additional fields at the end of the file, but every attempt has been made to ensure the file is consistent with the previous year's file.

Use this file if you are using the included SAS Code or want to read the data into an existing application. The enclosed layout is in EXCEL format and describes the fields and their positions.

PUBAS01.dat

This file is an ASCII delimited version of the database. It has been designed to include all the fields that are in the database, in a more convenient format. A comma (,) has been used as the delimiter. The field names are imbedded in the first row of the file. This file can be easily read into any application that recognizes comma-separated-values, or comma-delimited formats. You can use the layout to get descriptions of each field. This year a database file is also provided for your convenience.

PUBAS01.MDB

In addition, the database is provided in Microsoft® ACCESS 97. The tables in the database have been logically separated in order to accommodate the 256-field limit. The tables are:

- *AS01DEM* — contains the demographic and descriptive fields for each facility
- *AS01SVC1* — contains half of the facilities and services fields
- *AS01SVC2* — contains second half of the facilities and services fields
- *AS01UTIL* — contains utilization, personnel and the non confidential financial fields

The EXCEL layout file indicates which fields are stored in which ACCESS table.

Documentation

All documentation has been provided in Microsoft® Office version 97, Microsoft® Office version 95, and a text-based version. Please use the version that is applicable for you.

The documentation is organized as follows:

AS01LAY

This document is a technical layout of the file that you have received and contains:

- Fields
- Descriptions
- Relationship to survey instrument
- Location in Microsoft® ACCESS 97 Database
- Code Descriptions

AS01DESC

This document contains the database description for the files you have received. This is a descriptive document and can be distributed as an informative look at the elements that exist on the file and has:

- Field descriptions
- Notes about the field
- The corresponding survey questions
- Code descriptions

SAS01.TXT

The SAS code you have received has been rewritten and tested for the new release of the AHA Annual Survey Database. You will be able to put in your path name and use it immediately to read in the entire flat ASCII file. It will attach field labels to every field and create contents of the database for your review.

	Health Service Area Code and Name Description	Local health care markets for community-based inpatient care derived by researchers at Dartmouth Medical school for the Dartmouth Atlas of Health Care from a national patient origin study. Each HSA is a cluster of contiguous Zip Codes, the residents of which predominantly use one or more hospitals within the HSA. 3,436 discrete HSAs have been defined.
	Health Referral Region Code and Name Description	Regional health care markets for tertiary medical care. Hospital referral regions were defined in the Dartmouth Atlas of Health Care by documenting where residents of hospital service areas received major cardiovascular surgical procedures and neurosurgery. Using these two services as markers for tertiary care, the 3,436 hospital service areas were aggregated into 306 hospital referral regions.
	Community Hospital Flag	Use to foot to Hospital Statistics (is derived using the following formula: state code > 10 + mtype = Y + los = 1 + chc = 1) Y = community hospital, N = not a community hospital

American Hospital Association Annual Survey Database FY2001 Edition

Appendix G Health System Cluster Code Descriptions

Recent research using existing theory and AHA Annual Survey data identified a reliable set of five distinct groups of health systems that share common strategic/structural features. This new identification system was developed jointly by the American Hospital Association's Health Research and Educational Trust and Health Forum, and the University of California-Berkeley. For further information on the development of the taxonomy please see: Bazzoli, G.J; Shortell, SM; Dubbs, N; Chan,C; and Kralovec, P; "A Taxonomy of Health Networks and Systems: Bringing Order Out of Chaos" *Health Services Research*, February, 1999. A health system is assigned to one of five categories based on how much they differentiate and centralize their hospital services, physician arrangements, and provider-based insurance products. Differentiation refers to the number of different products or services that the organization offers. Centralization refers to whether decision-making and service delivery emanates from the system level more so than individual hospitals.

