

ABSTRACT

This material provides documentation for users of the micro-data files of the 2000 National Hospital Ambulatory Medical Care Survey (NHAMCS). The NHAMCS is a national probability sample survey of visits to hospital outpatient and emergency departments, conducted by the National Center for Health Statistics, Centers for Disease Control and Prevention. The survey is a component of the National Health Care Survey, which measures health care utilization across a variety of health care providers. There are two micro-data files produced from the NHAMCS, one for outpatient department records and one for emergency department records. Section I of this documentation, "Description of the National Hospital Ambulatory Medical Care Survey," includes information on the scope of the survey, the sample, field activities, data collection procedures, medical coding procedures, and population estimates. Section II provides detailed descriptions of the contents of each file's data record by location. Section III contains marginal data for selected items on each file. The appendixes contain sampling errors, instructions and definitions for completing the Patient Record forms, and lists of codes used in the survey.

THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY.

I. DESCRIPTION OF THE NATIONAL HOSPITAL AMBULATORY MEDICAL CARE SURVEY

A. INTRODUCTION

The National Hospital Ambulatory Medical Care Survey (NHAMCS) was initiated to learn more about the ambulatory care rendered in hospital emergency and outpatient departments in the United States. Ambulatory medical care is the predominant method of providing health care services in the United States (1). Since 1973, data on ambulatory patient visits to physicians' offices have been collected through the National Ambulatory Medical Care Survey (NAMCS). However, visits to hospital emergency and outpatient departments, which represent a significant portion of total ambulatory medical care, are not included in the NAMCS (2). Furthermore, hospital ambulatory patients are known to differ from office patients in their demographic characteristics and medical aspects (3). Therefore, the omission of hospital ambulatory care from the ambulatory medical care database leaves a significant gap in coverage and limits the utility of the current NAMCS data. The NHAMCS fills this data gap.

The NHAMCS was endorsed by the Emergency Nurses Association and the American College of Emergency Physicians. A complete description of the NHAMCS is contained in the publication entitled, "Plan and Operation of the National Hospital Ambulatory Medical Care Survey" (4).

These micro-data files comprise the data collected by the NHAMCS in 2000. The NHAMCS was conducted by the Ambulatory Care Statistics Branch of the National Center for Health Statistics, Centers for Disease Control and Prevention. The NHAMCS provides data from samples of patient records selected from the emergency departments (EDs) and outpatient departments (OPDs) of a national sample of hospitals. The national estimates produced from these studies describe the utilization of hospital ambulatory medical care services in the United States. In 2000, there were 25,622 Patient Record forms provided by EDs and 27,510 Patient Record forms provided by OPDs that participated in the survey. Both data files, ED and OPD, are included in this product. Reports summarizing data from the 2000 NHAMCS are available (5, 6).

Please note the following important points concerning analysis of NHAMCS data on this micro-data file:

\$ *PATIENT VISIT WEIGHT*

Micro-data file users should be fully aware of the importance of the "patient visit weight" and how it must be used. Information about the patient visit weight is presented on page 22. If more information is needed, the staff of the Ambulatory Care Statistics Branch can be consulted by calling (301) 458-4600 during regular working hours.

\$ *RELIABILITY OF ESTIMATES*

Users should also be aware of the reliability or unreliability of certain estimates, particularly the smaller estimates. The National Center for Health Statistics, which conducts many health surveys, considers an estimate to be reliable if it has a relative standard error of 30 percent or less (i.e., the standard error is no more than 30 percent of the estimate). Therefore, it is important to know the value of the lowest possible estimate in this survey that is considered reliable, so as not to present data in a journal article or paper that may be unreliable. Most data file users can obtain an adequate working knowledge of relative standard errors from the information presented in Appendix I. It should be noted that estimates based on fewer than 30 records are also considered unreliable, regardless of the magnitude of the relative standard error. If you would like more information, do not hesitate to consult the staff of the Ambulatory Care Statistics Branch.

B. SAMPLE DESIGN

The 2000 NHAMCS included a national probability sample of visits to the emergency and outpatient departments of noninstitutional general and short-stay hospitals, exclusive of Federal, military, and Veterans Administration hospitals, located in the 50 states and the District of Columbia. The NHAMCS was designed to provide estimates based on the following priority of survey objectives: United States; region; emergency and outpatient departments; and type of ownership. The NHAMCS used a four-stage probability design with samples of primary sampling units (PSUs), hospitals within PSUs, clinics within hospitals, and patient visits within clinics. Each stage of sampling is described below.

