SECTION

Introduction

AHA Annual Survey Database

Introduction

AHA Annual Survey Database™ for Fiscal Year 2012 is a comprehensive hospital database for health services research and market analysis. It is derived primarily from the *AHA Annual Survey of Hospitals*, which has been conducted by the American Hospital Association (AHA) or its subsidiary, Health Forum, since 1946. The survey responses are supplemented by data drawn from the American Hospital Association registration database, the U.S. Census Bureau, hospital accrediting bodies, and other organizations.

We encourage participation in the *AHA Annual Survey of Hospitals* by all hospitals that are open and operating in the United States and territories—a group that totals over 6,300 hospitals. Survey participants are not required to be members of the American Hospital Association, or even registered by the American Hospital Association. Non-registered hospitals are identified through state hospital associations, the Centers for Medicare and Medicaid, and other national organizations and government entities.

Whether identifying hospital characteristics for a single year or across time, the Database can be used in a variety of settings. Because the Survey has been conducted for many years, researchers can use the data for time-series analysis with confidence in consistent processes and standards in data collection. You can also use identifiers such as the Medicare Provider Number and National Provider Identification Number to link the Database to other data sets.

The Database includes:

- CD with the Database in multiple formats
- This Documentation manual

Some items on the questionnaire, such as revenue responses, are deemed confidential at the hospital-specific level and are not included on the Database. Some of these confidential data, summarized at national and state levels, can be found in our publication:

AHA Hospital Statistics™.

Thank you for your purchase of the Annual Survey Database. We welcome your feedback at support@aha.org.

New for Fiscal Year 2012

AHA Annual Survey Database

New for Fiscal Year 2012

Please note that the length of some text fields may differ from prior years to accommodate the information submitted by the hospital.

The following service line was added for FY 2012:

- Magnetoencephalography (MEG)

The following fields were present on prior Survey questionnaires, but not the Database. They are added to the Database for FY 2012:

- Other Special Care, *Description*
- Other Intensive Care, *Description*
- Other Care, *Description*

The definitions for these fields are in the instructions and definitions portion of the *2012 AHA Annual Survey* questionnaire located at the end of this documentation book.

The file layout, available on the CD and in this booklet, notes new Database items in **bold**.

Technical User Notes

AHA Annual Survey Database

Technical User Notes

The Annual Survey Database Fiscal Year 2012 is provided in ASCII, comma delimited, and Microsoft® Access formats for use in a statistical application or other applications.

The Database files are included on the enclosed CD and are organized this way:

/ACCESS

AS2012.accdb	MS Access 2010 Database
AS2012_2003v.mdb	MS Access 2003 Database

/COMMA

as12dem.xls	MS Excel file - demographic
as12svc1.xls	MS Excel file – service 1 of 3
as12svc2.xls	MS Excel file – service 2 of 3
as12svc3.xls	MS Excel file – service 3 of 3
as12util1.xls	MS Excel file – utilization 1 of 2
as12util2.xls	MS Excel file – utilization 2 of 2
as2012fullfile.xlsx	MS Excel full file – must have MS Office 2007 or current
ASPUB12.csv	Comma delimited file
ASPUB12DCTfile.dct	Dictionary file

/DOCUMENTATION

AS2012lay.xls	File layout
AS2012desc.xls	Data description file
SASlayout2012.txt	SAS layout

/FLAT

pubas12.asc	The flat ascii fixed-length file
-------------	----------------------------------

/NPI

npi 2012	NPI database
NPIfilelayout.xls	The file layout of the AHA NPI with the AHA taxonomy descriptions and CMS taxonomy codes descriptions

/UNITS

FUNIT_ID.xls	Hospital Units Cross reference file
--------------	-------------------------------------

A unit is a distinct and separately identified site of care that is a component part of a larger hospital. Summary data appears only for the larger parent hospital. Beds and activity pertaining to the individual unit is subsumed under the parent hospital activity and cannot be separated from the larger hospital's data. The FUNIT_ID list links these familiar names to their parent hospital.

In order to decide which files are most appropriate for your use, read these descriptions and choose the data and documentation that best fits your environment.

Data

PUBAS12.ASC

This is a traditional fixed length flat ASCII file. New fields are incorporated into the file. Every effort is made to maintain consistency with prior years.

Use this file with the included SAS Code or to read the data into an existing application. The File Layout describes the fields and their positions.

PUBAS12.CSV

A comma delimited version of the database. The field names are imbedded in the first row of the file. This file can be read into any application that recognizes comma-separated-values, or comma-delimited formats. The File Layout describes the fields.

PUBAS12.MDB

The database is provided in Microsoft® ACCESS 2003 and 2007 formats. The tables in the database have been logically separated in order to accommodate a 256-column limit. The tables are:

AS12DEM	contains the demographic and descriptive fields for each facility
AS12SVC1	contains facilities and services fields
AS12SVC2	contains facilities and services fields
AS12SVC3	contains facilities and services fields
AS12UTIL1	contains utilization, personnel and the financial fields
AS12UTIL2	contains utilization, personnel and the financial fields

The **File Layout** identifies the specific Table location (name) for each field.

Documentation

The *File Description*, *File Layout*, and *Survey Questionnaire* are provided in digital format on the CD as well as in this Documentation Manual. The digital formats are convenient for key word searches.

The documentation is organized as follows:

AS 2012 Description.xls

The Database Description follows the organization of the Survey questionnaire.

This is a descriptive document and has:

- The corresponding survey question
- Field descriptions
- Notes about the field, including reference to secondary sources of information.

AS 2012 Layout.xls

This document is a technical layout of the Database file and contains:

- Field names
- Descriptions
- Relationship to the Survey instrument
- Location in Microsoft® ACCESS Table

Appendices

- Code Descriptions (Appendices A, B, C, D, F, G, H) referenced in the Description and Layout documents. *Note: The former Appendix E is consolidated with Appendix C.*

SAS INPUT 2012.TXT

The SAS code has been tested for this release of the *AHA Annual Survey Database*.

Enter the path name to read in the entire flat ASCII file. It will attach field labels to every field.

NPI DATA.xls

The technical layout of the NPI file.

For technical assistance call the AHA Resource Center at 312-422-2050.

Frequently Asked Questions

1. Which hospitals participate in the AHA Annual Survey?

The Survey is sent to all hospitals identified by the American Hospital Association as open and operating as a hospital. Both AHA member and non-member hospitals receive the Survey. This is not a sample survey. It is a survey of the complete universe of hospitals in the United States and territories.

2. Do all hospitals complete a Survey?

Although this is a voluntary survey, we achieve a response rate at or near 80%. Responding and non-responding hospitals are included in the Database. For non-responding hospitals an estimation process is used to impute missing statistical values (see *Estimation Process* in Technical User Notes).

3. How can I tell if a hospital responded to the Survey?

First, look at the field named RESP to see if the hospital responded to the survey. Additionally, for a number of fields, such as the utilization indicators, there are accompanying fields that tell if the data are estimated or reported. See *the File Layout for a complete list of these “estimation flags.”* Also see *Appendix H*.

4. How can I identify teaching hospitals or academic medical centers?

There is no one field for identifying teaching hospitals or academic medical centers. However it is possible to examine teaching status by looking at these five fields:

- MAPP3 – Approval to participate in residency and/or internship training by the Accreditation Council for Graduate Medical Education (ACGME).¹
- MAPP5 – Medical school affiliation reported to the American Medical Association (AMA).
- MAPP8 – Member of the Council of Teaching Hospitals (COH) of the Association of American Medical Colleges.
- MAPP12 – Internship approved by American Osteopathic Association.
- MAPP13 – Residency approved by American Osteopathic Association.

We consider **major teaching hospitals** to be all hospitals that have the Council of Teaching Hospitals designation (MAPP8). We consider **minor teaching hospitals** to be all hospitals that have any one or more of the other four MAPP codes identified above.

¹ Data from the Graduate Medical Education Database, Copyright 2013, American Medical Association, Chicago, Illinois

5. How are Urban/Rural locations derived?

A **rural** hospital is located outside a Metropolitan Statistical Area (MSA), as designated by the U.S. Office of Management and Budget (OMB), effective June 6, 2003. **Urban** hospitals are inside Metropolitan Statistical Areas. Micropolitan areas, which were new to the OMB June 6, 2003 definitions, continue to be classified as “rural” in AHA data offerings. See the *AHA Annual Survey Glossary for more information and the File Layout for the CBSATYPE field.*

6. Does the Database include ‘Unit’ hospitals?

Unit hospitals are not included in the Database. There is a separate cross-reference file identifying units and their affiliated parent hospital. For more information see the **/UNITS** portion of the Technical User notes.

7. Are Health Care Systems included in the Database?

Where available the affiliated health care system is identified as part of the hospital record. See the *file layout for SYSNAME.*

8. How can I identify integrated delivery networks?

There is no field for integrated delivery networks (IDNs), or integrated delivery systems (IDSs). We suggest that you look at the “health system” or “network” fields.

Registration Requirements for Hospitals

AHA Registered Hospitals

Any institution that can be classified as a hospital according to the requirements may be registered if it so desires. Membership in the American Hospital Association is not a prerequisite.

The American Hospital Association may, at the sole discretion of the Executive Committee of the Board of Trustees, grant, deny, or withdraw the registration of an institution.

An institution may be registered by the American Hospital Association as a hospital if it is accredited as a hospital by the Joint Commission on Accreditation of Healthcare Organizations or is certified as a provider of acute services under Title 18 of the Social Security Act and has provided the Association with documents verifying the accreditation or certification.

In lieu of preceding accreditation or certification, an institution licensed as a hospital by the appropriate state agency may be registered by AHA as a hospital by meeting the following alternative requirements:

FUNCTION: The primary function of the institution is to provide patient services, diagnostic and therapeutic, for particular or general medical conditions.

The institution shall maintain at least six inpatient beds, which shall be continuously available for the care of patients who are nonrelated and who stay on the average in excess of 24 hours per admission.

The institution shall be constructed, equipped, and maintained to ensure the health and safety of patients and to provide uncrowded, sanitary facilities for the treatment of patients.

There shall be an identifiable governing authority legally and morally responsible for the conduct of the hospital.

There shall be a chief executive to whom the governing authority delegates the continuous responsibility for the operation of the hospital in accordance with established policy.

There shall be an organized medical staff or fully licensed physicians* that may include other licensed individuals permitted by law and by the hospital to provide patient care services independently in the hospital. The medical staff shall be accountable to the governing authority for maintaining proper standards of medical care, and it shall be governed by bylaws adopted by said staff and approved by the governing authority.

Each patient shall be admitted on the authority of a member of the medical staff who has been granted the privilege to admit patients to inpatient services in accordance with state law and criteria for standards of medical care established by the individual medical staff. Each patient's general medical condition is the responsibility of the qualified physician member of the medical staff. When nonphysician members of the medical staff are granted privileges to admit patients, provision is made for prompt medical evaluation of these patients by a qualified physician. Any graduate of a foreign medical school who is permitted to assume responsibilities for patient care shall possess a valid license to practice medicine, or shall be certified by the Education Commission for Foreign Medical Graduates, or shall have qualified for and have successfully completed an academic year of supervised clinical training under direction of a medical school approved by the Liaison Committee on GAT Medical Education.

Registered nurse supervision and other nursing services are continuous.

A current and complete[±] medical record shall be maintained by the institution for each patient and shall be available for reference.

Pharmacy services shall be maintained in the institution and shall be supervised by a registered pharmacist.

The institution shall provide patients with food service that meets their nutritional and therapeutic requirements; special diets also shall be provided

Types of Hospitals

In addition to meeting these 10 general registration requirements, hospitals are registered as one of four types of hospitals: general, special, rehabilitation and chronic disease, or psychiatric. The following type of hospital and special requirements for each are employed:

General

The primary function of the institution is to provide patient services, diagnostic and therapeutic, for a variety of medical conditions. A general hospital also shall provide:

- Diagnostic x-ray services with facilities and staff for a variety of procedures.
- Clinical laboratory services with facilities and with anatomical pathology services regularly and conveniently available.
- Operating room service with facilities and staff.

Special

The primary function of the institute is to provide diagnostic and treatment services for patients who have specified medical conditions, both surgical and nonsurgical. A special hospital also shall provide:

- Such diagnostic and treatment services as may be determined by the Executive Committee of the Board of Trustees of the American Hospital Association to be appropriate for the specified medical conditions for which medical services are provided shall be maintained in the institution with suitable facilities and staff. If such conditions do not normally require diagnostic x-ray service, laboratory service, or operating room service, and if any such services are therefore not maintained in the institution, there

shall be written arrangements to make them available to patients requiring them.

- Clinical laboratory services capable of providing tissue diagnosis when offering pregnancy termination services.

Rehabilitation and Chronic Disease

The primary function of the institution is to provide diagnostic and treatment services to handicapped or disabled individuals requiring restorative and adjustive services.

A rehabilitation and chronic disease hospital shall also provide:

- Arrangements for diagnostic x-ray services, as required, on a regular and conveniently available basis.
- Arrangements for clinical laboratory service, as required, on a regular and conveniently available basis.
- Arrangements for operating room services, as required, on a regular and conveniently available basis.
- A physical therapy service with suitable facilities and staff in the institution.
- An occupational therapy service with suitable facilities and staff in the institution.
- Arrangements for psychological and social work services on a regular and conveniently available basis.
- Arrangements for educational and vocational services on a regular and conveniently available basis.
- Written arrangements with general hospital for the transfer of patients who require medical, obstetrical, or surgical services not available in the institution.

Psychiatric

The primary function of the institution is to provide diagnostic and treatment services for patients who have psychiatric-related illnesses. A psychiatric hospital shall also provide:

- Arrangements for clinical laboratory service, as required, on a regular and conveniently available basis.
- Arrangements for diagnostic x-ray services, as required, on a regular and conveniently available basis.
- Psychiatric, psychological, and social work service with facilities and staff in the institution.
- Arrangements for electroencephalograph services, as required, on a regular and conveniently available basis.
- Written arrangements with general hospital for the transfer of patients who require medical, obstetrical, or surgical services not available in the institution.

The American Hospital Association may, at the sole discretion of the Executive Committee of the Board of Trustees, grant, deny, or withdraw the registration of the institution.

* Physician-term used to describe an individual with an M.D. or D.O. degree who is fully licensed to practice medicine in all its phases.

‡ The completed records in general shall contain at least the following: The patients identifying data and consent forms, medical history, record of physical examination, physicians' progress notes, operative notes, nurses' notes, routine x-ray and laboratory reports, doctors' orders, and final diagnosis.