Code	Label	Description
1	Centralized Health System	A delivery system in which the system centrally organizes individual hospital service delivery, physician arrangements, and insurance product development. The number of different products/services that are offered across the system is moderate.
2	Centralized Physician/Insurance Health System	A delivery system with highly centralized physician arrangements and insurance product development. Within this group, hospital services are relatively decentralized with individual hospitals having discretion over the array of services they offer. The number of different products/services that are offered across the system is moderate.
3	Moderately Centralized Health System	A delivery system that is distinguished by the presence of both centralized and decentralized activity for hospital services, physician arrangements, and insurance product development. For example, a system within this group may have centralized care of expensive, high technology services, such as open heart surgery, but allows individual hospitals to provide an array of other health services based on local needs. The number of different products/services that are offered across the system is moderate.
4	Decentralized Health System	A delivery system with a high degree of decentralization of hospital services, physician arrangements, and insurance product development. Within this group, systems may lack an overarching structure for coordination. Service and product differentiation is high, which may explain why centralization is hard to achieve. In this group, the system may simply serve a role in sharing information and providing administrative support to highly developed local delivery systems centered around hospitals.
5	Independent Hospital System	A delivery system with limited differentiation; hospital services, physician arrangements, and insurance product development. These systems are largely horizontal affiliations of autonomous hospitals.
blank		Sufficient data from the 1998 Annual Survey were not available to determine a cluster assignment.

Appendix H Additional Explanation of Codes and Fields

Estimation Codes

Code	Description
0	The value was reported by the hospital
1	The value was estimated since no value was reported by the hospitals
2	The value has been expanded, since the reported value is associated with a reporting period of less than 1 full year

- If the hospital did not respond to the survey (RESP=2), the following fields were obtained from previously reported data.

AHA ID	Hospital Name	Bed Size code
Control/Ownership	CEO Name	Length of Stay code
Primary Service code	Address	CMSA code
Number of Bassinets	City	MSA code
Total Beds	State	County code
Membership Type	ZIP code	City Rank
Long term/Short term flag	Area code	MSA Size
Control Code - Membership	Telephone number	All accreditation and affiliation flags
Service Code - Membership	Community Hospital Flag (CHC)	(MAPP1 through MAPP17)

- All fields with corresponding estimation fields have been estimated or expanded. Other fields, such as facilities and services were left blank.
- If the **separate units** code (SUNITS) is 2, all short-term and long-term data fields are blank.

Modified FIPS County Code

County codes generally are odd numbers assigned to an alphabetical listing of the counties within a state. Baltimore City is included in Baltimore County, St Louis City is included in St Louis County, and the independent cities in Virginia are each included in the contiguous counties. Kalawao County, Hawaii is included in Maui County. The four Alaska Judicial Divisions were used as counties.

Long term/Short term Flag (LOS)

If a separate long-term unit is reported and long-term admissions are greater than one-half of total admissions, then LOS is 2; otherwise LOS is 1. If a separate long-term unit is not reported and the ratio of inpatient days to admissions is 30 or more, then LOS is 2; otherwise LOS is 1.

GENERAL INSTRUCTIONS

A copy of the 2001 Annual Survey questionnaire is enclosed. Please check and correct any label information as printed on the front of the survey. Return the original completed copy in the enclosed return envelope to the American Hospital Association and retain the photocopy in your files for reference. Also, please forward a photocopy of the completed questionnaire to your state hospital association.

Requested return date is listed on the cover page, but if additional time is necessary to complete the survey, please complete page 16, listing the expected return date and fax it to the Annual Survey staff at 1 800/530-9092. If you prefer, you may notify us by calling 1 800/530-9092.

Report utilization and financial information for a full 12-month period, preferably your fiscal year as the reporting period.

Make an entry for every item on the form. Enter "NA" only if data are not available. Enter "0" if zero is appropriate.

If assistance is needed, please contact the American Hospital Association Annual Survey staff at 1 800/530-9092. You may also contact your state hospital association or other state agency if so directed by survey return instructions.

INSTRUCTIONS AND DEFINITIONS FOR THE 2001 ANNUAL SURVEY

HOSPITAL. For purposes of this survey, a hospital is defined as the organization or corporate entity licensed or registered as a hospital by a state to provide diagnostic and therapeutic patient services for a variety of medical conditions, both surgical and nonsurgical.

SECTION A REPORTING PERIOD Instructions

Record the beginning and ending dates of the reporting period in a six-digit number: for example, January 1, 2001, should be shown as 01/01/01. Number of days should equal the time span between the two dates that the hospital was open. If you are reporting for less than 365 days, utilization and finances should be presented for days reported only.