1. Primary Sampling Units (PSUs)

A PSU consists of a county, a group of counties, county equivalents (such as parishes and independent cities), towns, townships, minor civil divisions (for some PSUs in New England), or a metropolitan statistical area (MSA). MSAs were defined by the U.S. Office of Management and Budget on the basis of the 1980 Census. The first-stage sample consisted of 112 PSUs that comprised a probability subsample of the PSUs used in the 1985-94 National Health Interview Survey (NHIS). The NHAMCS PSU sample included with certainty the 26 NHIS PSUs with the largest populations. In addition, the NHAMCS sample included one-half of the next 26 largest PSUs, and one PSU from each of the 73 PSU strata formed from the remaining PSUs for the NHIS sample.

The NHIS PSU sample was selected from approximately 1,900 geographically defined PSUs that covered the 50 States and the District of Columbia. The 1,900 PSUs were stratified by socioeconomic and demographic variables and then selected with a probability proportional to their size. Stratification was done within four geographical regions by MSA or non-MSA status. A detailed description of the 1985-94 NHIS PSU sample design is available (7).

2. Hospitals

The sampling frame for the 2000 NHAMCS was compiled from the hospitals listed on the April 1991 SMG Hospital Market Data Base. Hospitals with an average length of stay for all patients of less than 30 days (short-stay) or hospitals whose specialty was general (medical or surgical) or children's general were eligible for the NHAMCS. Excluded were Federal hospitals, hospital units of institutions, and hospitals with less than six beds staffed for patient use. The SMG Hospital Market Data Base contained 6,249 hospitals that met these eligibility criteria. Of the eligible hospitals, 5,582 (89 percent) had emergency departments (EDs) and 5,654 (90 percent) had outpatient departments (OPDs). Hospitals were defined to have an ED if the hospital file indicated the presence of such a unit or if the file indicated a non-zero number of visits to such a unit. A similar rule was used to define the presence of an OPD. Hospitals were classified into four groups: those with only an ED; those with an ED and an OPD; those with only an OPD; and those with neither an ED nor an OPD. Hospitals in the last class were considered as a separate stratum and a small sample (50 hospitals) was selected from this stratum to allow for estimation to the total universe of eligible hospitals and the opening and closing of EDs and OPDs in the sample hospitals.

All hospitals in non-certainty PSUs with five or fewer hospitals were selected with certainty. There were 149 hospitals in 55 PSUs in this category. In non-certainty PSUs with more than five hospitals, hospitals were stratified by hospital class; type of ownership (not-for-profit, non-Federal government, and for-profit); and hospital size. Hospital size was measured by the combined volume of ED and OPD visits. From the stratified hospital list, five hospitals were selected in each PSU with probability proportional to the number of ED and OPD patient visits. A total of 161 hospitals was selected from this group. In the certainty PSUs, hospitals were stratified by region, hospital class, ownership, and size. From the stratified hospital list, 240 hospitals were selected based on probability proportional to size. A sample of 50 hospitals was selected from the 427 hospitals that had neither an ED nor an OPD.

The hospital selections were made so that each hospital would be chosen only once to avoid multiple inclusion of very large hospitals. A fixed panel of 600 hospitals was selected for the NHAMCS sample; 550 hospitals had an ED and/or an OPD and 50 hospitals had neither an ED nor an OPD.

To preclude hospitals participating during the same time period each year, the sample of 600 hospitals was randomly divided into 16 subsets of approximately equal size. Each subset was assigned to 1 of the 16 4-week reporting periods, beginning December 2, 1991, which continue to rotate across each survey year. Therefore, the entire sample does not participate in a given year, and each hospital is inducted approximately once every 15 months. The 2000 NHAMCS included data collected from December 27, 1999 through December 24, 2000, and consisted of a sample of 488 hospitals. Of the 488 hospitals in the 2000 NHAMCS, 413 were in scope or eligible to participate in the survey. The hospital response rate for the NHAMCS during this period was 96 percent. Table 1 (pages 8-9) displays response rates for the hospitals selected in the sample.

Table 1. Distribution of hospitals in the National Hospital Ambulatory Medical Care Survey by reporting period and response status: United States, 2000

Response Status	Total	Reporting Period					
		10	11	12	13	14	15
SAMPLE SIZE	488	37	37	37	37	37	38
A. Complete	362	27	30	26	27	26	30
B. Partial Complete	35	3	1	2	3	2	3
C. Out of Scope	75	5	5	8	7	5	5
-Federal Hospital	0	0	0	0	0	0	0
-No ED or OPD	30	4	0	3	5	3	1
-Other	45	1	5	5	2	2	4
D. Refused	17	2	1	1	0	4	0
E. Response Rate	96%	94%	97%	97%	100%	88%	100%

Response rate is (A+B) divided by (A+B+D).