Estimation Process

Each year, AHA's Health Forum administers the AHA's Annual Survey. The purpose of the survey is to collect utilization, financial and personnel information on each of the nations' hospitals. The survey's overall response rate averages approximately 80% each year, which is considerably high for a voluntary survey given its length and the size of the universe.

For hospitals that do not respond at all, or not respond fully to the survey, a statistical methodology is run against their records to estimate missing values. The following describes the two major approaches used for estimation:

For nine key variables — total admissions; total births; total inpatient days; total expenses; total full-time employees; total surgical operations; total outpatient visits; total part-time employees; and total revenue — estimates are generated from regression models. For each variable, the previous year's data (base year) along with estimation status, percentage change in state median, MSA size and bed size are used as the independent variables, while the current year's value is the dependent value. The regression model generates a coefficient for each independent variable, which later will be used in estimating the current year's value. In other words, the current year's missing value is "predicted" by multiplying the base year data with the corresponding coefficients derived from the regression model.

Alternatively, components of the key variables and all other variables eligible for estimation are generated from a matrix of estimators. An estimator is a ratio of two variables: numerators are the variable to estimate; denominators are an indicator variable such as beds, bassinets or a total variable in which the numerator is an additive component. In the first step, the universe of hospitals is stratified into 52 stratum or cells. The stratification is based on the intersection of the following variables, control, service, bed size, and length of stay. Estimators are calculated using all reported data in each stratum. Each estimator takes on a different value for each stratum (thus the matrix). Using payroll expense as an example, matrix estimation occurs as follows. For hospitals in the same stratum, payroll expense as a percentage of total expense is computed based on reported data only. For a non-responding hospital in this same stratum, the estimated payroll expense value is derived by applying the above mentioned percentage to the non-respondent's total expense value regardless of whether that value is reported or estimated.

Please note that missing facilities and services collected through Section C of the survey are never estimated when missing. Beds, control, service, length of stay also are not estimated but are present in all cases. Values for these variables come from the AHA master facility inventory system. For an institution to be listed in the inventory file there must be a value for those variables. The compilation and management of the inventory is independent of the Annual Survey process.

C.103.d.	Does your hospital participate in joint venture arrangements with organizations other than physician groups	1=yes, 0=no
C.104.a.	*Has your hospital or health care system established an accountable care organization (ACO)?	1=yes, 0=no
C.104.b.	*If yes, please indicate the patient population that participates in the ACO (Check all that apply)	
C.104.b.a.	*Medicaid	
C.104.b.b.	*Medicare	
C.104.b.c.	*Privately insured	
C.104.b.d.	*Other	
C.104.b.d.	*Please specify	
C.105.	Does your hospital have an established medical home program?	1=yes, 0=no
C.106.	*Does your hospital participate in a bundled payment program involving inpatient, physician, and/or post acute care services where the hospital receives a single payment from a payer for a package of services and then distributes payments to participating providers of care (such as a single fee for hospital and physician services for a specific procedure, e.g. hip replacement, CABG)?	1=yes, 0=no

Database Description Document

FY 2012 Edition

Question 107 is asked for the hospital, the health system, the network, and joint venture		
C.107.	Does your hospital have equity interest in any of following insurance products?	1=yes, 0=no
C.107.1.	Health Maintenance Org	
c.107.2.	Preferred Provider Org	
c.107.3.	Indemnity Fee for Service Plan	
C.108.	Does your hospital have formal written contract that specifies obligations of each party with:	1=yes, 0=no
C.108.a.	HMO	
C.108.b.	If yes, how many contracts	1=yes, 0=no
C.108.c.	PPO	
C.108.d.	If yes, how many contracts	0=does not participate
C.109.	What percentage of net patient revenue is paid on capitated basis?	
C.110.	What percentage of net patient revenue is paid on shared risk basis?	1=yes, 0=no DELETE
C.111.	Does hospital contract directly with employers or coalition of employers to provide care on capitated, predetermined or shared risk basis	1=yes, 0=no
C.112.	If hospital arranges to care for specified group of enrollees in exchange for capitated payment, how many lives are covered?	
D: TOTAL FACILITY BEDS, UTILIZATION, FINANCES AND STAFFING		
Calculated	Does the hospital maintain a separate nursing home type of long-term care unit?	1=yes, 0=no, see Appendix H for more information
D.1.a	Total licensed beds	
D.1.a.	Total licensed beds-long term unit	
D.1.b.	Total facility beds set up and staffed at the end of reporting period	
D.1.b.	Nursing home beds set up and staffed	Total beds less nursing home beds
Calculated	Hospital unit beds set up and staffed	
D.1.c.	Bassinets set up and staffed	
D.1.d.	Total births (excluding fetal deaths)	
D.1.e	Total facility admissions	
D.1.e.	Nursing home admissions	Total admissions less nursing home admissions
Calculated	Hospital unit admissions	
D.1.f.	Total facility inpatient days	
D.1.f.	Nursing home inpatient days	Total inpatient days less nursing home inpatient days
Calculated	Hospital unit inpatient days	
D.1.g.	Emergency room visits	
D.1.h.	Total outpatient visits	
Calculated	Other outpatient visits	Total outpatient visits less emergency room visits
D.1.i.	Inpatient surgical operations	

Database Description Document

FY 2012 Edition

D.1.j.	Number of operating rooms	
D.1.k.	Outpatient surgical operations	
Calculated	Total surgical operations	Inpatient surgical operations plus outpatient surgical operations
D.2.a1.	Total facility Medicare inpatient discharges	
D.2.a1.	Nursing home Medicare inpatient discharges	
Calculated	Hospital unit Medicare inpatient discharges	Total Medicare discharges less nursing home Medicare discharges
D.2.a2.	Medicare Managed care discharges	
D.2.a2.	Nursing home Medicare managed care discharges	
Calculated	Hospital unit Medicare managed care discharges	Total Medicare Managed care discharges less nursing home Medicare managed care discharges
D.2.b1.	Total facility Medicare inpatient days	
D.2.b1.	Nursing home Medicare inpatient days	
Calculated	Hospital unit Medicare inpatient days	Total Medicare days less nursing home Medicare days
D.2.b2.	Total facility Medicare managed care inpatient days	
D.2.b2.	Nursing home Medicare managed care inpatient days	
Calculated	Hospital unit Medicare managed care inpatient days	Total Medicare managed care inpatient days less nursing home Medicare managed care inpatient days
D.2.c1.	Total facility Medicaid inpatient discharges	
D.2.c1.	Nursing home Medicaid inpatient discharges	
Calculated	Hospital unit Medicaid inpatient discharges	Total Medicaid discharges less nursing home Medicaid discharges
D.2.c2.	Total facility Medicaid managed care inpatient discharges	
D.2.c2.	Nursing home Medicaid managed care inpatient discharges	
Calculated	Hospital unit Medicaid managed care inpatient discharges	Total Medicaid managed care inpatient discharges less nursing home Medicaid managed care inpatient discharges
D.2.d1.	Total facility Medicaid inpatient days	
D.2.d1.	Nursing home Medicaid inpatient days	
Calculated	Hospital unit Medicaid inpatient days	Total Medicaid days less nursing home Medicaid days
D.2.d2.	Total facility Medicaid managed care inpatient days	
D.2.d2.	Nursing home Medicaid managed care inpatient days	

Database Description Document

FY 2012 Edition

Calculated	Hospital unit Medicaid managed care inpatient days	Total Medicaid managed care inpatient days less nursing home Medicaid managed care inpatient days
	*Revenue data is considered confidential and is not released publicly at the hospital-specific level	
D.3.a.	Total facility Revenue, Net Patient Total, including bad debt	
D.3.a.	Nursing Home Revenue, Net Patient Total, including bad debt	
Calculated	Hospital Revenue, Net Patient Total, including bad debt	Total facility net patient revenue less nursing home net patient revenue
D.3.b.	Other operating revenue, Tax appropriations	
D.3.c.	Other operating revenue, other than tax appropriations	
D.3.d.	Other total non-operating revenue	
D.3.e.	Total revenue, including bad debt	
D.3.e.	Nursing home total revenue, including bad debt	
Calculated	Hospital total revenue, including bad debt	Total facility revenue less nursing home revenue
D.3.f.	Total facility payroll expenses	
D.3.f.	Nursing home payroll expenses	
Calculated	Hospital unit payroll expenses	Total payroll expenses less nursing home payroll expenses
D.3.g.	Total facility employee benefits	
D.3.g.	Nursing home employee benefits	
Calculated	Hospital unit employee benefits	Total employee benefits expenses less nursing home employee benefits expenses
D.3.h.	Depreciated expense (for reporting period only)	
D.3.i.	Interest Expense	
D.3.j.	Supply Expense	
D.3.k.	Total facility total expenses	
D.3.k.	Nursing home total expenses	
Calculated	Hospital unit total expenses	(Total payroll plus all non-payroll expenses) less (nursing home payroll plus all non-payroll expenses). Excludes bad debt.
*D.4.a.	*Gross inpatient revenue	*Data not available
*D.4.b.	*Gross outpatient revenue	*Data not available

Appendix B – Primary Service Code Descriptions

Code	Description
10	General medical and surgical
11	Hospital unit of an institution (prison hospital, college infirmary, etc.)
12	Hospital unit within an institution for the mentally retarded
13	Surgical
22	Psychiatric
33	Tuberculosis and other respiratory diseases
41	Cancer
42	Heart
44	Obstetrics and gynecology
45	Eye, ear, nose and throat
46	Rehabilitation
47	Orthopedic
48	Chronic disease
49	Other specialty treatment
50	Children's general medical and surgical
51	Children's hospital unit of an institution
52	Children's psychiatric
53	Children's tuberculosis and other respiratory diseases
55	Children's eye, ear, nose and throat
56	Children's rehabilitation
57	Children's orthopedic
58	Children's chronic disease
59	Children's other specialty
62	Institution for mental retardation
80	Acute long-term care hospital
82	Alcoholism and other chemical dependency
90	Children's acute long-term Care

Appendix G – Health Care System Taxonomy Description

Research using existing theory and AHA Annual Survey data identified a reliable set of five distinct groups of health systems that share common strategic/structural features. This identification system was developed jointly by the American Hospital Association's Health Research and Educational Trust and Health Forum, and the University of California-Berkeley. For further information on the development of the taxonomy please see: Bazzoli, GJ; Shortell, SM; Dubbs, N; Chan, C; and Kralovec, P; "A Taxonomy of Health Networks and Systems: Bringing Order Out of Chaos" Health Services Research, February; 1999. A health system is assigned to one of five categories based on how much they differentiate and centralize their hospital services, physician arrangements, and provider-based insurance products. Differentiation refers to the number of different products or services that the organization offers. Centralization refers to whether decision-making and service delivery emanates from the system level more so than individual hospitals.

Code	Label	Description
1	Centralized Health System	A delivery system in which the system centrally organizes individual hospital service delivery, physician arrangements, and insurance product development. The number of different products/services that are offered across the system is moderate.
2	Centralized Physician/Insurance Health System	A delivery system with highly centralized physician arrangements and insurance product development. Within this group, hospital services are relatively decentralized with individual hospitals having discretion over the array of services they offer. The number of different products/services that are offered across the system is moderate.
3	Moderately Centralized Health System	A delivery system that is distinguished by the presence of both centralized and decentralized activity for hospital services, physician arrangements, and insurance product development. For example, a system within this group may have centralized care of expensive, high technology services, such as open heart surgery, but allows individual hospitals to provide an array of other health services based on local needs. The number of different products/services that are offered across the system is moderate.
4	Decentralized Health System	A delivery system with a high degree of decentralization of hospital services, physician arrangements, and insurance product development. Within this group, systems may lack an overarching structure for coordination. Service and product differentiation is high, which may explain why centralization is hard to achieve. In this group, the system may simply serve a role in sharing information and providing administrative support to highly developed local delivery systems centered around hospitals.
5	Independent Hospital System	A delivery system with limited differentiation; hospital services, physician arrangements, and insurance product development. These systems are largely horizontal affiliations of autonomous hospitals.
6 or blank	Blank	Sufficient data from the FY 2012 Annual Survey were not available to determine a cluster assignment.

Appendix H – Estimation, Modified FIPS, and Length of Stay

Estimation Codes

Code	Description																											
0	The value was reported by the hospital																											
1	The value was estimated since no value was reported by the hospitals																											
2	The value has been expanded, since the reported value is associated with a reporting period of less than 1 full year																											
•	<p>If the hospital did not respond to the survey (RESP=2), the following fields were obtained from AHA's internal database.</p> <table border="0"> <tr> <td>AHA ID</td> <td>Hospital Name</td> <td>Bed Size code</td> </tr> <tr> <td>Control/Ownership</td> <td>CEO Name</td> <td>Length of Stay code</td> </tr> <tr> <td>Primary Service code</td> <td>Address</td> <td>County code</td> </tr> <tr> <td>Number of Bassinets</td> <td>City</td> <td>City Rank</td> </tr> <tr> <td>Total Beds</td> <td>State</td> <td>All accreditation and affiliation flags (MAPP1 through MAPP21)</td> </tr> <tr> <td>Membership Type</td> <td>ZIP code</td> <td></td> </tr> <tr> <td>Long term/Short term flag</td> <td>Area code</td> <td></td> </tr> <tr> <td>Control Code – Membership</td> <td>Telephone number</td> <td></td> </tr> <tr> <td>Service Code - Membership</td> <td></td> <td></td> </tr> </table>	AHA ID	Hospital Name	Bed Size code	Control/Ownership	CEO Name	Length of Stay code	Primary Service code	Address	County code	Number of Bassinets	City	City Rank	Total Beds	State	All accreditation and affiliation flags (MAPP1 through MAPP21)	Membership Type	ZIP code		Long term/Short term flag	Area code		Control Code – Membership	Telephone number		Service Code - Membership		
AHA ID	Hospital Name	Bed Size code																										
Control/Ownership	CEO Name	Length of Stay code																										
Primary Service code	Address	County code																										
Number of Bassinets	City	City Rank																										
Total Beds	State	All accreditation and affiliation flags (MAPP1 through MAPP21)																										
Membership Type	ZIP code																											
Long term/Short term flag	Area code																											
Control Code – Membership	Telephone number																											
Service Code - Membership																												
•	All fields with corresponding estimation fields have been estimated or expanded. Other fields, such as facilities and services were left blank.																											
•	If the separate units code (SUNITS) is 0, all short-term and long-term data fields are blank.																											

Modified FIPS County Code

County codes generally are odd numbers assigned to an alphabetical listing of the counties within a state. Baltimore City is included in Baltimore County, St Louis City is included in St Louis County, and the independent cities in Virginia are each included in the contiguous counties. Kalawao County, Hawaii is included in Maui County. The four Alaska Judicial Divisions were used as counties.