SECTION B ORGANIZATIONAL STRUCTURE Instructions and Definitions

1. CONTROL

Check the box to the left of the type of organization that is responsible for establishing policy for overall operation of the hospital.

Government, nonfederal.

State. Controlled by an agency of state government.

County. Controlled by an agency of county government.

City. Controlled by an agency of municipal government.

City-County. Controlled jointly by agencies of municipal and county governments.

Hospital district or authority. Controlled by a political subdivision of a state, county, or city created solely for the purpose of establishing and maintaining medical care or health-related care institutions.

2. SERVICE

Indicate the ONE category that best describes the type of service that your hospital provides to the majority of admissions.

General medical and surgical. Provides diagnostic and therapeutic services to patients for a variety of medical conditions, both surgical and nonsurgical.

Hospital unit of an institution. Provides diagnostic and therapeutic services to patients in an institution.

Hospital unit within an institution for the mentally retarded. Provides diagnostic and therapeutic services to patients in an institution for the mentally retarded.

Psychiatric. Provides diagnostic and therapeutic services to patients with mental or emotional disorders.

Tuberculosis and other respiratory diseases. Provides medical care and rehabilitative services to patients for whom the primary diagnosis is tuberculosis or other respiratory diseases.

Obstetrics and gynecology. Provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs.

Eye, ear, nose, and throat. Provides diagnosis and treatment of diseases and injuries of the eyes, ears, nose, and throat.

Rehabilitation. Provides a comprehensive array of restoration services for the disabled and all support services necessary to help them attain their maximum functional capacity.

Orthopedic. Provides corrective treatment of deformities, diseases, and ailments of the locomotive apparatus, especially affecting the limbs, bones, muscles, and joints.

Chronic disease. Provides medical and skilled nursing services to patients with long-term illnesses who are not in an acute phase, but who require an intensity of services not available in nursing homes.

Institution for the mentally retarded. Provides health-related care on a regular basis to patients with psychiatric or developmental impairment who cannot be treated in a skilled nursing unit.

Alcoholism and other chemical dependency. Provides diagnostic and therapeutic services to patients with alcoholism or other drug dependencies.

2001 AHA ANNUAL SURVEY

B. ORGANIZATIONAL STRUCTURE

3. OTHER

- b. **Osteopathic.** Osteopathic medicine is a medical practice based on a theory that diseases are due chiefly to a loss of structural integrity which can be restored by manipulation of the neuro-muscular and skeletal system, supplemented by therapeutic measures (as use of medicine or surgery).
- c. **Health care system.** A corporate body that owns, leases, religiously sponsors, and/or manages health provider facilities.
- d. **Subsidiary.** A company that is wholly controlled by another or one that is more than 50% owned by another organization.
- e. **Contract managed.** General day-to-day management of an entire organization by another organization under a formal contract. Managing organization reports directly to the board of trustees or owners of the managed organization; managed organization retains total legal responsibility and ownership of the facility's assets and liabilities.
- f. **Network.** A group of hospitals, physicians, other providers, insurers and/or community agencies that voluntarily work together to coordinate and deliver health services.
- g. **Group Purchasing Organization.** An organization whose primary function is to negotiate contracts for the purpose of purchasing for members of the group or has a central supply site for its members.

SECTION C FACILITIES AND SERVICES Definitions

1. **General medical-surgical care.** Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans.
2. **Pediatric medical-surgical care.** Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans.
3. **Obstetrics.** Levels should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist.
4. **Medical surgical intensive care.** Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. Includes mixed intensive care units.
5. **Cardiac intensive care.** Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units.
6. **Neonatal intensive care.** A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU.
7. **Neonatal intermediate care.** A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recovery care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring.
8. **Pediatric intensive care.** Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care.
9. **Burn care.** Provides care to severely burned patients. Severely burned patients are those with any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors.
10. **Other special care.** Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down, or progressive care units.
12. **Physical rehabilitation.** Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity.
13. **Alcoholism-drug abuse or dependency care.** Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.
14. **Psychiatric care.** Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons.
15. **Skilled nursing care.** Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis.
16. **Intermediate nursing care.** Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services.
17. **Acute long term care.** Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7 day a week basis.
18. **Other long term care.** Provision of long term care other than skilled nursing care or intermediate care. This can include residential care-elderly housing services for those who do not require daily medical or nursing services, but may require some assistance in the activities of daily living, or sheltered care facilities for developmentally disabled.
19. **Other care.** (specify) Any type of care other than those listed above.