Reporting Period Dates:

10 = Dec. 27, 1999 - Jan. 23, 2000
 11 = Jan. 24 - Feb. 20, 2000
 12 = Feb. 21 - Mar. 19, 2000
 13 = Mar. 20 - Apr. 16, 2000
 14 = Apr. 17 - May 14, 2000
 15 = May 15 - June 11, 2000
 16 = June 12 - July 09, 2000
 01 = July 10 - Aug. 06, 2000
 02 = Aug. 07 - Sep. 03, 2000
 03 = Sep. 04 - Oct. 01, 2000
 04 = Oct. 02 - Oct. 29, 2000
 05 = Oct. 30 - Nov. 26, 2000
 06 = Nov. 27 - Dec. 14, 2000

Table 1. Distribution of hospitals in the National Hospital Ambulatory Medical Care Survey by reporting period and response status: United States, 2000-- continued.

Response Status	Reporting Period						
	16	01	02	03	04	05	06
SAMPLE SIZE	38	38	38	38	38	37	38
A. Complete	27	31	35	28	30	27	28
B. Partial Complete	5	2	3	3	4	1	2
C. Out of Scope	4	5	7	6	4	8	6
-Federal Hospital	0	0	0	0	0	0	0
-No ED or OPD	2	3	0	1	2	5	1

D. Refused	2	0	3	1	0	1	2
E. Response Rate	94%	100%	90%	97%	100%	97%	94%

3. Outpatient Clinics and Emergency Service Areas

Within each hospital, either all outpatient clinics and emergency service areas (ESA's) or a sample of such units were selected. Clinics were in scope if ambulatory medical care was provided under the supervision of a physician and under the auspices of the hospital. Clinics were required to be "organized" in the sense that services were offered at established locations and schedules. Clinics where only ancillary services were provided or other settings in which physician services were not typically provided were out of scope. In addition, freestanding clinics were out of scope since they are included in the NAMCS, and ambulatory surgery centers, whether in hospitals or freestanding, were out of scope since they were to be included in the National Survey of Ambulatory Surgery which was first fielded in 1994. A list of in scope and out of scope clinics is provided in Appendix I (Definition of certain terms used in the survey). The OPD clinic definition excluded the "hospital as landlord" arrangement in which the hospital only rented space to a physician group and was not otherwise involved in the delivery of services. These physicians are considered office-based and are currently included in the NAMCS. Emergency services provided under the "hospital as landlord" arrangement, however, were eligible for the study. An emergency department was in scope if it was staffed 24 hours a day. If an in-scope emergency department had an emergency service area that was open less than 24 hours a day, then it was included under the emergency department. If a hospital had an emergency department that was staffed less than 24 hours a day, then it was considered an outpatient clinic.

Hospitals may define the term "separate clinic" differently, for example, by physical location within the hospital, by staff providing the services, by specialty or subspecialty, by schedules, or by patients' source of payment. Because of these differences, "separate clinics" in the NHAMCS were defined as the smallest administrative units for which the hospital kept patient volume statistics.

During the visit by a field representative to induct a hospital into the survey, a list of all emergency service areas and outpatient clinics was obtained from the sample hospital. Each outpatient department clinic's function, specialty, and expected number of visits during the assigned reporting period were also collected. If there were five or fewer clinic sampling units, then all were included in the sample. If a sample hospital had more than five clinic sampling units, then five units were randomly selected as follows: The individual clinics were listed first by six clinic categories: general medicine, surgery, pediatrics, obstetrics/gynecology, substance abuse, and other. Within each category, clinics were listed in order of clinic size, from smallest to largest. Clinic size was defined as the expected number of patient visits during the assigned 4-week reporting period. Within each clinic group, if a clinic expected fewer than 30 visits, it was grouped with one or more other clinics to form a sampling unit. After grouping the clinics into sampling units, five of these sampling units were selected based on probability proportional to the size of the sampling unit. If clinic sampling was required, the sampling was completed by Census headquarters staff in Washington, DC.

The emergency department was treated as a separate stratum, and all emergency service areas were selected with certainty. In the rare instance that a sample hospital had more than five

emergency service areas, a sample of five emergency service areas was selected with probability proportional to the expected number of visits to each emergency service area.

Of the 488 sample hospitals in the 2000 NHAMCS, 398 had ED's. A total of 460 ESA's was selected, and 446 ESA's provided data from a total of 376 participating ED's. The overall response rate for ED patient sampling was 97 percent. There were 252 sample hospitals with OPD's. Of this number, 221 participated and 908 clinics were selected from this group. Of these 908 clinics, 829 provided survey data, for an overall response rate for OPD patient sampling of 91 percent.