Long term/Short term Flag (LOS)

If a separate long-term unit is reported and long-term admissions are greater than one-half of total admissions, then LOS is 2; otherwise LOS is 1. If a separate long-term unit is not reported and the ratio of inpatient days to admissions is 30 or more, then LOS is 2; otherwise LOS is 1.

SECTION

**AHA Annual Survey of Hospitals
2012 Questionnaire**

**AHA
Annual
Survey
Database**

2012 AHA Annual Survey Health Forum, L.L.C.

**Please return to:
AHA Annual Survey
155 N Wacker Dr
Suite 400
Chicago IL 60606**

A. REPORTING PERIOD (please refer to the instructions and definitions at the end of this questionnaire)

Report data for a full 12-month period, preferably your last completed fiscal year (366 days). (Be consistent in using the same reporting period for responses throughout various sections of this survey.)

1. Reporting Period used (beginning and ending date) / / to / /
Month Day Year Month Day Year
2. a. Were you in operation 12 full months
at the end of your reporting period YES NO
- b. Number of days open
during reporting period
3. Indicate the beginning of your current fiscal year / /
Month Day Year

B. ORGANIZATIONAL STRUCTURE

1. CONTROL

Indicate the type of organization that is responsible for establishing policy for overall operation of your hospital. CHECK ONLY ONE:

Government, nonfederal

- 12 State
 13 County
 14 City
 15 City-County
 16 Hospital district or authority

Nongovernment, not-for profit (NFP)

- 21 Church-operated
 23 Other not-for-profit (including NFP Corporation)

Investor-owned, for-profit

- 31 Individual
 32 Partnership
 33 Corporation

Government, federal

- 41 Air Force
 42 Army
 43 Navy
 44 Public Health Service
 45 Veterans' Affairs
 46 Federal other than 41-45 or 47-48
 47 PHS Indian Service
 48 Department of Justice

2. SERVICE

Indicate the ONE category that BEST describes your hospital or the type of service it provides to the MAJORITY of patients:

- | | |
|--|--|
| <input type="checkbox"/> 10 General medical and surgical | <input type="checkbox"/> 46 Rehabilitation |
| <input type="checkbox"/> 11 Hospital unit of an institution (prison hospital, college infirmary) | <input type="checkbox"/> 47 Orthopedic |
| <input type="checkbox"/> 12 Hospital unit within an institution for the mentally retarded | <input type="checkbox"/> 48 Chronic disease |
| <input type="checkbox"/> 13 Surgical | <input type="checkbox"/> 62 Institution for the mentally retarded |
| <input type="checkbox"/> 22 Psychiatric | <input type="checkbox"/> 80 Acute long-term care hospital |
| <input type="checkbox"/> 33 Tuberculosis and other respiratory diseases | <input type="checkbox"/> 82 Alcoholism and other chemical dependency |
| <input type="checkbox"/> 41 Cancer | <input type="checkbox"/> 49 Other-specify treatment area: _____ |
| <input type="checkbox"/> 42 Heart | |
| <input type="checkbox"/> 44 Obstetrics and gynecology | |
| <input type="checkbox"/> 45 Eye, ear, nose, and throat | |

3. OTHER

- a. Does your hospital restrict admissions primarily to children? YES NO

B. ORGANIZATIONAL STRUCTURE (continued)

b. Does the hospital itself operate subsidiary corporations? YES NO

c. Is the hospital contract managed? If yes, please provide the name, city, and state of the organization .. YES NO

Name: _____ City: _____ State: _____

d. Is the hospital a participant in a network?YES NO

If yes, please provide the name, city and state and telephone number of the network. If the hospital participates in more than one network, please provide the name, city, and state and telephone number of the network on page 15, under supplemental information.

Name: _____ City: _____ State: _____ Telephone _____

e. Is your hospital owned in whole or in part by physicians or a physician group?..... YES NO

f. If you checked 80 Acute long-term care hospital (LTCH) in the Section B2 (Service), please indicate if you are a freestanding LTCH or a LTCH arranged within a general acute care hospital.

Free standing LTCH LTCH arranged in a general acute care hospital

If you are arranged in a general acute care hospital, what is your host hospital's name?

Name _____ City _____ State _____

4. NATIONAL PROVIDER IDENTIFIER (NPI)

a. Does your hospital have its National Provider Identifier (NPI) from the National Plan and Provider Enumeration System?
YES NO

If yes, please report the ten digit NPI _ _ _ _ _

b. Does your hospital also have a Subpart NPI? YES NO

If yes, please report the Subpart NPI and provide the relevant taxonomy code to indicate the type of service provided. If you have multiple Subpart NPIs please report them all (in the supplemental section on page 13 at the end of this questionnaire, or on a separate sheet).

Subpart NPI 1 _ _ _ _ _ Taxonomy Code _ _

Subpart NPI 2 _ _ _ _ _ Taxonomy Code _ _

Subpart NPI 3 _ _ _ _ _ Taxonomy Code _ _

Taxonomy Codes	
Ambulatory Health Care Facility	01
Medicare Defined Swing Bed Unit	02
Psychiatric Unit	03
Rehabilitation Unit	04
Rehabilitation, Substance Use Disorder Unit	05
Laboratory	06
Nursing and Custodial Care Facility	07
Residential Treatment Facility	08
Respite Care Facility	09
Other	10

C. FACILITIES AND SERVICES

For each service or facility listed below, please check all the categories that describe how each item is provided **as of the last day of the reporting period**. Check all categories that apply for an item. Leave all categories blank for a facility or service that is not provided. Column 3 refers to the networks that were identified in section B, question 3d. If you check column (1) C1-19, please include the number of staffed beds. **The sum of the beds reported in 1-19 should equal Section D(1b), beds set up and staffed on page 9.**

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided by my network (in my local community)	(4) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system or network (in my local community)

31. Blood Donor Center	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32. Breast cancer screening/mammograms	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. FACILITIES AND SERVICES (continued)

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided by my network (in my local community)	(4) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system or network (in my local community)
33. Cardiology and cardiac surgery services				
a. Adult cardiology services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Pediatric cardiology services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Adult diagnostic catheterization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Pediatric diagnostic catheterization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Adult interventional cardiac catheterization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Pediatric interventional cardiac catheterization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Adult cardiac surgery.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Pediatric cardiac surgery.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Adult cardiac electrophysiology.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Pediatric cardiac electrophysiology.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Cardiac rehabilitation.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
34. Case management.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
35. Chaplaincy/pastoral care services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
36. Chemotherapy.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37. Children's wellness program.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38. Chiropractic services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39. Community outreach.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40. Complementary and alternative medicine services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41. Computer assisted orthopedic surgery (CAOS).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42. Crisis prevention.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43. Dental services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44. Emergency services				
a. Emergency department.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Pediatric emergency department.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Satellite emergency department.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. If you checked column 1 (44c), is the department open 24 hours a day, 7 days a week? Yes <input type="checkbox"/> No <input type="checkbox"/>				
e. Trauma center (certified) [Level of unit (1-3) ____].....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45. Enabling services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46. Endoscopic services				
a. Optical colonoscopy.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Endoscopic ultrasound.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Ablation of Barrett's esophagus.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Esophageal impedance study.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Endoscopic retrograde cholangiopancreatography (ERCP) ...	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
47. Enrollment (insurance) assistance services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
48. Extracorporeal shock wave lithotripter (ESWL).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
49. Fertility clinic.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
50. Fitness center.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
51. Freestanding outpatient care center.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
52. Geriatric services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
53. Health fair.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. FACILITIES AND SERVICES (continued)

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided by my network (in my local community)	(4) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system or network (in my local community)
54. Community health education	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
55. Genetic testing/counseling	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
56. Health screenings	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
57. Health research	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
58. Hemodialysis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
59. HIV/AIDS services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
60. Home health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
61. Hospice program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
62. Hospital-based outpatient care center services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
63. Immunization program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
64. Indigent care clinic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
65. Linguistic/translation services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
66. Meal on wheels	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
67. Mobile health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
68. Neurological services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
69. Nutrition program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
70. Occupational health services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
71. Oncology services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
72. Orthopedic services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
73. Outpatient surgery	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

99. Volunteer services department	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
100. Women's health center/services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
101. Wound management services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

102a. In which of the following physician arrangements does your hospital or system/network participate? Column 3 refers to the networks that were identified in section B, question 3d. For hospital level physician arrangements that are reported in column 1, please report the number of physicians involved.

	(1) My Hospital		(2) My Health System	(3) My Health Network
a. Independent Practice Association (IPA)	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
b. Group practice without walls	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
c. Open Physician-Hospital Organization (PHO)	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
d. Closed Physician-Hospital Organization (PHO)	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
e. Management Service Organization (MSO)	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
f. Integrated Salary Model	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
g. Equity Model	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
h. Foundation	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>
i. Other, please specify _____	<input type="checkbox"/>	(# of physicians _____)	<input type="checkbox"/>	<input type="checkbox"/>

102b. Looking across all the relationships identified in question 102a, what is the total number of physicians (count each physician only once) that are engaged in an arrangement with your hospital that allows for joint contracting with payers or shared responsibility for financial risk or clinical performance between the hospital and physician (arrangement may be at the hospital, system or network level)? # of physicians _____

103a. Does your hospital participate in any joint venture arrangements with physicians or physician groups? YES NO

103b. If your hospital participates in any joint ventures with physicians or physician groups, please indicate which types of services are involved in those joint ventures (Check all that apply)

- a. Limited service hospital
- b. Ambulatory surgical centers
- c. Imaging centers
- d. Other _____

103c. If you selected 'a. Limited Service Hospital', please tell us what type(s) of services are provided. (Check all that apply.)

- a. Cardiac
- b. Orthopedic
- c. Surgical
- d. Other _____

103d. Does your hospital participate in joint venture arrangements with organizations other than physician groups? YES NO

C. FACILITIES AND SERVICES (continued)

104a. Has your hospital or health care system established an accountable care organization (ACO)? YES NO

104b. If yes, please indicate the patient population that participates in the ACO. (Check all that apply):

- a. Medicaid
- b. Medicare
- c. Privately insured
- d. Other, please specify _____

105. Does your hospital have an established medical home program? YES NO

106. Does your hospital participate in a bundled payment program involving inpatient, physician, and/or post acute care services where the hospital receives a single payment from a payer for a package of services and then distributes payments to participating providers of care (such as a single fee for hospital and physician services for a specific procedure, e.g. hip replacement, CABG)? YES NO

107. Does your hospital, health system or health network have an equity interest in any of the following insurance products? (Check all that apply) Contractual relationships with HMOs and PPOs should not be reported here but in Question 108. Column 3 refers to the networks that were identified in section B, question 3d.

	(1) My Hospital	(2) My Health System	(3) My Health Network	(4) Joint Venture with Insurer
1. Health Maintenance Organization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Preferred Provider Organization.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Indemnity Fee for Service Plan.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

108. Does your hospital have a formal written contract that specifies the obligations of each party with:

- a. Health maintenance organization (HMO)YES NO b. If YES, how many contracts? _____
- c. Preferred provider organization (PPO)YES NO d. If YES, how many contracts? _____

109. What percentage of the hospital's net patient revenue is paid on a capitated basis? _____ %
If the hospital does not participate in capitated arrangements, please enter "0"

110. What percentage of the hospital's net patient revenue is paid on a shared risk basis? _____ %

111. Does your hospital contract directly with employers or a coalition of employers to provide care on a capitated, predetermined, or shared risk basis?YES NO

112. If your hospital has arrangements to care for a specific group of enrollees in exchange for a capitated payment, how many lives are covered? _____

D. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING

Please report beds, utilization, financial, and staffing data for the 12-month period that is consistent with the period reported on page 1. Report financial data for reporting period only. Include within your operations all activities that are wholly owned by the hospital, including subsidiary corporations regardless of where the activity is physically located. Please do not include within your operations distinct and separate divisions that may be owned by your hospital's parent corporation. If final figures are not available, please estimate. Round to the nearest dollar. Report all personnel who were on the payroll and whose payroll expenses are reported in D3f. (Please refer to specific definitions on pages 21-23.)

Fill out column (2) if hospital owns and operates a nursing home type unit/facility. Column (1) should be the combined total of hospital plus nursing home unit/facility.

	(1)	(2)
Total Facility	Nursing Home	Unit/Facility

1. BEDS AND UTILIZATION

a. Total licensed beds.....	_____	_____
b. Beds set up and staffed for use at the end of the reporting period	_____	_____
c. Bassinets set up and staffed for use at the end of the reporting period	_____	_____
d. Births (exclude fetal deaths)	_____	_____
e. Admissions (exclude newborns, include neonatal & swing admissions)	_____	_____
f. Inpatient days (exclude newborns, include neonatal & swing days)	_____	_____
g. Emergency department visits.....	_____	_____
h. Total outpatient visits (include emergency department visits & outpatient surgeries)....	_____	_____
i. Inpatient surgical operations	_____	_____
j. Number of operating rooms	_____	_____
k. Outpatient surgical operations.....	_____	_____

2. MEDICARE/MEDICAID UTILIZATION (exclude newborns, include neonatal & swing days and deaths)

a1. Total Medicare (Title XVIII) inpatient discharges (including Medicare Managed Care)	_____	_____
a2. How many Medicare inpatient discharges were Medicare Managed Care	_____	_____
b1. Total Medicare (Title XVIII) inpatient days (including Medicare Managed Care)	_____	_____
b2. How many Medicare inpatient days were Medicare Managed Care	_____	_____
c1. Total Medicaid (Title XIX) inpatient discharges (including Medicaid Managed Care)	_____	_____
c2. How many Medicaid inpatient discharges were Medicaid Managed Care	_____	_____
d1. Total Medicaid (Title XIX) inpatient days (including Medicaid Managed Care)	_____	_____
d2. How many Medicaid inpatient days were Medicaid Managed Care	_____	_____

3. FINANCIAL

*a. Net patient revenue (treat bad debt as a deduction from revenue).....	_____	_____
*b. Tax appropriations	_____	_____
*c. Other operating revenue	_____	_____
*d. Nonoperating revenue	_____	_____
*e. TOTAL REVENUE (add 3a thru 3d)	_____	_____
f. Payroll expenses (only)	_____	_____
g. Employee benefits	_____	_____
h. Depreciation expense (for reporting period only)	_____	_____
i. Interest expense	_____	_____
j. Supply expense.....	_____	_____
k. TOTAL EXPENSES (Payroll plus all non-payroll expenses. Exclude bad debt)	_____	_____

***4. REVENUE BY TYPE**

a. Total gross inpatient revenue.....	_____
b. Total gross outpatient revenue	_____
c. Total gross patient revenue	_____

D. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING (continued)

11. PRIVILEGED PHYSICIANS

Report the total number of physicians with privileges at your hospital by type of relationship with the hospital. The sum of the physicians reported in 11a-11f should equal the total number of privileged physicians (11g) in the hospital.