C. FACILITIES AND SERVICES (continued)

20. **Adult day care program.** Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services.
21. **Alcoholism-drug abuse or dependency outpatient services.** Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.
22. **Ambulance services.** Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis.
23. **Angioplasty.** The reconstruction or restructuring of a blood vessel by operative means or by nonsurgical techniques such as balloon dilation or laser.
24. **Arthritis treatment center.** Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders.
25. **Assisted living.** A special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends.
26. **Auxiliary.** A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community.
27. **Birthing room-LDR room-LDRP room.** A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process—labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process—labor, delivery, recovery, and postpartum.
28. **Breast cancer screening/mammograms.** Mammography screening - The use of breast x-ray to detect unsuspected breast cancer in asymptomatic women. Diagnostic mammography - The x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already.
29. **Cardiac catheterization laboratory.** Facilities offering special diagnostic procedures for cardiac patients. Available procedures must include, but need not be limited to, introduction of a catheter into the interior of the heart by way of a vein or artery or by direct needle puncture. Procedures must be performed in a laboratory or a special procedure room.
30. **Case management.** A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care.
31. **Children wellness program.** A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion.
32. **Chiropractic services.** An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services.
33. **Community outreach.** A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system.
34. **Complementary medicine services.** Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc.
35. **Crisis prevention.** Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment.
36. **Dental Services.** An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients.
- 37a. **Emergency department.** Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care.
- 37b. **Trauma center (certified).** A facility to provide emergency and specialized intensive care to critically ill and injured patients. **Level 1:** A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and education. **Level 2:** A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. **Level 3:** A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to level 1 or 2 facilities. Please provide explanation on page 15 if necessary.
38. **Enabling services.** A program that is designed to help the patient access health care services by offering any of the following: linguistic services, transportation services, and/or referrals to local social services agencies.
39. **End of life services.**
- 39a. **Hospice Program.** A recognized clinical program with specific eligibility criteria that provides palliative medical care focused on relief of pain and symptom control and other services that address the emotional, social, financial and spiritual needs of terminally ill patients and their families. Hospice care can be provided either at home, in a hospital setting, or a free-standing facility.
- 39b. **Pain management program.** A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from an acute illness of diverse causes.
- 39c. **Palliative care program.** An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families.
40. **Enrollment assistance services.** A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. The specific services offered could include explanation of benefits, assist applicants in completing the application and locating all relevant documents, conduct eligibility interviews, and/or forward applications and documentation to state/local social service or health agency.
41. **Extracorporeal shock wave lithotripter (ESWL).** A medical device used for treating stones in the kidney or urether. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.
42. **Fitness center.** Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.