4. Visits

The basic sampling unit for the NHAMCS is the patient visit or encounter. Only visits made in the United States by patients to EDs and OPDs of non-Federal, short-stay, or general hospitals were included in the 2000 NHAMCS. Within emergency service areas or outpatient department clinics, patient visits were systematically selected over a randomly assigned 4-week reporting period. A visit was defined as a direct, personal exchange between a patient and a physician, or a staff member acting under a physician's direction, for the purpose of seeking care and rendering health services. Visits solely for administrative purposes, such as payment of a bill, and visits in which no medical care was provided, such as visits to deliver a specimen, were out of scope.

The target numbers of Patient Record forms to be completed for EDs and OPDs in each hospital were 50 and 150, respectively. In clinics with volumes higher than these desired figures, visits were sampled by a systematic procedure which selected every nth visit after a random start. Visit sampling rates were determined from the expected number of patients to be seen during the reporting period and the desired number of completed Patient Record forms. During the 2000 NHAMCS, Patient Record forms were completed for 25,622 ED visits and 27,510 OPD visits.

Specifications for visit sampling called for a maximum sampling rate of 1 in 20 visits or a maximum of 200 visits, whichever yielded the smaller sample size.

C. DATA COLLECTION PROCEDURES

1. Field Training

The Bureau of the Census was the data collection agent for the 2000 NHAMCS. Census Headquarters staff were responsible for overseeing the data collection process, training the Census Regional Office staff, and writing the field manual. Regional Office staff were responsible for training the field representatives and monitoring hospital data collection activities. Field representative training included approximately 4 hours of self-study and 1 ½ to 2 days of classroom training. Field representatives inducted the hospitals and trained the hospital staff on visit sampling and completion of the Patient Record forms.

2. Hospital Induction

Approximately three months prior to the hospital's assigned reporting period, NCHS sent a personally signed introductory letter from the Director of NCHS to the hospital administrator or chief executive officer of each sampled hospital. The names of the hospital officials were obtained from the American Hospital Association (AHA) Guide to Health Care. In addition to the introductory letter, NCHS also enclosed endorsement letters from the Emergency Nurses Association and the American College of Emergency Physicians to emphasize the importance of the study to the medical community.

Approximately one week after the mailing of the introductory letter, the Census field representative called the hospital administrator to arrange for an appointment to further explain the study and to verify hospital eligibility for the survey. Earlier studies indicated that the three-month lead time was necessary to obtain a meeting with the administrator, gain hospital approval, collect the required information about the hospital's ambulatory care services, develop the sampling plan, and train participating hospital staff (8,9).

3. Outpatient Clinic and Emergency Service Area Induction

After the initial visit and the development of the sampling plan, the field representative contacted the hospital coordinator to arrange for induction of the sample emergency service areas and outpatient clinics and for instruction of the hospital staff. At these visits, the field representative described the purpose and use of the survey data, explained the data collection process, including the visit sampling procedures, and presented the Patient Record forms.

4. Data Collection

The actual visit sampling and data collection for the NHAMCS was primarily the responsibility of hospital staff. This procedure was chosen for several reasons. First, the lack of a standard form or record coversheet in hospitals and the individuality of the hospital record keeping made field representative training difficult. Second, for confidentiality reasons, numerous hospitals did not want the field representatives to review patient logs or see actual medical records. Third, hospital staffs were better qualified to abstract data since they were familiar with the medical terms and coding, knew the record keeping systems, and could complete the Patient Record forms at or near the time of the visit when the information was the most complete and easiest to retrieve.

Hospital staff responsible for completing the Patient Record forms were instructed in how to complete each item by the field representatives. Separate instruction booklets for emergency service areas and outpatient department clinics were prepared and provided to guide hospital staff in this task. These booklets provided an overview of the survey, sampling instructions, instructions for completing the Patient Record forms, and definitions.

A brief, one page Patient Record form consisting of two sections was completed for each sample visit. To account for the differences in emergency and outpatient care, different Patient Record forms were developed for each of these settings (Figures 1 and 2). The top section of each Patient Record form, which contains the patient's name and record number, was separated from

the bottom section by a perforation running across the page. The top section remained attached to the bottom until the entire Patient Record form was completed. To ensure confidentiality, before collecting the completed Patient Record forms, the top section was detached and given to the hospital staff. The field representatives instructed hospital staff to keep this portion for a period of four weeks, in case it was necessary to retrieve missing information or clarify information that had been recorded.

The Patient Record forms were patterned after the NAMCS and can be completed in 2-3 minutes. The OPD Patient Record form most closely resembles the NAMCS Patient Record form, while the ED Patient Record form has been designed to reflect the type of care provided in that setting. Terms and definitions relating to the Patient Record forms are included in Appendix I. Approximately 58 percent of ED records and 60 percent of OPD records required Census abstraction.