	(1) Total Employed	(2) Total Individual Contract	(3) Total Group Contract	(4) Not Employed or Under Contract	(5) Total Privileged
a. Primary care (general practitioner, general internal medicine, family practice, general pediatrics, obstetrics/gynecology, geriatrics)	_____	_____	_____	_____	_____
b. Emergency medicine	_____	_____	_____	_____	_____
c. Hospitalist	_____	_____	_____	_____	_____
d. Intensivist	_____	_____	_____	_____	_____
e. Radiologist/pathologist/anesthesiologist	_____	_____	_____	_____	_____
f. Other specialist	_____	_____	_____	_____	_____
g. Total (add 11a-11f)	_____	_____	_____	_____	_____

12. HOSPITALISTS

a. Do hospitalists provide care for patients in your hospital? YES NO (if yes, please report in D.11c.)

b. If yes, please report the total number of full-time equivalents (FTE) hospitalists.....FTE _____

13. INTENSIVISTS

a. Do intensivists provide care for patients in your hospital? (If no, please skip to 14.) YES NO (if yes, please report in D.11d.)

b. If yes, please report the total number of FTE intensivists and assign them to the following areas. Please indicate whether the intensive care area is closed to intensivists. (Meaning that only intensivists are authorized to care for ICU patients.)

	FTE	Closed to Intensivists
1. Medical-surgical intensive care	_____	<input type="checkbox"/>
2. Cardiac intensive care	_____	<input type="checkbox"/>
3. Neonatal intensive care	_____	<input type="checkbox"/>
4. Pediatric intensive care	_____	<input type="checkbox"/>
5. Other intensive care	_____	<input type="checkbox"/>
6. Total	_____	

14. ADVANCED PRACTICE REGISTERED NURSES

a. Do advanced practice nurses provide care for patients in your hospital? YES NO (if no, please skip to 15.)

b. If yes, please report the number of full time, part time and FTE advanced practice nurses employed or contracted to provide care for patients in your hospital.
 _____ Full-time _____ Part-time _____ FTE

c. If yes, please indicate the type of service the nurses provide (Please check all that apply).

- Primary care Anesthesia services (Certified registered nurse anesthetist) Emergency department care
 Other specialty care Patient education Case management Other

15. FOREIGN EDUCATED NURSES

a. Did your facility hire more foreign-educated nurses (including contract or agency nurses) to help fill RN vacancies in 2012 vs. 2011?
 More Less Same Did not hire foreign nurses

b. If yes, from which countries/continents are you recruiting foreign-educated nurses?
 Africa South Korea Canada Philippines China India Other

SECTION A REPORTING PERIOD Instructions

INSTRUCTIONS AND DEFINITIONS FOR THE 2012 ANNUAL SURVEY OF HOSPITALS.

For purposes of this survey, a hospital is defined as the organization or corporate entity licensed or registered as a hospital by a state to provide diagnostic and therapeutic patient services for a variety of medical conditions, both surgical and nonsurgical.

1. Reporting period used (beginning and ending date): Record the beginning and ending dates of the reporting period in an eight-digit number: for example, January 1, 2009 should be shown as 01/01/2009. Number of days should equal the time span between the two dates that the hospital was open. If you are reporting for less than 366 days, utilization and finances should be presented for days reported only.
2. Were you in operation 12 full months at the end of your reporting period? If you are reporting for less than 366 days, utilization and finances should be presented for days reported only.
3. Number of days open during reporting period: Number of days should equal the time span between the two dates that the hospital was open.

SECTION B ORGANIZATIONAL STRUCTURE Instructions and Definitions

1. CONTROL

Check the box to the left of the type of organization that is responsible for establishing policy for overall operation of the hospital.

Government, nonfederal.

State. Controlled by an agency of state government.

County. Controlled by an agency of county government.

City. Controlled by an agency of municipal government.

City-County. Controlled jointly by agencies of municipal and county governments.

Hospital district or authority. Controlled by a political subdivision of a state, county, or city created solely for the purpose of establishing and maintaining medical care or health-related care institutions.

Nongovernment, not for profit. Controlled by not-for-profit organizations, including religious organizations (Catholic hospitals, for example), community hospitals, cooperative hospitals, hospitals operated by fraternal societies, and so forth.

Investor owned, for profit. Controlled on a for profit basis by an individual, partnership, or a profit making corporation.

Government, federal. Controlled by an agency or department of the federal government.

2. SERVICE

Indicate the ONE category that best describes the type of service that your hospital provides to the majority of patients.

General medical and surgical. Provides diagnostic and therapeutic services to patients for a variety of medical conditions, both surgical and nonsurgical.

Hospital unit of an institution. Provides diagnostic and therapeutic services to patients in an institution.

Hospital unit within an institution for the mentally retarded. Provides diagnostic and therapeutic services to patients in an institution for the mentally retarded.

Surgical. An acute care specialty hospital where 2/3 or more of its inpatient claims are for surgical/diagnosis related groups.

Psychiatric. Provides diagnostic and therapeutic services to patients with mental or emotional disorders.

Tuberculosis and other respiratory diseases. Provides medical care and rehabilitative services to patients for whom the primary diagnosis is tuberculosis or other respiratory diseases.

Cancer. Provides medical care to patients for whom the primary diagnosis is cancer.

Heart. Provides diagnosis and treatment of heart disease.

Obstetrics and gynecology. Provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs.

Eye, ear, nose, and throat. Provides diagnosis and treatment of diseases and injuries of the eyes, ears, nose, and throat.

Rehabilitation. Provides a comprehensive array of restoration services for the disabled and all support services necessary to help them attain their maximum functional capacity.

Orthopedic. Provides corrective treatment of deformities, diseases, and ailments of the locomotive apparatus, especially affecting the limbs, bones, muscles, and joints.

Chronic disease. Provides medical and skilled nursing services to patients with long-term illnesses who are not in an acute phase, but who require an intensity of services not available in nursing homes.

Institution for the mentally retarded. Provides health-related care on a regular basis to patients with psychiatric or developmental impairment who cannot be treated in a skilled nursing unit.

Acute long term care hospital. Provides high acuity interdisciplinary services to medically complex patients that require more intensive recuperation and care than can be provided in a typical nursing facility.

Alcoholism and other chemical dependency. Provides diagnostic and therapeutic services to patients with alcoholism or other drug dependencies.

3. OTHER

a. **Children admissions.** A hospital whose primary focus is the health and treatment of children and adolescents.

b. **Subsidiary.** A company that is wholly controlled by another or one that is more than 50% owned by another organization.

c. **Contract managed.** General day-to-day management of an entire organization by another organization under a formal contract. Managing organization reports directly to the board of trustees or owners of the managed organization; managed organization retains total legal responsibility and ownership of the facility's assets and liabilities.

d. **Network.** A group of hospitals, physicians, other providers, insurers and/or community agencies that voluntarily work together to coordinate and deliver health services

4. **National Provider Identifier (NPI)** is a unique identification number for covered health care providers. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number).

SECTION C FACILITIES AND SERVICES

Definitions

Owned/provided by the hospital or its subsidiary. All patient revenues, expenses and utilization related to the provision of the service are reflected in the hospital's statistics reported elsewhere in this survey.

Provided by my Health System (in my local community). Another health care provider in the same system as your hospital provides the service and patient revenue, expenses, and utilization related to the provision of the service are recorded at the point where the service was provided and would not be reflected in your hospital's statistics reported elsewhere in this survey. (A system is a corporate body that owns, leases, religiously sponsors and/or manages health provider)

Provided by my network (in my local community). Another health care provider in the same network as your hospital provides the service and patient revenue, expenses and utilization related to the provision of the service are recorded at the point where the service was provided and would not be reflected in your hospital's statistics reported elsewhere in this survey. (A network is a group of hospitals, physicians, other providers, insurers and/or community agencies that voluntarily work together to coordinate and deliver health services. When reporting a service for a network, please indicate the name of the network in Section B, question d.)

Provided through a formal contractual arrangement or joint venture with another provider that is not in my system or network. All patient revenues and utilization related to the provision of the service are recorded at the site where the service was provided and would not be reflected in your hospital statistics reported elsewhere in this survey. (A joint venture is a contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the venture's purpose.)

1. **General medical-surgical care.** Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans.
 2. **Pediatric medical-surgical care.** Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans.
 3. **Obstetrics.** Level should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist.
 4. **Medical surgical intensive care.** Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units.
 5. **Cardiac intensive care.** Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units.
 6. **Neonatal intensive care.** A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU.
 7. **Neonatal intermediate care.** A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recovery care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring.
 8. **Pediatric intensive care.** Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care.
 9. **Burn care.** Provides care to severely burned patients. Severely burned patients are those with any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors.
 10. **Other special care.** Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units.
 11. **Other intensive care.** A specially staffed, specialty equipped, separate section of a hospital dedicated to the observation, care, and treatment of patients with life threatening illnesses, injuries, or complications from which recovery is possible. It provides special expertise and facilities for the support of vital function and utilizes the skill of medical nursing and other staff experienced in the management of these problems.
 12. **Physical rehabilitation.** Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity.
 13. **Alcoholism-drug abuse or dependency care.** Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.
 14. **Psychiatric care.** Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons.
 15. **Skilled nursing care.** Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis.
 16. **Intermediate nursing care.** Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services.
 17. **Acute long-term care.** Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24-hour/7 day a week basis.
 18. **Other long-term care.** Provision of long-term care other than skilled nursing care or intermediate care for those who do not require daily medical or nursing services, but may require some assistance in the activities of daily living. This can include residential care, elderly care, or sheltered care facilities for developmentally disabled.
 19. **Other care.** (specify) Any type of care other than those listed above.
- The sum of the beds reported in Section C 1-19 should equal what you have reported in Section D(1b) for beds set up and staffed.**
20. **Adult day care program.** Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health

- monitoring, occupational therapy, personal care, noon meal, and transportation services.
20. **Airborne infection isolation room.** A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing and inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration.
 22. **Alcoholism-drug abuse or dependency outpatient services.** Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.
 23. **Alzheimer center.** Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education.
 24. **Ambulance services.** Provision of ambulance service to the ill and injured who require medical attention on a scheduled and unscheduled basis.
 25. **Ambulatory surgery center.** Facility that provides care to patients requiring surgery that are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payment.
 26. **Arthritis treatment center.** Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders.
 27. **Assisted living.** A special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends.
 28. **Auxiliary.** A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community.
 29. **Bariatric/weight control services.** The medical practice of weight reduction.
 30. **Birth room/LDR room/LDRP room.** A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process--labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process--labor, delivery, recovery, and postpartum.
 31. **Blood donor center.** A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components.
 32. **Breast cancer screening/mammograms.** Mammography screening - The use of breast x-ray to detect unsuspected breast cancer in asymptomatic women. Diagnostic mammography - The x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already.
 33. **Cardiology and cardiac surgery services.** Services which include the diagnosis and treatment of diseases and disorders involving the heart and circulatory system.
 - a-b. **Cardiology services.** An organized clinical service offering diagnostic and interventional procedures to manage the full range of heart conditions.
 - c-d. **Diagnostic catheterization.** (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.
 - e-f. **Interventional cardiac catheterization.** Nonsurgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery.
 - g-h. **Cardiac surgery.** Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery.
 - i-j. **Cardiac electrophysiology.** Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up.
 - k. **Cardiac rehabilitation.** A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support.
 34. **Case management.** A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care.
 35. **Chaplaincy/pastoral care services.** A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization.
 36. **Chemotherapy.** An organized program for the treatment of cancer by the use of drugs or chemicals.
 37. **Children's wellness program.** A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion.
 38. **Chiropractic services.** An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services.
 39. **Community outreach.** A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system.
 40. **Complementary and alternative medicine services.** Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc.
 41. **Computer assisted orthopedic surgery (CAOS).** Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy.
 42. **Crisis prevention.** Services provided in order to promote physical and mental wellbeing and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment.
 43. **Dental Services.** An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients.
 44. **Emergency services.** Health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy.
 - a-b. **Emergency department.** Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care.
 - c. **Satellite Emergency Department.** A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital, but has all necessary emergency staffing and equipment on-site.
 - e. **Trauma center (certified).** A facility to provide emergency and specialized intensive care to critically ill and injured patients. Level 1: A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and

education. Level 2: A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. Level 3: A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to level 1 or 2 facilities. Please provide an explanation in the supplement section on page 13 if necessary.

45. **Enabling services.** A program that is designed to help the patient access health care services by offering any of the following: transportation services and/or referrals to local social services agencies.
46. **Endoscopic services.**
 - a. **Optical colonoscopy.** An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera.
 - b. **Endoscopic ultrasound.** Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer.
 - c. **Ablation of Barrett's esophagus.** Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus.
 - d. **Esophageal impedance study.** A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms.
 - e. **Endoscopic retrograde cholangiopancreatography (ERCP).** A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones.
47. **Enrollment (insurance) assistance services.** A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. The specific services offered. This could include explanation of benefits, assist applicants in completing the application and locating all relevant documents, conduct eligibility interviews, and/or forward applications and documentation to state/local social service or health agency.
48. **Extracorporeal shock wave lithotripter (ESWL).** A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.
49. **Fertility clinic.** A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies.
50. **Fitness center.** Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.
51. **Freestanding outpatient care center.** A facility owned and operated by the hospital, that is physically separate from the hospital and provides various medical treatments and diagnostic services on an outpatient basis only. Laboratory and radiology services are usually available.
52. **Geriatric services.** The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: Adult day care; Alzheimer's diagnostic-assessment services; Comprehensive geriatric assessment; Emergency response system; Geriatric acute care unit; and/or Geriatric clinics.
53. **Health fair.** Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services.
54. **Community health education.** Education that provides health information to individuals and populations as well as support for personal, family and community health decisions with the objective of improving health status.
55. **Genetic testing/counseling.** A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. A genetic test is the analysis of human DNA, RNA, chromosomes, proteins, and certain metabolites in order to detect heritable disease-related genotypes, mutations, phenotypes, or karyotypes for clinical purposes. Genetic tests can have diverse purposes, including the diagnosis of genetic diseases in newborns, children, and adults; the identification of future health risks; the prediction of drug responses; and the assessment of risks to future children.
56. **Health screening.** A preliminary procedure such as a test or examination to detect the most characteristic sign or signs of a disorder that may require further investigation.
57. **Health research.** Organized hospital research program in any of the following areas: basic research, clinical research, community health research, and/or research on innovative health care delivery.
58. **Hemodialysis.** Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis.
59. **HIV-AIDS services.** Could include: HIV-AIDS unit-Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. General inpatient care for HIV-AIDS-Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. Specialized outpatient program for HIV-AIDS-Special outpatient program providing diagnostic, treatment, continuing care planning, and counseling for HIV-AIDS patients and their families.
60. **Home health services.** Service providing nursing, therapy, and health-related homemaker or social services in the patient's home.
61. **Hospice.** A program providing palliative care, chiefly medical relief of pain and supportive services, addressing the emotional, social, financial, and legal needs of terminally ill patients and their families. Care can be provided in a variety of settings, both inpatient and at home.
62. **Hospital-based outpatient care center-services.** Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a nonemergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral.
63. **Immunization program.** Program that plans, coordinates and conducts immunization services in the community.
64. **Indigent care clinic.** Health care services for uninsured and underinsured persons where care is free of charge or charged on a sliding scale. This would include "free clinics" staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service.
65. **Linguistic/translation services.** Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians.
66. **Meals on wheels.** A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.
67. **Mobile health services.** Vans and other vehicles used for delivery to primary care services.
68. **Neurological services.** Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous systems.
69. **Nutrition programs.** Services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients.
70. **Occupational health services.** Includes services designed to protect the safety of employees from hazards in the work environment.
71. **Oncology services.** Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods.
72. **Orthopedic services.** Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments.