C. FACILITIES AND SERVICES (continued)

43. **Freestanding outpatient care center.** A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available.
44. **Geriatric services.** The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: Adult day care; Alzheimer's diagnostic-assessment services; Comprehensive geriatric assessment; Emergency response system; Geriatric acute care unit; and/or Geriatric clinics.
45. **Health fair.** Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services.
46. **Health information center.** Education which is directed at increasing the information of individuals and populations. It is intended to increase the ability to make informed personal, family and community health decisions by providing consumers with informed choices about health matters with the objective of improving health status.
47. **Health screening.** A preliminary procedure such as a test or examination to detect the most characteristic sign or signs of a disorder that may require further investigation.
48. **Hemodialysis:** Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis.
49. **HIV-AIDS services** (could include). HIV-AIDS unit-Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. General inpatient care for HIV-AIDS-Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. Specialized outpatient program for HIV-AIDS-Special outpatient program providing diagnostic, treatment, continuing care planning, and counseling for HIV-AIDS patients and their families.
50. **Home health services.** Service providing nursing, therapy, and health-related homemaker or social services in the patient's home.
51. **Hospital-based outpatient care center-services.** Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a nonemergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral.
52. **Meals on wheels.** A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.
53. **Nutrition programs.** Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients.
54. **Occupational health services.** Includes services designed to protect the safety of employees from hazards in the work environment.
55. **Oncology services.** An organized program for the treatment of cancer by the use of drugs or chemicals.
56. **Open heart surgery.** Heart surgery where the chest has been opened and the blood recirculated and oxygenated with the proper equipment and the necessary staff to perform the surgery.
57. **Outpatient surgery.** Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility.
58. **Patient education center.** Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care.
59. **Patient representative services.** Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services.
60. **Physical rehabilitation outpatient services.** Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity.
61. **Primary care department.** A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.
62. **Psychiatric services:**
 - a. **Psychiatric child-adolescent services.** Provides care to emotionally disturbed children and adolescents, including those admitted for diagnosis and those admitted for treatment.
 - b. **Psychiatric consultation-liaison services.** Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients.
 - c. **Psychiatric education services.** Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns.
 - d. **Psychiatric emergency services.** Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress.
 - e. **Psychiatric geriatric services.** Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment.
 - f. **Psychiatric outpatient services.** Provides medical care, including diagnosis and treatment, of psychiatric outpatients.
 - g. **Psychiatric partial hospitalization program.** Organized hospital services of intensive day/evening outpatient services of three hours or more duration, distinguished from other outpatient visits of one hour.
63. **Radiation therapy.** The branch of medicine concerned with radioactive substances and using various techniques of visualization, with the diagnosis and treatment of disease using any of the various sources of radiant energy. Services could include: megavoltage radiation therapy; radioactive implants; stereotactic radiosurgery; therapeutic radioisotope facility; X-ray radiation therapy.
64. **Radiology, diagnostic:**
 - a. **CT scanner.** Computed tomographic scanner for head or whole body scans.
 - b. **Diagnostic radioisotope facility.** The use of radioactive isotopes (Radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease.
 - c. **Magnetic resonance imaging (MRI).** The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound.
 - d. **PET.** Positron emission tomography scanner is a nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy.

- e. **SPECT.** Single photon emission computerized tomography is a nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image.
- f. **Ultrasound.** The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures.
- 65. **Reproductive health** (could include). Fertility counseling - A service that counsels and educates on infertility problems and includes laboratory and surgical workup and management for individuals having problems conceiving children. In vitro fertilization - Program providing for the induction of fertilization of a surgically removed ovum by donated sperm in a culture medium followed by a short incubation period. The embryo is then reimplanted in the womb.
- 66. **Retirement housing.** A facility which provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long term care through affiliated institutions.
- 67. **Sleep Center.** Specially equipped and staffed center for the diagnosis and treatment of sleep disorders.
- 68. **Social work services** (could include). Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination.
- 69. **Sports medicine.** Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries.
- 70. **Support groups.** A hospital sponsored program which allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other.
- 71. **Teen outreach services.** A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion.
- 72. **Tobacco Treatment/Cessation Program.** Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine.
- 73. **Transplant services.** The branch of medicine that transfers an organ or tissue from one person to another or from one body part to another to replace a diseased structure or to restore function or to change appearance. Services could include: Bone marrow transplant program; kidney transplant; organ transplant (other than kidney); tissue transplant.
- 74. **Transportation to health facilities.** A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens.
- 75. **Urgent care center.** A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term. These units function like emergency rooms but are separate from hospitals with which they may have backup affiliation arrangements.
- 76. **Volunteer services department.** An organized hospital department responsible for coordinating the services of volunteers working within the institution.
- 77. **Women's health center/services.** An area set aside for coordinated education and treatment services specifically for and promoted to women as provided by this special unit. Services may or may not include obstetrics but include a range of services other than OB.
- 78a. **Independent practice association (IPA).** AN IPA is a legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts.
- 78b. **Group practice without walls.** Hospital sponsors the formation of, or provides capital to physicians to establish, a "quasi" group to share administrative expenses while remaining independent practitioners.
- 78c. **Open physician-hospital organization (PHO).** A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.
- 78d. **Closed physician-hospital organization (PHO).** A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality.
- 78e. **Management services organization (MSO).** A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee.
- 78f. **Integrated salary model.** Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care.
- 78g. **Equity model.** Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.
- 78h. **Foundation.** A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation.
- 81a. **Capitation.** An at-risk payment arrangement in which an organization receives a fixed prearranged payment and in turn guarantees to deliver or arrange all medically necessary care required by enrollers in the capitated plan. The fixed amount is specified within contractual agreements between the payor and the involved organization. The fixed payment amount is based on an actuarial assessment of the services required by enrollees and the costs of providing these services, recognizing enrollees adjustment factors such as age, sex, and family size.
- 81b. **Shared risk payments.** A payment arrangement in which a hospital and a managed care organization share the risk of adverse claims experience. Methods for sharing risk could include: capitation with partial refunds or supplements if billed hospital charges or costs differ from capitated payments, and service or discharge-based payments with withholds and bonus payouts that depend on expenditure targets.