D. FIELD QUALITY CONTROL

The field representative visited the sampled emergency service areas and clinics each week during the data collection period and maintained telephone contact with the hospital staff involved in the data collection effort. The field representative reviewed the log or other records used for visit sampling to determine if any cases were missing and also edited completed forms for missing data. Attempts were made to retrieve both missing cases and missing data on specific cases, either by consulting with the appropriate hospital staff or by reviewing the pertinent medical records.

On the final visit, the field representative collected the remaining Patient Record forms and obtained or verified the total count of visits occurring during the reporting period by reviewing the log used for sample selection or by obtaining counts directly from hospital staff. Because this information was critical to the estimation process, extensive effort was made to ensure the accuracy of this number.

At the end of the hospital's reporting period the field representative sent the administrator a personalized "Thank You" letter.

E. CONFIDENTIALITY

Assurance of confidentiality was provided to all hospitals according to Section 308 (d) of the Public Health Service Act (42 USC 242m). Strict procedures were utilized to prevent disclosure of NHAMCS data. All information which could identify the hospital or its facilities was confidential and was seen only by persons engaged in the NHAMCS, and was not disclosed or released to others for any other purpose. Names or other identifying information for individual patients were not removed from the hospitals or individual facilities.

Please note: Figure 1 has been omitted from this document in an effort to reduce file size. In order to view or download the 2000 Emergency Department Patient Record Form, please go to this website:

[http://www.cdc.gov/nchs/about/major/ahcd/surinst.htm#Survey Instrument NHAMCS](http://www.cdc.gov/nchs/about/major/ahcd/surinst.htm#Survey%20Instrument%20NHAMCS)

Please note: Figure 2 has been omitted from this document in an effort to reduce file size. In order to view or download the 2000 Outpatient Department Patient Record Form, please go to this website:

[http://www.cdc.gov/nchs/about/major/ahcd/surinst.htm#Survey Instrument NHAMCS](http://www.cdc.gov/nchs/about/major/ahcd/surinst.htm#Survey%20Instrument%20NHAMCS)

F. DATA PROCESSING

1. Edits

In addition to follow-ups for missing and inconsistent data made by the field staff, numerous clerical edits were performed on data received for central data processing. Detailed editing instructions were provided to manually review the patient records and to reclassify or recode "other" entries. Computer edits for code ranges and inconsistencies were also performed.

2. Quality control

All medical and drug coding and keying operations were subject to quality control procedures. Quality control for the medical and drug coding operation, as well as straight-key items, involved a two-way 10-percent independent verification procedure. As an additional quality control, all Patient Record forms with differences between coders or with illegible entries for the reason for visit, diagnostic and therapeutic procedures, diagnosis, E-code (cause of injury), and medication items were reviewed and adjudicated at NCHS. The average keying error rate for nonmedical items was 0.1 percent. For items which required medical coding, discrepancy rates ranged between 0.0 and 1.9 percent.

3. Adjustment for item nonresponse

Unweighted item nonresponse rates were 5.0 percent or less for data items with the following exceptions: is patient pregnant? (50.0 percent of visits for women 15-44 years of age - ED, 30.0 percent of visits for women 15-44 years of age - OPD); ethnicity (18.8 percent - ED, 22.8 percent - OPD); race (13.1 percent - ED, 16.5 percent - OPD); primary expected source of payment for visit (6.0 percent - ED); does patient belong to an HMO? (34.7 percent - ED, 24.7 percent - OPD); mode of arrival (6.6 percent - ED); immediacy with which patient should be seen; (26.3 percent - ED); presenting level of pain (49.8 percent - ED); place of occurrence of injury (38.6 percent of injury-related visits - ED, 55.9 percent of injury-related visits - OPD); is this injury work related (30.0 percent of injury-related visits - ED, 49.3 percent of injury-related visits - OPD); intentionality of injury (12.4 percent of injury visits - ED, 31.3 percent of injury visits - OPD); cause of injury (14.4 percent of injury visits - ED, 34.4 percent, OPD); was patient referred by another physician? (15.9 percent - OPD); was authorization required for care (23.2 percent - OPD); are you the patient's primary care physician? (13.1 percent - OPD); is this a capitated visit? (35.8 percent - OPD); time spent with physician (52.1 percent of visits where a physician was seen - OPD).

For some items, missing values were imputed by randomly assigning value from a Patient Record forms with similar characteristics. For the variable "immediacy with which patient should be seen" on the ED Patient Record form, the imputation was based on ED size, geographic region, and 3-digit ICD-9-CM code for primary diagnosis. For the other ED variables (visit time, birth year, sex and race) imputation was based on ED size, geographic region, "immediacy with which patient should be seen", and 3-digit ICD-9-CM code for primary diagnosis. For the OPD data, imputations were performed for the following variables: visit date,

birth year, sex, race, and time spent with physician. The grouping used was geographic region, OPD size by clinic, and 3-digit ICD-9-CM code for primary diagnosis.