- 73. Outpatient surgery.** Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility.
- 74. Pain management program.** A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from acute illnesses of diverse causes.
- 75. Palliative care program.** An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced diseases and their families.
- 76. Palliative care inpatient unit.** An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.
- 77. Patient controlled analgesia (PCA).** Intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order.
- 78. Patient education center.** Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self-care.
- 79. Patient representative services.** Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high quality care and services.
- 80. Physical rehabilitation services.** Program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity.
- Assistive technology center.** A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options.
 - Electrodiagnostic services.** Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography.
 - Physical rehabilitation outpatient services.** Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity.
 - Prosthetic and orthotic services.** Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training.
 - Robot-assisted walking therapy.** A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk.
 - Simulated rehabilitation environment.** Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles.
- 81. Primary care department.** A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.
- 82. Psychiatric services.** Services provided by the hospital that offer immediate initial evaluation and treatment to patients with mental or emotional disorders.
- Psychiatric child-adolescent services.** Provides care to emotionally disturbed children and adolescents, including those admitted for diagnosis and those admitted for treatment.
 - Psychiatric consultation-liaison services.** Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients.
 - Psychiatric education services.** Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns.
 - Psychiatric emergency services.** Services of facilities available on a 24-hour basis to provide immediate unscheduled out-patient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress.
 - Psychiatric geriatric services.** Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment.
 - Psychiatric outpatient services.** Provides medical care, including diagnosis and treatment, of psychiatric outpatients.
 - Psychiatric partial hospitalization program.** Organized hospital services of intensive day/evening outpatient services of three hours or more duration, distinguished from other outpatient visits of one hour.
 - Psychiatric residential treatment.** Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital.
- 83. Radiology, diagnostic.** The branch of radiology that deals with the utilization of all modalities of radiant energy in medical diagnoses and therapeutic procedures using radiologic guidance. This includes, but is not restricted to, imaging techniques and methodologies utilizing radiation emitted by x-ray tubes, radionuclides, and ultrasonographic devices and the radiofrequency electromagnetic radiation emitted by atoms.
- CT Scanner.** Computed tomographic scanner for head or whole body scans.
 - Diagnostic radioisotope facility.** The use of radioactive isotopes (Radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease.
 - Electron beam computed tomography (EBCT).** A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans.
 - Full-field digital mammography (FFDM).** Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal.
 - Magnetic resonance imaging (MRI).** The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances or high-frequency sound.
 - Intraoperative magnetic resonance imaging.** An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite.
 - Magnetoencephalography (MEG).** A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as *magnetic source imaging* (MSI).
 - Multi-slice spiral computed tomography (<64+slice CT).** A specialized computed tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computed tomography scan.

- i. **Multi-slice spiral computed tomography (64+ slice CT).** Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume.
- j. **Positron emission tomography (PET).** A nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy.
- k. **Positron emission tomography/CT (PET/CT).** Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy and surgical planning.
- l. **Single photon emission computerized tomography (SPECT).** A nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image.
- m. **Ultrasound.** The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures.
- 84. **Radiology, therapeutic.** The branch of medicine concerned with radioactive substances and using various techniques of visualization, with the diagnosis and treatment of disease using any of the various sources of radiant energy. Services could include: megavoltage radiation therapy; radioactive implants; stereotactic radiosurgery; therapeutic radioisotope facility; X-ray radiation therapy.
 - a. **Image-guided radiation therapy (IGRT).** Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments.
 - b. **Intensity-Modulated Radiation Therapy (IMRT).** A type of three-dimensional radiation therapy, which improves the targeting of treatment delivery in a way that is likely to decrease damage to normal tissues and allows varying intensities.
 - c. **Proton beam therapy.** A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses.
 - d. **Shaped beam radiation system.** A precise, non-invasive treatment that involves targeting beams of radiation that mirrors the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues.
 - e. **Stereotactic radiosurgery.** A radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc.
- 85. **Retirement housing.** A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions.
- 86. **Robotic surgery.** The use of mechanical guidance devices to remotely manipulate surgical instrumentation.
- 87. **Rural health clinic.** A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs.
- 88. **Sleep center.** Specially equipped and staffed center for the diagnosis and treatment of sleep disorders.
- 89. **Social work services.** Could include: organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination.
- 90. **Sports medicine.** Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries.
- 91. **Support groups.** A hospital sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other.
- 92. **Swing bed services.** A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions.
- 93. **Teen outreach services.** A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion.
- 94. **Tobacco treatment/cessation program.** Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine.
- 95. **Transplant services.** The branch of medicine that transfers an organ or tissue from one person to another or from one body part to another to replace a diseased structure or to restore function or to change appearance. Services could include: Bone marrow transplant program; heart, lung, kidney, intestine, or tissue transplant. Please include heart/lung or other multi-transplant surgeries in 'other'.
- 96. **Transportation to health facilities.** A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens.
- 97. **Urgent care center.** A facility that provides care and treatment for problems that are not life threatening but require attention over the short term.
- 98. **Virtual colonoscopy.** Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon.
- 99. **Volunteer services department.** An organized hospital department responsible for coordinating the services of volunteers working within the institution.
- 100. **Women's health center/services.** An area set aside for coordinated education and treatment services specifically for and promoted to women as provided by this special unit. Services may or may not include obstetrics but include a range of services other than OB.
- 101. **Wound management services.** Services for patients with chronic wounds and nonhealing wounds often resulting from diabetes, poor circulation, improper seating and immunocompromising conditions. The goals are to progress chronic wounds through stages of healing, reduce and eliminate infections, increase physical function to minimize complications from current wounds and prevent future chronic wounds. Wound management services are provided on an inpatient or outpatient basis, depending on the intensity of service needed.
- 102a. **Physician arrangements.** An integrated healthcare delivery program implementing physician compensation and incentive systems for managed care services.
 - a. **Independent practice association (IPA).** A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts.
 - b. **Group practice without walls.** Hospital sponsors the formation of, or provides capital to physicians to establish, a "quasi" group to share administrative expenses while remaining independent practitioners.
 - c. **Open physician-hospital organization (PHO).** A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.
 - d. **Closed physician-hospital organization (PHO).** A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality.

- e. **Management services organization (MSO).** A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee.
 - f. **Integrated salary model.** Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care.
 - g. **Equity model.** Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.
 - h. **Foundation.** A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation.
- 102b. Of all physician arrangements listed in question 102a (a-i), indicate the total number of physicians (count each physician only once) that are engaged in an arrangement with your hospital that allows for joint contracting with payers or shared responsibility for financial risk or clinical performance between the hospital and physician (arrangement may be at the hospital, system or network level). *Joint contracting* does not include contracting between physicians participating in an independent practice.
103. **Joint venture.** A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the ventures purpose.
- 104a. **Accountable Care Organization (ACO) Contract.** An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures). This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures.
105. **Patient-Centered Medical Home.** The medical home concept refers to the provision of comprehensive primary care services that facilitates communication and shared decision-making between the patient, his/her primary care providers, other providers, and the patient's family.
106. **Bundling.** Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care.
109. **Capitation.** An at-risk payment arrangement in which an organization receives a fixed prearranged payment and in turn guarantees to deliver or arrange all medically necessary care required by enrollers in the capitated plan. The fixed amount is specified within contractual agreements between the payor and the involved organization. The fixed payment amount is based on an actuarial assessment of the services required by enrollees and the costs of providing these services, recognizing enrollees' adjustment factors such as age, sex, and family size.
110. **Shared risk payments.** A payment arrangement in which a hospital and a managed care organization share the risk of adverse claims experience. Methods for sharing risk could include: capitation with partial refunds or supplements if billed hospital charges or costs differ from capitated payments, and service or discharge-based payments with withholds and bonus payouts that depend on expenditure targets.

SECTION D

TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING

Instructions and Definitions

For the purposes of this survey, nursing home type unit/facility provides **long-term care for the elderly or other patients requiring chronic care** in a non-acute setting in any of the following categories: *Skilled nursing care *Intermediate care *Other Long-term Care (*see page 16 definitions)The nursing home type units/facilities are to be owned and operated by the hospital. Only one legal entity may be vested with title to the physical property or operate under the authority of a duly executed lease of the physical property.

- 1
- a. **Total licensed beds** are the total number of beds authorized by the state licensing (certifying agency).
 - b. Report the number of **beds** regularly available (those **set up and staffed for use**) at the end of the reporting period. Report only operating beds, not constructed bed capacity. Include all bed facilities that are set up and staffed for use by inpatients that have no other bed facilities, such as pediatric bassinets, isolation units, quiet rooms, and reception and observation units assigned to or reserved for them. Exclude newborn bassinets and bed facilities for patients receiving special procedures for a portion of their stay and who have other bed facilities assigned to or reserved for them. Exclude, for example, labor room, post anesthesia, or postoperative recovery room beds, psychiatric holding beds, and beds that are used only as holding facilities for patients prior to their transfer to another hospital.
 - c. Report the number of normal newborn **bassinets**. Do not include neonatal intensive care or intermediate care bassinets. These should be reported on page 3, C6 and C7.
 - d. Total **births** should exclude fetal deaths.
 - e. Include the number of adult and pediatric **admissions** only (exclude births). This figure should include all patients admitted during the reporting period, including neonatal and swing admissions.
 - f. Report the number of adult and pediatric **days of care** rendered during the entire reporting period. Do not include days of care rendered for normal infants born in the hospital, but do include those for their mothers. Include days of care for infants born in the hospital and transferred into a neonatal care unit. Also include swing bed inpatient days. **Inpatient day** of care (also commonly referred to as a **patient day** or a **census day**, or by some federal hospitals as an **occupied bed day**) is a period of service between the census-taking hours on two successive calendar days, the day of discharge being counted only when the patient was admitted the same day.
 - g. **Emergency department visits** should reflect the number of visits to the emergency unit. Emergency outpatients can be admitted to the inpatient areas of the hospital, but they are still counted as emergency visits and subsequently as inpatient admissions.
 - h. An **Outpatient visit** is a visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each appearance of an outpatient in each unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries (also reported on line D1k), home health service visits, and emergency department visits (also reported on line D1g).
Clinic visits should reflect total number of visits to each specialized medical unit that is responsible for the diagnosis and treatment of patients on an outpatient, nonemergency basis (i.e., alcoholism, dental, gynecology, etc.). Visits to the satellite clinics and primary group practices should be included if revenue is received by the hospital.
Referred visits should reflect total number of outpatient ancillary visits to each specialty unit of the hospital established for providing technical aid used in the diagnosis and treatment of patients. Examples of such units are diagnostic radiology, EKG, pharmacy, etc.
Observation services are those services furnished on a hospital's premises, including use of a bed and periodic monitoring by a hospital's nursing

or other staff, which are reasonable and necessary to evaluate an outpatient's condition or determine the need for a possible admission to the hospital as an inpatient. Observation services usually do not exceed 24 hours. However, there is no hourly limit on the extent to which they may be used.

Home health service visits are visits by home health personnel to a patient's residence.