D. COMMUNITY ORIENTATION

- 9. **Self assessment** is an evaluation of an organization's management system through achievements in areas such as: leadership, strategic planning, human resource management, information management, process management, customer focus and satisfaction, and business results.

The state/ metropolitan/regional association may not release these data without written permission from the hospital.

C. FACILITIES AND SERVICES (continued)

SECTION E TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING Instructions and Definitions

1. For the purposes of this survey, nursing home type unit/facility provides care for the elderly and chronic care in a non-acute setting in any of the following categories: *Skilled nursing care *Intermediate care *Residential care/elderly housing (*see page 4 definitions)
The nursing home type units/facilities are to be owned and operated by the hospital. Only one legal entity may be vested with title to the physical property or operate under the authority of a duly executed lease of the physical property.
- 1a. Report the number of **beds** regularly available (those set up and staffed for use) at the end of the reporting period. Report only operating beds, not constructed bed capacity. Include all bed facilities that are set up and staffed for use by inpatients who have no other bed facilities, such as pediatric bassinets, isolation units, quiet rooms, and reception and observation units assigned to or reserved for them. Exclude newborn bassinets and bed facilities for patients receiving special procedures for a portion of their stay and who have other bed facilities assigned to or reserved for them. Exclude, for example, labor room, postanesthesia, or postoperative recovery room beds, psychiatric holding beds, and beds that are used only as holding facilities for patients prior to their transfer to another hospital.
- b. Report the number of normal newborn **bassinets**. Do not include neonatal intensive care or intermediate care bassinets. These should be reported on page 3, C6 and C7.
- c. **Total births** should exclude fetal deaths.
- d. Include the number of adult and pediatric **admissions** only (exclude births). This figure should include all patients admitted during the reporting period, including neonatal and swing admissions.
- e. Report the number of adult and pediatric days of care rendered during the entire reporting period. Do not include days of care rendered for normal infants born in the hospital, but do include those for their mothers. Include days of care for infants born in the hospital and transferred into a neonatal care unit. Also include swing bed inpatient days. **Inpatient day** of care (also commonly referred to as a **patient day** or a **census day**, or by some federal hospitals as an **occupied bed day**) is a period of service between the census-taking hours on two successive calendar days, the day of discharge being counted only when the patient was admitted the same day.
- f. **Emergency room visits** should reflect the number of visits to the emergency unit. Emergency outpatients can be admitted to the inpatient areas of the hospital, but they are still counted as emergency visits and subsequently as inpatient admissions.
- g. An **Outpatient visit** is a visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each appearance of an outpatient in each unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries, home health service visits, and emergency room visits.
Clinic visits should reflect total number of visits to each specialized medical unit that is responsible for the diagnosis and treatment of patients on an outpatient, nonemergency basis (i.e., alcoholism, dental, gynecology, etc.). Visits to the satellite clinics and primary group practices should be included if revenue is received by the hospital.
Referred visits should reflect total number of outpatient ancillary visits to each specialty unit of the hospital established for providing technical aid used in the diagnosis and treatment of patients. Examples of such units are diagnostic radiology, EKG, pharmacy, etc.
Observation services are those services furnished on a hospital's premises, including use of a bed and periodic monitoring by a hospital's nursing or other staff, which are reasonable and necessary to evaluate an outpatient's condition or determine the need for a possible admission to the hospital as an inpatient. Observation services usually do not exceed 24 hours. However, there is no hourly limit on the extent to which they may be used.
Home health service visits are visits by home health personnel to a patient's residence.
Also include the number of outpatient surgeries reported on line E1i, and the emergency room visits reported on line E1f.
- h-i. Count each patient undergoing surgery as one surgical operation regardless of the number of surgical procedures that were performed while the patient was in the operating or procedure room.
 - i. For outpatient surgical operations, please record operations performed on patients who do not remain in the hospital overnight. Include all operations whether performed in the inpatient operating rooms or in procedure rooms located in an outpatient facility. Include an endoscopy only when used as an operative tool and not when used for diagnosis alone.
- 3a. **Net patient revenue.** Reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.
 - c. **Other operating revenue.** Revenue from services other than health care provided to patients, as well as sales and services to nonpatients. Revenue that arises from the normal day-to-day operations from services other than health care provided to patients. Includes sales and services to nonpatients, and revenue from miscellaneous sources (rental of hospital space, sale of cafeteria meals, gift shop sales). Also include operating gains in this category.
 - d. **Nonoperating revenue.** Includes investment income, extraordinary gains and other nonoperating gains.
 - f. **Payroll expenses.** Include payroll for all personnel including medical and dental residents/interns and trainees.
 - g. **Employee benefits.** Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc.
 - j. **Total expenses.** Includes all payroll and non-payroll expenses (including bad debt) as well as any nonoperating losses (including extraordinary losses).
- 5a. **Bad debt expense.** The provision for actual or expected uncollectibles resulting from the extension of credit. Because bad debts are reported as an expense and not a deduction from revenue, the gross charges that result in bad debts will remain in net revenue (E3a).
- b. **Charity care.** Health services that were never expected to result in cash inflows. Charity care results from a provider's policy to provide health care services free of charge to individuals who meet certain financial criteria. **For purposes of this survey, charity care is measured on the basis of revenue forgone, at full established rates.**