G. MEDICAL CODING

The Patient Record form contains several medical items requiring three separate coding systems. The three coding systems are described briefly below. Quality control for the NHAMCS medical and drug coding operations involved a 10 percent independent coding and verification procedure. A dependent verification procedure was used to review and adjudicate all records with coding discrepancies. Definitions of the medical items can be found in Appendix I.

1. Patient's Complaint(s), Symptoms(s) or Other Reason(s) for this Visit: Information collected in item 14 of the OPD and ED Patient Record form was coded according to A Reason for Visit Classification for Ambulatory Care (RVC) (10). The updated classification is available (11), and the list of codes is shown in Appendix II. The classification was updated to incorporate several new codes as well as changes to existing codes. The system continues to utilize a modular structure. The digits 1 through 8 precede the 3-digit RVC codes to identify the various modules as follows:

<u>Prefix</u>	<u>Module</u>
"1" =	Symptom module
"2" =	Disease module
"3" =	Diagnostic, screening, and preventive module
"4" =	Treatment module
"5" =	Injuries and adverse effects module
"6" =	Test results module
"7" =	Administrative module
"8" =	Uncodable entries
"9" =	Special code = blank

Up to three reasons for visit were coded from item 14 on the OPD and ED PRF in sequence; coding instructions for this item are contained in the Reason for Visit Classification and Coding Manual (11).

2. Cause of Injury: Up to three causes of injury were coded from responses to item 15d on the ED PRF and item 16d on the OPD PRF. Causes of injury were coded using the Supplementary Classification of External Causes of Injury and Poisoning (E-codes), International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) (12). In the classification, E-codes range from E800-E999, and many, but not all, codes have an additional fourth digit to provide greater specificity. For the NHAMCS public use file, the 'E' has been dropped. There is an implied decimal between the third and fourth digits; inapplicable fourth digits have a dash inserted.

Examples: 895- = E895 = Accident caused by controlled fire in private dwelling
 9056 = E905.6 = Venomous marine animals and plants as the cause of poisoning
 and toxic reactions

In addition to these character codes, we have also provided numeric recodes for the cause of injury fields at the end of the record format. Please see page 50 in the Record Format section for more information on using the numeric recodes.

3. Physician's Diagnoses: Diagnostic information in item 17 of the OPD Patient Record form and item 16 of the ED PRF was coded according to the International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) (12).

For 2000, the ICD-9-CM codes are provided in two formats, the true ICD-9-CM code in character format, and a numeric recode found at the end of the record format. Please see page 50 in the Record format section for information on the background, purpose, and appearance of the numeric recodes. The rest of this paragraph describes the format of the true ICD-9-CM codes.

The true ICD-9-CM codes are not prefixed or zero-filled on the public use file. For example, 38100 = 381.00 = Acute nonsuppurative otitis media, unspecified. There is an implied decimal between the third and fourth digits. For inapplicable fourth or fifth digits, a dash has been inserted. For example, 4011- = 401.1 = Essential hypertension, benign. True supplementary classification codes are not prefixed or zero-filled. For example, V700- = V70.0 = Routine general medical examination at a health care facility.

In addition to the diagnostic codes from the ICD-9-CM the following unique codes in the diagnostic fields were developed by NHAMCS staff:

- V990- = noncodable diagnosis, insufficient information for coding, illegible diagnosis
- V991- = left before being seen, patient walked out, not seen by doctor, left against medical advice
- V992- = transferred to another facility, sent to see specialist
- V993- = HMO will not authorize treatment
- V997- = entry of "none," "no diagnosis," "no disease," "healthy"
- 00000 = blank

A maximum of three diagnoses were coded in sequence. Coding instructions concerning diagnoses are contained in the NHAMCS Coding Requirements Manual (13).

4. Ambulatory Surgical Procedures, Diagnostic/Screening Services, Therapeutic and Preventive Services, and Procedures: Data from item 20 on the OPD Patient Record form (ambulatory surgical procedures) as well as open-ended responses for diagnostic/screening services (item 18) and the therapeutic/preventive services (item 19) were coded according to the International Classification of Diseases (ICD-9-CM) using the procedure codes in Volume III. Up to 2 surgical procedures and up to 2 open-ended responses ("Other - specify") for diagnostic/screening services and therapeutic/preventive services could be coded for each OPD visit. For the ED Patient Record form, up to 2 open-ended responses could be coded for diagnostic/screening services (item 17) and up to 2 open-ended responses could be coded for procedures (item 18). True codes have an implied decimal between the second and third position and do not use prefixes or zero-fills. Codes without an applicable 4th digit have a dash inserted. Please note that, as for cause of injury and diagnosis described above, this year's public

use file also contains numeric recodes for procedures at the end of the record format. These are described in the Record Format section.