- i. **Inpatient surgical operation.** Count each patient undergoing surgery as one surgical operation regardless of the number of surgical procedures that were performed while the patient was in the operating or procedure room.
 - j. **Operating room.** A unit/room of a hospital or other health care facility in which surgical procedures requiring anesthesia are performed.
 - k. **Outpatient surgical operation.** For outpatient surgical operations, please record operations performed on patients who do not remain in the hospital overnight. Include all operations whether performed in the inpatient operating rooms or in procedure rooms located in an outpatient facility. Include an endoscopy only when used as an operative tool and not when used for diagnosis alone. Count each patient undergoing surgery as one surgical operation regardless of the number of surgical procedures that were performed while the patient was in the operating or procedure room.
- 2a2. **Managed Care Medicare Discharges.** A discharge day where a Medicare Managed Care Plan is the source of payment.
 - 2b2. **Managed Care Medicare Inpatient Days.** An inpatient day where a Medicare Managed Care Plan is the source of payment.
 - 2c2. **Managed Care Medicaid Discharges.** A discharge day where a Medicaid Managed Care Plan is the source of payment.
 - 2d2. **Managed Care Medicaid Inpatient Days.** An inpatient day where a Medicaid Managed Care Plan is the source of payment.
- 3a. **Net patient revenue.** Reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.
 - 3b. **Tax appropriations.** A predetermined amount set aside by the government from its taxing authority to support the operation of the hospital.
 - 3c. **Other operating revenue.** Revenue from services other than health care provided to patients, as well as sales and services to nonpatients. Revenue that arises from the normal day-to-day operations from services other than health care provided to patients. Includes sales and services to nonpatients, and revenue from miscellaneous sources (rental of hospital space, sale of cafeteria meals, gift shop sales). Also include operating gains in this category.
 - 3d. **Nonoperating revenue.** Includes investment income, extraordinary gains and other nonoperating gains.
 - 3e. **Total revenue.** Add net patient revenue, tax appropriations, other operating revenue and nonoperating revenue.
 - 3f. **Payroll expenses.** Include payroll for all personnel including medical and dental residents/interns and trainees.
 - 3g. **Employee benefits.** Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc.
 - 3h. **Depreciation expense (for reporting period only)** report only the depreciation expense applicable to the reporting period. The amount also should be included in accumulated depreciation (D7b).
 - 3i. **Interest expense.** Report interest expense for the reporting period only.
 - 3j. **Supply expense.** The net cost of all tangible items that are expensed including freight, standard distribution cost, and sales and use tax minus rebates. This would exclude labor, labor-related expenses and services as well as some tangible items that are frequently provided as part of labor costs.
 - 3k. **Total expenses.** Includes all payroll and non-payroll expenses as well as any nonoperating losses (including extraordinary losses). **Treat bad debt as a deduction from gross patient revenue and not as an expense.**
- 4a. **Total gross inpatient revenue.** The hospitals full-established rates(charges) for all services rendered to inpatients.
 - 4b. **Total gross outpatient revenue.** The hospitals full-established rates(charges) for all services rendered to outpatients.
 - 4c. **Total gross patient revenue.** Total gross patient revenue (add total gross inpatient revenue and total gross outpatient revenue).
 5. **Uncompensated care.** Care for which no payment is expected or no charge is made. It is the sum of bad debt and charity care absorbed by a hospital or other health care organization in providing medical care for patients who are uninsured or are unable to pay.
 - 5a. **Bad debt. The provision for actual or expected uncollectibles resulting from the extension of credit. Report as a deduction from revenue.**
 - 5b. **Financial Assistance (Includes Charity care).** Financial assistance and charity care refer to health services provided free of charge or at reduced rates to individuals who meet certain financial criteria . For purposes of this survey, charity care is measured on the basis of revenue forgone, at full-established rates.
 - 5d. **Medicaid Provider Tax, Fee or Assessment.** Dollars paid as a result of a state law that authorizes collecting revenue from specified categories of providers. Federal matching funds may be received for the revenue collected from providers and some or all of the revenues may be returned directly or indirectly back to providers in the form of a Medicaid payment.
- ## 6. REVENUE BY PAYOR
- 6a1 **Medicare.** Should agree with the Medicare utilization reported in questions D2a1-D2b2.
 - 6a1a **Fee for service patient revenue.** Include traditional Medicare fee-for-service.
 - 6a1c. **Total.** Medicare revenue (add Medicare fee for service patient revenue and Medicare managed care revenue).
 - 6a2. **Medicaid.** Should agree with Medicaid utilization reported in questions D2c1-D2d2.
 - 6a2a. **Fee for service patient revenue.** Do not include Medicaid disproportionate payments(DSH) or Medicaid supplemental payments that are non-Medicaid disproportionate payments (DSH).
 - 6a2c. **Medicaid disproportionate share payments.** DSH minus associated provider taxes or assessments. Report in 'Net' column only.
 - 6a2d. **Medicaid supplemental payments.** Not including Medicaid DSH payments (these are supplemental payments the Medicaid program pays the hospital that are NOT Medicaid DSH) and minus associated provider taxes or assessments. Report in 'Net' column only.
- 7 a-c. **Fixed Assets.** Represent land and physical properties that are consumed or used in the creation of economic activity by the health care entity. The historical or acquisition costs are used in recording fixed assets. Net plant, property, and equipment represent the original costs of these items less accumulated depreciation and amortization.
 - 7d. **Gross Square Footage.** Include all inpatient, outpatient, office, and support space used for or in support of your health care activities. Exclude exterior, roof, and garage space in the figure.
8. **Capital Expenses.** Expenses used to acquire assets, including buildings, remodeling projects, equipment, or property.
- ## 9. Information Technology.
- a. **IT Operating expense.** Exclude department depreciation and operating dollars paid against capital leases.
 - b. **IT Capital expense.** Include IT capital expense for the current year only. Any capital expense that is carried forward from the previous year should be excluded from this figure. Include IT related capital included in the budget of other departments. (i.e. lab, radiology, etc., if known or can be reasonably estimated.) Include the total value of capital leases to be signed in the current year.
 - c. **Number of Employed IT staff (in FTEs).** Number of full-time equivalent (FTE) staff employed in the IT department/organization and on the hospital payroll.
 - d. **Total number of outsourced IT staff (in FTEs).** i.e. contracted staff.
 - e. **Electronic Health Record.** An electronic health record (EHR) integrates electronically originated and maintained patient-level clinical health information, derived from multiple sources, into one point of access. An EHR replaces the paper medical record as the primary source of patient information.

STAFFING

- 10. Full-Time Equivalent (FTE)** is the total number of hours worked by all employees over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. For example, if your hospital considers a normal workweek for a full-time employee to be 40 hours, a total of 2,080 would be worked over a full year (52 weeks). If the total number of hours worked by all employees on the payroll is 208,000, then the number of Full-Time Equivalents (FTE) is 100 (employees). The FTE calculation for a specific occupational category such as registered nurses is exactly the same. The calculation for each occupational category should be based on the number of hours worked by staff employed in that specific category.
- a-b. Physicians and dentists.** Include only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions should be reported in "All other personnel."
 - d. Other trainees.** A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Exclude medical and dental residents/interns who should be reported on line 10c.
 - e. Registered nurses.** Nurses who have graduated from approved schools of nursing and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. Do not include any registered nurses more appropriately reported in other occupational categories, such as facility administrators, and therefore listed under "All other personnel."
 - f. Licensed practical (vocational) nurses.** Nurses who have graduated from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians.
 - g. Nursing assistive personnel.** Certified nursing assistant or equivalent unlicensed staff assigned to patient care units and reporting to nursing.
 - h. Radiology Technicians.** Technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI.
 - i. Laboratory professional/technical.** Professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc.
 - j. Pharmacists, licensed.** Persons licensed within the state who are concerned with the preparation and distribution of medicinal products.
 - k. Pharmacy technicians.** Persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling of purchase records and inventory control.
 - l. Respiratory Therapists.** An allied health professional who specializes in scientific knowledge and theory of clinical problems of respiratory care. Duties include the collection and evaluation of patient data to determine and appropriate care plan, selection and assembly of equipment, conduction of therapeutic procedures, and modification of prescribed plans to achieve one or more specific objectives.
 - m. All other personnel.** This should include all other personnel not already accounted for in other categories.
 - n. Total facility personnel.** This line is to include the total facility personnel - hospital plus nursing home type unit/facility personnel (for those hospitals that own and operate a nursing home type unit/facility).
 - o-p. Nursing home type unit/facility personnel.** These lines should be filled out only by hospitals that own and operate a nursing home type unit/facility, where only one legal entity is vested with title to the physical property or operates under the authority of a duly executed lease of the physical property. If nursing home type unit/facility personnel are reported on the total facility personnel line, but cannot be broken out, please write "cannot break out" on this line.
- 11. Privileged Physicians.** Report the total number of physicians (by type) on the medical staff with privileges except those with courtesy, honorary and provisional privileges. Do not include residents or interns.
- Employed by your hospital.** Physicians that are either direct hospital employees or employees of a hospital subsidiary corporation. Physicians that are employed for non-clinical services (administrative services, medical director services, etc.) should be excluded.
- Individual contract.** An independent physician under a formal contract to provide services at your hospital including at outpatient facilities, clinics and offices. Physicians that are contracted only for non-clinical services (administrative services, medical director services, etc.) should be excluded.
- Group contract.** A physician that is part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at your hospital including at inpatient and outpatient facilities, clinics and offices. Physicians that are contracted only for non-clinical services (administrative services, medical director services, etc.) should be excluded.
- Not employed or under contract.** Other physicians with privileges that have no employment or contractual relationship with the hospital to provide services.
- The sum of the physicians reported in 11a-11f should equal the total number of privileged physicians in the hospital.**
- a. Primary care.** A physician that provides primary care services including general practice, general internal medicine, family practice, general pediatrics, obstetrics/gynecology and geriatrics.
 - b. Emergency medicine.** Physicians who provide care in the emergency department.
 - c. Hospitalist.** Physician whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity).
 - d. Intensivist.** A physician with special training to work with critically ill patients. Intensivists generally provided medical-surgical, cardiac, neonatal, pediatric and other types of intensive care.
 - e. Radiologist/pathologist/anesthesiologist. Radiologist.** A physician who has specialized training in imaging, including but not limited to radiology, sonography, nuclear medicine, radiation therapy, CT, MRI. **Pathologist.** A physician who examines samples of body tissues for diagnostic purposes. **Anesthesiologist.** A physician who specializes in administering medications or other agents that prevent or relieve pain, especially during surgery.
 - f. Other specialist.** Other physicians not included in the above categories that specialize in a specific type of medical care.
- 14. Advanced Practice Registered Nurses.** Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Includes: **Physician assistant.** A healthcare professional licensed to practice medicine with supervision of a licensed physician. **Nurse practitioner.** A registered nurse with at least a master's degree in nursing and advanced education in primary care, capable of independent practice in a variety of settings. **Clinical nurse specialist (CNS).** A registered nurse who, through a formal graduate degree (masters or doctorate) CNS education program, is prepared as CNS with expertise in a specialty area of nursing practice. CNSs are clinical experts in the diagnosis and treatment of illness, and the delivery of evidence-based nursing interventions.
- 14c. Primary care.** Medical services including general practice, general internal medicine, family practice, general pediatrics, obstetrics/gynecology. **Emergency department care.** The provision of unscheduled outpatient services to patients whose conditions require immediate care in the emergency department setting. **Other specialty care.** A clinician that provides specialized medical care beyond the scope of primary care. **Patient education.** Goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures and self-care. **Case management.** A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. **Other.** Any type of care other than those listed above.
- 15. Foreign-educated nurses.** Individuals who are foreign born and received basic nursing education in a foreign country. In general many of these nurses come to the US on employment-based visas which allow them to obtain a green card.

SECTION E. SUPPLEMENTAL INFORMATION

DEFINITIONS

- 2c. Diversity plan.** A set of goals and objectives that are linked to the organization's strategic plan to promote the elimination of disparities and identify strategies to ensure the ethnic and racial composition of the workforce better reflects the composition of the communities being served.
- 3a. Satellite facility(ies).** Services are available at a facility geographically remote from the hospital campus.
- 3b. Group Purchasing Organization.** An organization whose primary function is to negotiate contracts for the purpose of purchasing for members of the group or has a central supply site for its members.
- 3c. Distributor.** An entity that typically does not manufacture most of its own products but purchases and re-sells these products. Such a business usually maintains an inventory of products for sales to hospitals and physician offices and others.

Glossary

A

Ablation of Barrett's esophagus:

Premalignant condition that can lead to adenocarcinoma of the esophagus. The non surgical ablation of the premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus. Acute long term care: Providers specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7day a week basis.

Accountable Care Organization (ACO)

Contract: An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that are link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcomes measures). This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures.

Adjusted average daily census: An estimate of the average number of patients (both inpatients and outpatients) receiving care each day during the reporting period, which is usually 12 months. The figure is derived by dividing the number of inpatient day equivalents (also called adjusted inpatient days) by the number of days in the reporting period.

Adjusted inpatient days: An aggregate figure reflecting the number of days of inpatient care, plus an estimate of the volume of outpatient services, expressed in units equivalent to an inpatient day in

terms of level of effort. The figure is derived by first multiplying the number of outpatient visits by the ratio of outpatient revenue per outpatient visit to inpatient revenue per inpatient day. The product (which represents the number of patient days attributable to outpatient services) is then added to the number of inpatient days.

Originally, the purpose of this calculation was to summarize overall productivity and calculate a unit cost that would include both inpatient and outpatient activities. However, the value of this calculation has changed over the years as the outpatient share of total revenue has grown and third-party payers have exerted a greater influence on pricing.

Admissions: The number of patients, excluding newborns, accepted for inpatient service during the reporting period; the number includes patients who visit the emergency room and are later admitted for inpatient service.

Adult Cardiac Surgery: Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery.

Adult Cardiology Services: An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions.

Adult day care program: Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services.

Adult Diagnostic/invasive catheterization: (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin

then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.

Adult Interventional cardiac

catheterization: Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery.

Advanced practice registered nurses:

Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. Includes: Physician assistant; nurse practitioner; clinical nurse specialist.

Airborne infection isolation room:

A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing and inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration.

Alcoholism-drug abuse or dependency

inpatient care: Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.

Alcoholism-drug abuse or dependency

outpatient services: Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.

Alliance: An alliance is a formal organization, usually owned by shareholders/members, that works on behalf of its individual members in the provision of services and products and in the promotion of activities and ventures. The organization functions under a set of bylaws or other written rules to which each member agrees to abide.

Alzheimer Center: Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education.

Ambulance services: Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis.

Ambulatory Surgery Center: Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments.

Arthritis treatment center: Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders.

Assisted living: A special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends.

Assistive Technology Center: A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options.

Auxiliary: A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community.

Average daily census: The average number of people served on an inpatient basis on a single day during the reporting period; the figure is calculated by dividing the number of inpatient days by the number of days in the reporting period.

B

Bad debt: The provision for actual or expected uncollectibles resulting from the extension of credit. Report as a deduction from revenue.

Bariatric/weight control services: Bariatrics is the medical practice of weight reduction.

Beds: See definition for Staffed Beds on [page 21](#).

Bed-size category: Hospitals are categorized by the number of beds set up and staffed for use at the end of the reporting period. The eight categories in [AHA Hospital Statistics](#) are: 6 to 24 beds; 25 to 49; 50 to 99; 100 to 199; 200 to 299; 300 to 399; 400 to 499; and 500 or more.

Birthing room-LDR room-LDRP room: A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/ recovery) with a separate postpartum area. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process—labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process—labor, delivery, recovery, and postpartum.

Births: Total number of infants born in the hospital during the reporting period. Births do not include infants transferred from other institutions, and are excluded from admission and discharge figures.

Blood Donor Center: A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components.

Bone marrow transplant: See definition for Transplant services on [page 22](#).

Breast cancer screening/mammograms: Mammography screening—The use of breast x-ray to detect unsuspected breast cancer in asymptomatic women. Diagnostic mammography —The x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already.

Bundling: Bundling is a payment mechanism whereby a provider entity received a single payment

for service provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient or might receive a single payment for the post acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care.

Burn care: Provides care to severely burned patients. Severely burned patients are those with any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors.

C

Capitation: An at-risk payment arrangement in which an organization receives a fixed prearranged payment and in turn guarantees to deliver or arrange all medically necessary care required by enrollers in the capitated plan. The fixed amount is specified within contractual agreements between the payor and the involved organization. The fixed payment amount is based on an actuarial assessment of the services required by enrollees and the costs of providing these services, recognizing enrollees' adjustment factors such as age, sex, and family size.

Cardiac electrophysiology: Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/ defibrillator implantation and follow-up.

Cardiac intensive care: Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive

observation and care. May include myocardial infarction, pulmonary care, and heart transplant units.

Cardiac Rehabilitation: A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support.

Case management: A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care.

Census: see [Average Daily Census](#).

Chaplaincy/pastoral care services: A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization.

Chemotherapy: An organized program for the treatment of cancer by the use of drugs or chemicals.

Children’s wellness program: A program that encourages improved health status and a health ful lifestyle of children through health education, exercise, nutrition and health promotion.