SECTION E
Instructions and Definitions

7. **Fixed Assets.** Represent land and physical properties that are consumed or used in the creation of economic activity by the health care entity. The historical or acquisition costs are used in recording fixed assets. Net plant, property, and equipment represent the original costs of these items less accumulated depreciation and amortization.
- 8a. **Physicians and dentists.** Include only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions should be reported in "All other personnel."
- c. **Other trainees.** A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Exclude medical and dental residents/interns who should be reported on line 7b.
- d. **Registered nurses.** Nurses who have graduated from approved schools of nursing and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. Do not include any registered nurses more appropriately reported in other occupational categories, such as facility administrators, and therefore listed under "All other personnel."
- e. **Licensed practical (vocational) nurses.** Nurses who have graduated from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians.
- g. **Total facility personnel.** This line is to include the total facility personnel - hospital plus nursing home type unit/facility personnel (for those hospitals that own and operate a nursing home type unit/facility).
- h. **Nursing home type unit/facility personnel.** This line should be filled out only by hospitals that own and operate a nursing home type unit/ facility, where only one legal entity is vested with title to the physical property or operates under the authority of a duly executed lease of the physical property. If nursing home type unit/facility personnel are reported on the total facility personnel line, but cannot be broken out, please write "cannot break out" on this line.

SUPPLEMENTAL INFORMATION

1. **Joint Venture.** A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the venture's purpose.

2001 AHA ANNUAL SURVEY

As declared previously, hospital specific revenue data are treated as confidential. AHA's policy is not to release these data without written permission from your institution. The AHA will however, share these data with your respective state hospital association and if requested with your appropriate metropolitan/regional association.

On occasion, the AHA is asked to provide these data to external organizations, both public and private, for their use in analyzing crucial health care policy or research issues. The AHA is requesting your permission to allow us to release your confidential data to those requests that we consider legitimate and worthwhile. In every instance of disclosure, the receiving organization will be prohibited from releasing hospital specific information.

Please indicate below whether or not you agree to these types of disclosure:

I hereby grant AHA permission to release my hospital's revenue data to external users that the AHA determines have a legitimate and worthwhile need to gain access to these data subject to the user's agreement with the AHA not to release hospital specific information.