During data processing, it was discovered that some respondents reported procedures in item 17 ED (item 18 OPD), while others may have reported the same procedure in item 18 ED (item 19 OPD or item 20 OPD). For this reason, when analyzing procedures, it is recommended that all of the possible procedure fields be taken into account regardless of item location.

5. Medications/Injections: The NHAMCS drug data collected in item 21 (OPD) and item 19 (ED) have been classified and coded according to a unique classification scheme developed at NCHS (14). A list of drug codes is included in Appendix III. The 2000 Patient Record forms allow for the recording of up to six drugs. In addition to drug codes by entry name (the entry made on the Patient Record form by the hospital staff), this file contains the following drug information:

a. Generic name code: A unique, 5-digit code assigned to each official generic name assigned to every drug entity by the United States Pharmacopeia or other responsible authority.

b. Prescription status code: A code designed to identify the legal status (prescription or nonprescription) of the drug entry.

c. Controlled substance status code: A code used to denote the degree of potential abuse and federal control of a drug entry.

d. Composition status code: A code used to distinguish between single-ingredient and combination drugs.

Note: If the user is searching for single ingredient (or single entity) drugs, then he or she may utilize the composition status code = "1" in conjunction with the generic name code. A single ingredient drug will have one generic code in the generic name code field, and blanks in the five ingredient code fields. If the user is searching for combination drugs, then he or she may utilize composition status code = "2" in conjunction with the ingredient code fields. Combination drugs are also identified by the codes 51380, 51381, and 51382 (see below) in the generic name code field. These codes indicate that the drug is a combination product and the ingredients are listed as generic codes in the ingredient code fields. Therefore, the user may search for combination products using either the generic name code or the combination status code.

e. Ingredient codes: Codes used to identify the active generic ingredients of combination drugs. A maximum of 5 ingredients can be identified for each combination drug.

f. Drug class code: A 4-digit code used to identify the primary class to which the drug entry may belong. These are based on the standard drug classifications used in the National Drug Code Directory, 1995 edition (15). The first two digits represent the major drug

classes and can be used alone or in conjunction with the additional digits for greater specificity within the major classes. A listing of the drug classes is shown in Appendix III.

The medical classification system of drugs by entry name (Appendix III) utilizes a five-digit coding scheme which is updated regularly to include new products. It includes the following special codes:

90000 = blank
99980 = unknown entry, other
99999 = illegible entry

The classification of drugs by generic name (Appendix III) also utilizes a five-digit coding scheme, with the following special codes:

50000 = generic name undetermined
51380 = combination product
51381 = fixed combination
51382 = multi-vitamin/multi-mineral

For users who are interested in analyzing drug data only (apart from visit data), you will need to isolate those records with drugs, or drug mentions, and create a separate datafile of drug mentions. Each Patient Record form can have up to six drug mentions recorded, so whatever file is created will need to include all of them. This documentation contains marginal data on drug mentions and approximate relative standard errors. Should the data user need additional assistance in analyzing data on drug mentions, the staff of the Ambulatory Care Statistics Branch is available by calling (301) 458-4600.

H. ESTIMATION PROCEDURES

Statistics from the NHAMCS are derived by a multistage estimation procedure that produces essentially unbiased estimates. The estimation procedure has three basic components: 1) inflation by reciprocals of the sampling selection probabilities; 2) adjustment for nonresponse; and 3) a population weighting ratio adjustment. Beginning with 1997 data, the population weighting ratio adjustment for OPD estimates was replaced by an adjustment which controls for effects of rotating hospital sample panels into and out of the sample each year. (The full NHAMCS hospital sample is partitioned into 16 panels which are rotated into the sample over 16 periods of four weeks each so that only 13 panels are used in each year.)

1. Inflation by reciprocals of selection probabilities

There is one probability for each sampling stage: a) the probability of selecting the PSU; b) the probability of selecting the hospital; c) the probability of selecting the emergency service area (ESA) or OPD clinic from within the hospital; and d) the probability of selecting the visit within the ESA or clinic. The last probability is calculated to be the sample size from the ESA or clinic divided by the total number of visits occurring in that unit during that unit's data collection period. The overall probability of selection is the product of the probabilities at each

stage. The inverse of the overall selection probability is the basic inflation weight. Beginning with the 1997 data, the overall selection probabilities of some OPDs were permanently trimmed to prevent individual OPDs from contributing too much of their region's total to OPD visit estimates.