Chiropractic services: An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services.

Closed physician-hospital organization (Closed PHO): A joint venture between the hospital and physicians who have been selected on the basis of cost-effectiveness and/or high quality. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Community health education: Education that provides health information to individuals and populations, as well as support for personal, family

and community health decisions with the objective of improving health status.

Community hospitals: All nonfederal, short-term general, and special hospitals whose facilities and services are available to the public. (Special hospitals include obstetrics and gynecology; eye, ear, nose, and throat; rehabilitation; orthopedic; and other individually described specialty services.) Short-term general and special childrens hospitals are also considered to be community hospitals.

A hospital may include a nursing-hometype unit and still be classified as short-term, provided that the majority of its patients are admitted to units where the average length of stay is less than 30 days. Therefore, statistics for community hospitals often include some data about such nursing-home-type units. An example is furnished by Montana, where in 1995 63.6 percent of all hospitals classified as community hospitals include nursing-hometype units. Expense, revenue, utilization, and personnel data for these hospitals include data about their nursing-home-type units. Thus, total admissions to Montana community hospitals in 1995 were 96,154; total inpatient days, 997,759; total expenses, \$791,806,393; and total payroll expenses, \$352,583,331. If nursing-home-type unit data were excluded, these same items would be 94,034; 457,340; 752,567,865; and \$328,911841, respectively.

Note that before 1972 in [AHA Hospital Statistics](#), hospital units of institutions such as prison and college infirmaries were included in the category of community hospitals. Including these units made this category equivalent to the short-term general and other special hospitals category. Although these hospital units are few in number and small in size, this change in definition should be taken into consideration when comparing data.

Community outreach: A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system.

Complementary and alternative medicine services: Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical

schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, message therapy, etc.

Computer assisted orthopedic surgery (CAOS): Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy.

Control: The type of organization responsible for establishing policy concerning the overall operation of hospitals. The three major categories are government (including federal, state, and local); nongovernment (nonprofit); and investor-owned (for-profit).

Crisis prevention: Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment.

CT scanner: Computed tomographic scanner for head or whole body scans.

D

Deduction from revenue: The difference between revenue at full established rates (gross) and the payment actually received from payers (net).

Dental Services: An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients.

Diagnostic radioisotope facility: The use of radioactive isotopes (Radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease.

Distributor: An entity that typically does not manufacture most of its own products but purchases and re-sells these products. Such a business usually maintains an inventory of products for sales to hospitals and physician offices and others.

Diversity Plan: A set of goals and objectives that are linked to the organization's strategic plan to promote the elimination of disparities and identify strategies to ensure the ethnic and racial composition of the workforce better reflects the composition of the communities being served.

E

Electrodiagnostic Services: Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography.

Electron beam computed tomography (EBCT): A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans.

Electronic Health Record: An electronic health record (EHR) integrates electronically originated and maintained patient-level clinical health information, derived from multiple sources, into one point of access. An EHR replaces the paper medical record as the primary source of patient information.

Emergency department: Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care.

Emergency room visits: The number of visits to the emergency unit. When emergency outpatients are admitted to the inpatient areas of the hospital, they are counted as emergency room visits and subsequently, as inpatient admissions.

Emergency services: Health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy.

Enabling services: A program that is designed to help the patient access health care services by offering any of the following: transportation services and/or referrals to local social services agencies.

End of Life: Services offered to patients suffering from chronic, severe, and life-threatening diseases including comprehensive services that give patients and caregivers the resources and the confidence to manage symptoms, avoid emergency room

admissions and frequent hospitalization, and remain in familiar and comfortable settings.

Endoscopic retrograde cholangiopancreatography (ERCP):

A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast materials permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones.

Endoscopic ultrasound: Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis and staging of cancer.

Enrollment (insurance) assistance services: A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children’s Health Insurance, or local/state indigent care programs. The specific services offered could include explanation of benefits, assist applicants in completing the application and locating all relevant documents, conduct eligibility interviews, and/or forward applications and documentation to state/local social service or health agency.

Equity model: An arrangement that allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.

Esophageal impedance study: A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms.

Expenses: All expenses for the reporting period including payroll, non-payroll, and all nonoperating expenses. *Payroll expenses* include all salaries and wages. *Non-payroll expenses* are all professional fees and those salary expenditures excluded from payroll. *Labor related expenses* are defined as payroll expenses plus employee benefits.

Non-labor related expenses are all other non-payroll expenses. *Bad debt* has been reclassified from

a “reduction in revenue” to an expense in accordance with the revised AICPA Audit Guide. However, for purposes of historical consistency, the expense total that appears throughout *AHA Hospital Statistics* does not include “bad debt” as an expense item. Note: Financial data may not add due to rounding.

Extracorporeal shock wave lithotripter (ESWL): A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.

F

Fertility Clinic: A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies.

Financial Assistance (Includes Charity care): Financial assistance and charity care refer to health services provided free of charge or at reduced rates to individuals who meet certain financial criteria. For purposes of the AHA Annual Survey, charity care is measured on the basis of revenue forgone, at full-established rates.

Fitness center: Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.

Fixed Assets: Represent land and physical properties that are consumed or used in the creation of economic activity by the health care entity. The historical or acquisition costs are used in recording fixed assets. Net plant, property, and equipment represent the original costs of these items less accumulated depreciation and amortization.

Foreign educated nurses: Individuals who are foreign born and received basic nursing education in a foreign country. In general many of these nurses come to the U.S. on employment-based visas which allow them to obtain a green card.

Foundation: A corporation, organized as a hospital affiliate or subsidiary, that purchases both tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation.

Freestanding outpatient care center: A facility owned and operated by the hospital, that is physically separate from the hospital and provides various medical treatments and diagnostic services on an outpatient basis only. Laboratory and radiology services are usually available.

Full-field digital mammography (FFDM): Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal.

Full time equivalent employees (FTE): Full time personnel on payroll plus one half of the part time personnel on payroll. For purposes of *AHA Hospital Statistics*, full time and part time medical and dental residents/interns and other trainees are excluded from the calculation.

G

General medical-surgical care: Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans.

Genetic testing/counseling: A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. A genetic test is the analysis of human DNA, RNA, chromosomes, proteins, and certain metabolites in order to detect heritable disease-related genotypes, mutations, phenotypes, or karyotypes for clinical purposes. Genetic tests can have diverse purposes, including the diagnosis of genetic diseases in newborns, children, and adults; the identification of future health risks; the prediction of drug responses; and the assessment of risks to future children.

Geriatric services: The branch of medicine dealing with the physiology of aging and the diagnosis

and treatment of disease affecting the aged. Services could include: Adult day care; Alzheimer's diagnostic-assessment services; Comprehensive geriatric assessment; Emergency response system; Geriatric acute care unit; and/or Geriatric clinics.

Government, nonfederal, state, local: Controlled by an agency of state, county, or city government.

Gross inpatient revenue: Revenue from services rendered to inpatients at full established rates (also known as "charges").

Gross outpatient revenue: Revenue from services rendered to outpatients at full established rates.

Group practice without walls: In this organization, the hospital sponsors the formation of a physician group or provides capital to physicians to establish one. The group shares administrative expenses, although the physicians remain independent practitioners.

Group Purchasing Organization: An organization whose primary function is to negotiate contracts for the purpose of purchasing for members of the group or has a central supply site for its members.

H

Health fair: Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services.

Health maintenance organization (HMO): A health care organization that acts as both insurer and provider of comprehensive but specified medical services in return for prospective per capita (capitation) payments.

Health Research: Organized hospital research program in any of the following areas: basic research, clinical research, community health research, and/or research on innovative health care delivery.

Health screening: A preliminary procedure such as a test or examination to detect the most characteristic sign or signs of a disorder that may require further investigation.

Health System Classification System:

An identification system for Health Systems was developed jointly by the American Hospital Association’s Health Research and Education Trust and Health Forum, and the University of California-Berkley. A health system is assigned to one of the five categories based on how much they differentiate and centralized their hospital services, physician arrangements, and provider-based insurance products. Differential refers to the number of different products or services that the organization offers. Centralized refers to whether decision-making and service delivery emanate from the system level more so than individual hospitals.

- **Centralized Health System:** A delivery system in which the system centrally organizes individual hospitals service delivery, physician arrangements, and insurance product development. The number of different products/services that are offered across the system is moderate.
- **Centralized Physician/Insurance Health System:** A delivery system with highly centralized physician arrangements and insurance product development. Within this hospital group, hospital.
- **Moderately Centralized Health System:** A delivery system/network that is distributed by the presence of both centralized and decentralized activity for hospital services, physician arrangements, and insurance product development. For example, a system/network within this group may have centralized care of expensive, high technology services, such as open heart surgery, but allows individual hospitals to provide an array of other health services based on local needs. The number of different products/services that are offered across the system/network is moderate.
- **Decentralized Health System/Network:** A delivery system/network in which the system/network centrally organizes individual hospitals having discretion over the array of services they offer. The number of different products/services that are offered across the system/network is moderate.
- **Independent Hospital System:** A delivery system/network with limited differentiation in hospital services, physician arrangements, and

insurance product development. These systems/networks are largely horizontal affiliations of autonomous hospitals.

Heart transplant: See definition for Transplant services on [page 22](#).

Hemodialysis: Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis.

HIV-AIDS services (could include): HIV-AIDS unit—Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. General inpatient care for HIV-AIDS—Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. Specialized outpatient program for HIVAIDS—Special outpatient program providing diagnostic, treatment, continuing care planning, and counseling for HIV-AIDS patients and their families.

Home health services: Service providing nursing, therapy, and health-related homemaker or social services in the patient’s home.

Hospice: A program providing palliative care, chiefly medical relief of pain and supportive services, addressing the emotional, social, financial, and legal needs of terminally ill patients and their families. Care can be provided in a variety of settings, both inpatient and at home.

Hospital unit: The hospital operation, excluding activity pertaining to nursing-hometype unit (as described below), for the following items: Admissions, Beds, FTEs (full-time, part-time, and total), Inpatient Days, Length of Stay, Net Revenue, and Total Expense.

Hospital unit Medicaid days: Inpatient days where a Medicaid Managed Care Plan is the source of payment.

Hospital unit Medicaid discharges: Discharge days where a Medicaid Managed Care Plan is the source of payment.

Hospital unit Medicare days: Inpatient days where a Medicare Managed Care Plan is the source of payment.

Hospital unit Medicare discharges:

Discharge days where a Medicare Managed Care Plan is the source of payment.

Hospital unit of institutions: A hospital unit that is not open to the public and is contained within a nonhospital unit. An example is an infirmary that is contained within a college.

Hospitalist: Physician whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity).

Hospitals in a network: Hospitals participating in a group that may include other hospitals, physicians, other providers, insurers, and/or community agencies that work together to coordinate and deliver a broad spectrum of services to the community.

Hospitals in a system: Hospitals belonging to a corporate body that owns and/or manages health provider facilities or health-related subsidiaries; the system may also own non-health-related facilities.

**Image-guided radiation therapy (IGRT):**

Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments.

Immunization program: Program that plans, coordinates and conducts immunization services in the community.

Indemnity fee for service: The traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers.

Independent practice association (IPA):

An IPA is a legal entity that holds managed care contracts and contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts.

Indigent care clinic: Health care services for uninsured and underinsured persons where care is free of charge or charged on a sliding scale. This would include “free clinics” staffed by volunteer practitioners, but could also be staffed by employees with sponsoring health care organizations subsidizing the cost of service.

Inpatient days: The number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period.

Inpatient palliative care unit: An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.

Inpatient surgeries: Surgical services provided to patients who remain in the hospital overnight.

Insurance product: In tables 3 through 6 of [AHA Hospital Statistics](#), insurance product refers to a hospital-owned insurance product.

Integrated salary model: In this arrangement, physicians are salaried by the hospital or other entity of a health system to provide medical services for primary care and specialty care.

Intensity-Modulated Radiation Therapy (IMRT):

A type of three-dimensional radiation therapy, which improves the targeting of treatment delivery in a way that is likely to decrease damage to normal tissues and allows varying intensities.

Intensivist: A physician with special training to work with critically ill patients. Intensivists generally provided medical-surgical, cardiac, neonatal, pediatric and other types of intensive care.

Intermediate nursing care: Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services.

Intraoperative magnetic resonance imaging: An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (lowfield or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite.

Investor-owned, for-profit: Investor-owned, for-profit hospitals are those controlled on a for-profit basis by an individual, partnership, or profit-making corporation.

J

Joint Venture: A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangements remain independent and separate outside of the venture purpose.

K

Kidney transplant: See definition for Transplant services on [page 22](#).

L

Labor-related expenses: Payroll expenses plus employee benefits. *Non-labor-related expenses* refers to all other nonpayroll expenses, such as interest depreciation, supplies, purchased services, professional fees, and others.

Laboratory technicians: Professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc.

Length of stay (LOS): LOS refers to the average number of days a patient stays at the facility. Short-term hospitals are those where the average LOS is less than 30 days. Longterm hospitals are those where the average LOS is 30 days or more. The figure is derived by dividing the number of inpatient days by the number of admissions.

Note that [AHA Hospital Statistics](#) carries two LOS variables: total facility length of stay and hospital unit length of stay. Total facility includes admissions and inpatient days from nursing-home-type units under control of the hospital. In hospital unit length of stay, nursing home utilization is subtracted.

Licensed Beds: Total number of beds authorized by the state licensing (certifying agency)

Licensed practical nurse (LPN): A nurse who has graduated from an approved school of practical (vocational) nursing and works under the supervision of registered nurses and/or physicians.

Linguistic/Translation services: Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians.

Liver transplant: See definition for Transplant services on [page 22](#).

Long-term: Hospitals are classified either short-term or long-term according to the average length of stay (LOS). A long-term hospital is one in which the average LOS is 30 days or more.

Lung transplant: See definition for Transplant services on [page 22](#).

M

Magnetic resonance imaging (MRI): The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances, or high-frequency sound.

Magnetoencephalography (MEG): A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics or evoked and spontaneous neural activity and the location of their sources in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI).

Managed care: A term covering a broad spectrum of arrangements for health care delivery and financing, including managed indemnity plans (MIP), health maintenance organizations (HMO), preferred provider organizations (PPO), point-of-service plans (POS), and direct contracting arrangements between employers and providers.

Managed care contract: A contract between the hospital and a managed care organization.

Management services organization (MSO): A corporation owned by the hospital or a physician/hospital joint venture that provides management services to one or more medical group practices. As part of a full-service management agreement, the MSO purchases the tangible assets of the practices and leases them back, employs all non-physician staff, and provides all supplies/administrative systems for a fee.

Meals on wheels: A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.

Medical surgical intensive care: Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who, because of shock, trauma, or other lifethreatening conditions, require intensified, comprehensive observation and care. Includes mixed intensive care units.

Mobile health services: Vans and other vehicles used to deliver primary care services.

Multi-slice spiral computed tomography (<64 slice CT): A specialized computed tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computed tomography scan.

Multi-slice spiral computed tomography (64+ slice CT): Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume.

N

National Provider Identifier (NPI) is a unique identification number for covered health care providers. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number).

Neonatal intensive care: A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A fulltime neonatologist serves as director of the NICU.

Neonatal intermediate care: A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recovery care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring.

Net patient revenue: The estimated net realizable amounts from patients, third-party payers, and others for services rendered. The number includes estimated retroactive adjustments called for by agreements with third-party payers; retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and then adjusted later as final settlements are determined.

Net total revenue: Net patient revenue plus all other revenue, including contributions, endowment revenue, governmental grants, and all other payments not made on behalf of individual patients.

Network: A network is a group of hospitals, physicians, other providers, insurers and/or community agencies that work together to coordinate and deliver a broad spectrum of services to their community. Network participation does not preclude system affiliation.

Neurological services: Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system.

Nongovernment, nonprofit: Hospitals that are nongovernment, nonprofit are controlled by not-for-profit organizations, including religious organizations (Catholic hospitals, for example), fraternal societies, and others.

Nursing Assistive Personnel: Certified nursing assistant or equivalent unlicensed staff assigned to patient care units and reporting to nursing.

Nursing home admissions: The number of patients accepted for inpatient service during the reporting period

Nursing home beds set up and staffed: Only operating beds, not constructed bed capacity.

Nursing home inpatient days: The number of days of care rendered during the entire reporting period.

Nursing home Medicaid days: Inpatient days where a Medicaid Managed Care Plan is the source of payment.

Nursing home Medicaid discharges: Discharge days where a Medicaid Managed Care Plan is the source of payment.

Nursing home Medicare days: Inpatient days where a Medicare Managed Care Plan is the source of payment.

Nursing home Medicare discharges: Discharge days where a Medicare Managed Care Plan is the source of payment.

Nursing-home-type unit/facility: A unit/ facility that primarily offers the following type of services to a majority of all admissions:

- **Skilled nursing:** The provision of medical and nursing care services, health-related services, and social services under the supervision of a registered nurse on a 24-hour basis.
- **Intermediate care:** The provision, on a regular basis, of health-related care and services to individuals who do not require the degree of care or treatment that a skilled nursing unit is designed to provide.
- **Personal care:** The provision of general supervision and direct personal care services for residents who require assistance in activities of

daily living but who do not need nursing services or inpatient care. Medical and nursing services are available as needed.

- **Sheltered/residential care:** The provision of general supervision and protective services for residents who do not need nursing services or continuous personal care services in the conduct of daily life. Medical and nursing services are available as needed.

Nursing home unit admissions: The number of patients, excluding newborns, accepted for inpatient service during the reporting period; the number includes patients who visit the emergency room and are later admitted for inpatient service.

Nursing home unit beds: Only operating beds, not constructed bed capacity. Includes all bed facilities that are set up and staffed for use by inpatients that have no other bed facilities, such as pediatric bassinets, isolation units, quiet rooms, and reception and observation units assigned to or reserved for them. Exclude newborn bassinets and bed facilities for patients receiving special procedures for a portion of their stay and who have other bed facilities assigned to or reserved for them. Exclude, for example, labor room, post anesthesia, or postoperative recovery room beds, psychiatric holding beds, and beds that are used only as holding facilities for patients prior to their transfer to another hospital

Nursing home unit inpatient days: The number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period.

Nursing home unit licensed beds: Total number of beds authorized by the state licensing (certifying agency)

Nutrition programs: Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients.

Obstetrics: Levels should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated

problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist.

Occupational health services: Includes services designed to protect the safety of employees from hazards in the work environment.

Oncology services: Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods.

Open physician hospital organization (Open PHO): A joint venture between the hospital and all members of the medical staff who wish to participate. The open PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Operating Rooms: A unit/room of a hospital or other health care facility in which surgical procedures requiring anesthesia are performed.

Optical colonoscopy: An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera.

Orthopedic services: Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments.

Osteopathic hospitals: Osteopathic medicine is a medical practice based on a theory that diseases are due chiefly to a loss of structural integrity, which can be restored by manipulation of the neuro-muscular and skeletal systems, supplemented by therapeutic measures (such as medicine or surgery).

Other Intensive Care: A specially staffed, specialty equipped, separate section of a hospital dedicated to the observation, care, and treatment of patients with life threatening illnesses, injuries, or complications from which recovery is possible. It provides special expertise and facilities for the support of vital function and utilizes the skill of medical nursing and other staff experienced in the management of these problems.

Other long-term care: Provision of longterm care other than skilled nursing care or intermediate care for those who do not require daily medical or nursing services, but may require some assistance in the activities of daily living. This can include residential care, elderly care, or sheltered care facilities for developmentally disabled.

Other special care: Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down, or progressive care units.

Other transplant: See definition for Transplant services on [page 22](#).

Outpatient care: Treatment provided to patients who do not remain in the hospital for overnight care. Hospitals may deliver outpatient care on site or through a facility owned and operated by the hospital, but physically separate from the hospital. In addition to treating minor illnesses or injuries, a free-standing center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available.

Outpatient care center (Freestanding): A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available.

Outpatient care center-services (Hospital-based): Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a nonemergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral.

Outpatient surgery: Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially

designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility.

Outpatient visit: A visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each visit an outpatient makes to a discrete unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries, and emergency room visits.

P

Pain Management Program: A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain or other distressing symptom, administered by specially trained physicians and other clinicians, to patients suffering from acute illness of diverse causes.

Palliative Care Inpatient Unit: An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.

Palliative care program: An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families.

Patient Controlled Analgesia (PCA): Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord that can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order.

Patient education center: Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care.

Patient-Centered Medical Home: The medical home concept refers to the provision of comprehensive primary care services that facilitates communication and shared decision-making between the patient, his/her primary care providers, other providers, and the patient's family.

Patient representative services: Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services.

Payroll expenses: Includes all salaries and wages. All professional fees and salary expenditures excluded from payroll, such as employee benefits, are defined as nonpayroll expenses and are included in total expenses.

Pediatric Cardiac Surgery: Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery.

Pediatric Cardiology Services: An organized clinical service offering diagnostic and interventional procedures to manage the full range of pediatric heart conditions.

Pediatric Diagnostic/invasive catheterization: (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.

Pediatric intensive care: Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care.

Pediatric Interventional cardiac

catheterization: Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery.

Pediatric medical-surgical care: Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans.

Personnel: Number of persons on the hospital payroll at the end of the reporting period. Personnel are recorded in *Hospital Statistics* as full-time equivalents (FTEs), which are calculated by adding the number of full-time personnel to one-half the number of part-time personnel, excluding medical and dental residents, interns, and other trainees. *Per 100 adjusted census* indicates the ratio of personnel to adjusted average daily census, calculated on a per-100 basis.

Pharmacists, licensed: Persons licensed within the state who are concerned with the preparation and distribution of medicinal products.

Pharmacy technicians: Persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling of purchase records and inventory control.

Physical rehabilitation inpatient care: Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity.

Physical rehabilitation outpatient services: Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity.

Population: Population refers to the residential population of the United States. This includes both civilian and military personnel. Note that population is being used to calculate the *values for community health indicators per 1000 population* in [AHA Hospital Statistics](#).

Positron emission tomography/CT

(PET/CT): Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy and surgical planning.

Positron emission tomography scanner

(PET): A nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy.

Preferred provider organization (PPO):

A pre-set arrangement in which purchasers and providers agree to furnish specified health services to a group of employees/patients.

Primary care department: A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.

Privileged physicians: Physicians on the medical staff with privileges except those with courtesy, honorary and provisional privileges. Excludes residents and interns.

Prosthetic and Orthotic Services:

Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training.

Proton beam therapy: A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses.

Psychiatric child-adolescent services:

Provides care to emotionally disturbed children and adolescents, including those admitted for diagnosis and those admitted for treatment.

Psychiatric consultation-liaison services:

Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or

departments on psychological aspects of medical care that may be generic or specific to individual patients.

Psychiatric education services: Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns.

Psychiatric emergency services: Services of facilities available on a 24-hour basis to provide immediate unscheduled out-patient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress.

Psychiatric geriatric services: Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment.

Psychiatric inpatient care: Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Longterm care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons.

Psychiatric outpatient services: Provides medical care, including diagnosis and treatment, of psychiatric outpatients.

Psychiatric partial hospitalization program: Organized hospital services of intensive day/evening outpatient services of three hours of more duration, distinguished from other outpatient visits of one hour.

Psychiatric residential treatment: Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital.

R

Radiology, diagnostic: The branch of radiology that deals with the utilization of all modalities of radiant energy in medical diagnoses and therapeutic

procedures using radiologic guidance. This includes, but is not restricted to, imaging techniques and methodologies utilizing radiation emitted by x-ray tubes, radionuclides, and ultrasonographic devices and the radiofrequency electromagnetic radiation emitted by atoms.

Radiology technicians: Technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI.

Radiology, therapeutic: The branch of medicine concerned with radioactive substances and using various techniques of visualization, with the diagnosis and treatment of disease using any of the various sources of radiant energy. Services could include: megavoltage radiation therapy; radioactive implants; stereotactic radiosurgery; therapeutic radioisotope facility; X-ray radiation therapy.

Registered hospitals: are those hospitals that meet AHA's criteria for registration as a hospital facility. Registered hospitals include AHA member hospitals as well as nonmember hospitals. For a complete listing of the criteria used for registration, please see [Registration Requirements for Hospitals](#).

Registered nurse (RN): A nurse who has graduated from an approved school of nursing and who is currently registered by the state. RNs are responsible for the nature and quality of all nursing care that patients receive. In Tables 1 and 2 of [AHA Hospital Statistics](#) these tables, the number of RNs does not include those registered nurses more appropriately reported in other occupational categories, such as facility administrators, which are listed under *all other personnel*.

Rehabilitation services: A wide array of restoration services for disabled and recuperating patients, including all support services necessary to help them attain their maximum functional capacity.

Retirement housing: A facility which provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long term care through affiliated institutions.

Robot-assisted walking therapy: A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk.

Robotic surgery: The use of mechanical guidance devices to remotely manipulate surgical instrumentation.

Rural: A rural hospital is located outside a Metropolitan Statistical Area (MSA), as designated by the U.S. Office of Management and Budget (OMB) effective June 6, 2003. An urban area is a geographically defined, integrated social and economic unit with a large population nucleus. Micropolitan areas, which are new to the OMB June 6, 2003 definitions, continue to be classified as rural for purposes of [AHA Hospital Statistics](#).

Rural Health Clinic: A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs.

S

Satellite Emergency Department: A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital, but has all necessary emergency staffing and equipment on-site.

Satellite facility (ies): Services are available at a facility geographically remote from the hospital campus.

Shaped beam radiation system: A precise, non-invasive treatment that involves targeting beams of radiation that mirrors the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues.

Shared risk payments: A payment arrangement in which a hospital and a managed care organizations share the risk of adverse claims experience. Methods for sharing risk could include: capitation with partial refunds or supplements if billed hospital charges or costs differ from capitated payments, and service or

discharge-based payments with withholds and bonus payouts that depend on expenditure targets.

Simulated rehabilitation environment: Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles.

Single photon emission computerized tomography (SPECT): A nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image.

Skilled nursing care: Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis.

Sleep Center: Specially equipped and staffed center for the diagnosis and treatment of sleep disorders.

Social work services (could include): Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination.

Sports medicine: Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries.

Staffed Beds: Number of beds regularly maintained (set up and staffed for use) for inpatients as of the close of the reporting period. Excludes newborn bassinets.

Stereotactic radiosurgery: Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc.

Support groups: A hospital sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other.

Surgical operations: Those surgical operations, whether major or minor, performed in the operating room(s). A surgical operation involving more than one surgical procedure is still considered only one surgical operation.

Swing bed services: A hospital bed that can be used to provide either acute or longterm care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions.

System: is defined by AHA as either a multihospital or a diversified single hospital system. A multihospital system is two or more hospitals owned, leased, sponsored, or contract managed by a central organization. Single, freestanding hospitals may be categorized as a system by bringing into membership three or more, and at least 25 percent, of their owned or leased non-hospital preacute or postacute health care organizations. System affiliation does not preclude network participation.

T

Teen outreach services: A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion.

Tissue transplant: See definition for Transplant services below.

Tobacco treatment/cessation program: Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine.

Total Medicaid days: Inpatient days where a Medicaid Managed Care Plan is the source of payment.

Total Medicaid discharges: Discharge days where a Medicaid Managed Care Plan is the source of payment.

Total Medicare days: Inpatient days where a Medicare Managed Care Plan is the source of payment.

Total Medicare discharges: Discharge days where a Medicare Managed Care Plan is the source of payment.

Transplant services: The branch of medicine that transfers an organ or tissue from one person to another or from one body part to another to replace a diseased structure or to restore function or to change appearance. Services could include: bone marrow transplant program; heart, lung, kidney, intestine, or tissue transplant. The other transplant services include transplant services other than bone marrow, heart, kidney, liver, lung, tissue and heart/lung or other multi-transplant surgeries.

Transportation to health facilities: A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens.

Trauma center (certified): A facility to provide emergency and specialized intensive care to critically ill and injured patients. Level 1: A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and education. Level 2: A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. Level 3: A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to Level 1 or 2 facilities.

U

Ultrasound: The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures.

Urban: An urban hospital is located inside a Metropolitan Statistical Area (MSA), designated by the U.S. Office of Management and Budget effective

June 6, 2003. An urban area is a geographically defined, integrated social and economic unit with a large population base. Micropolitan areas, which are new to the OMB June 6, 2003 definitions, are not considered to be urban for purposes of this publication.

Urgent care center: A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term.

V

Virtual colonoscopy: Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon.

Volunteer services department: An organized hospital department responsible for coordinating the services of volunteers working within the institution.

W

Women's health center/services: An area set aside for coordinated education and treatment services specifically for and promoted to women as provided by this special unit. Services may or may not include obstetrics but include a range of services other than OB.

Wound Management Services: Services for patients with chronic wounds and nonhealing wounds often resulting from diabetes, poor circulation, improper seating and immunocompromising conditions. The goals are to progress chronic wounds through stages of healing, reduce and eliminate infections, increase physical function to minimize complications from current wounds and prevent future chronic wounds. Wound management services are provided on an inpatient or outpatient basis, depending on the intensity of service needed.