2. Adjustment for nonresponse

NHAMCS data are adjusted to account for two types of nonresponse. The first type of nonresponse occurred when a sample hospital refused to provide information about its ED(s) and/or OPD(s) which were publically known to exist. In this case, the weights of visits to hospitals similar to the nonrespondent hospitals were inflated to account for visits represented by the nonrespondent hospitals where hospitals were judged to be similar if they were in the same region, ownership control group (government, non-Federal; voluntary non-profit; or proprietary), and had the same metropolitan statistical area (MSA) status (that is, whether they were located in an MSA or not in an MSA). This adjustment was made separately by department type.

The second type of nonresponse occurred when a sample ESA or OPD clinic within a "respondent" hospital failed to provide completed Patient Record forms for a sample of its patient visits. The weights of visits to ESAs/OPD clinics similar to the nonrespondent ESAs/OPD clinics were inflated to account for visits represented by the nonrespondent ESAs/OPD clinics where ESAs/OPD clinics were judged to be similar if they were in the same region, ownership control group, MSA status group and ESA/OPD clinic group. For this purpose, there were six OPD clinic groups: general medicine, pediatrics, surgery, OB/GYN, alcohol and/or substance abuse, and "other."

3. Ratio adjustments

Adjustments were made within hospital strata defined by region and by hospital ownership control groups. Within the Northeast, the Midwest and the South, the adjustment strata were further defined by MSA status. These adjustments were made separately for emergency and outpatient departments. For EDs, the adjustment was a multiplicative factor that had as its numerator the sum of annual visit volumes reported to EDs in sampling frame hospitals in the stratum and as its denominator the estimated number of those visits for that stratum. Through the 1996 NHAMCS, the adjustment for visits to OPDs was a multiplicative factor which had as its numerator the number of OPDs reported in sampling frame hospitals in the stratum and as its denominator the estimated number of those OPDs for that stratum. The data for the numerator and denominator of both adjustments were based on figures recorded for the data year in the SMG Hospital Market Data Base.

Beginning with the 1997 NHAMCS, the adjustment for OPD estimates was replaced by a ratio which had as its numerator the weighted OPD visit volumes of hospitals in the full NHAMCS sample (16 hospital panels) and as its denominator the weighted OPD visit volumes of hospitals in the 13 hospital panels included in that year's sample. This adjustment used visit volumes that were based on the most recent survey data collected from hospitals that had participated in NHAMCS for at least one year. For hospitals which had never participated, visit

volumes were obtained by phone, from SMG data, or by using the average of visit volumes for refusal hospitals which had converted to respondent status in the 2000 survey.

I. PATIENT VISIT WEIGHT

The "patient visit weight" is a vital component in the process of producing national estimates from sample data and its use should be clearly understood by all data file users. The statistics contained on the data file reflect only a sample of patient visits-- not a complete count of all the visits that occurred in the United States. Each record on the ED file represents one visit in the sample of 25,622 visits, and each record on the OPD file represents one visit in the sample of 27,510 visits. In order to obtain national estimates from the two samples, each record is assigned an inflation factor called the "patient visit weight."

By aggregating the "patient visit weights" on the 25,622 ED sample records for 2000 the user can obtain the total of 108,016,777 estimated visits made by all patients to EDs in the United States. Also, by aggregating the "patient visit weights" on the 27,510 OPD sample records for 2000 the user can obtain the total of 83,288,796 estimated visits made by all patients to OPDs in the United States.

The marginal tables contain data on numbers of records for selected variables as well as the corresponding national estimated number of visits and drug mentions obtained by aggregating the "patient visit weights" on those records.

J. HOSPITAL CODE and PATIENT CODE

The purpose of these codes is to allow for greater analytical depth by permitting the user to link individual Patient Record forms on the public use file with individual hospitals. This linkage will enable users to conduct more comprehensive analysis without violating the confidentiality of patients or hospitals. Hospital codes are randomly assigned each year and may be different on the OPD and ED files.

To uniquely identify a record, both the hospital code and the patient code must be used. Patient codes are merely a sequential numbering of the visits recorded by the hospital and alone will not uniquely identify visit records. In order to do so, both the unique 3-digit hospital code and the 3-digit patient code must be used.

K. CLINIC TYPE CODE (For OPDs only)

The purpose of this code is similar to that of the hospital code. It allows the user to identify all records from a particular type of outpatient clinic.

L. POPULATION FIGURES

The base population used in computing annual visit rates is presented in table II. Estimates of age, sex, and race are based on U.S. Bureau of the Census monthly postcensal estimates of the civilian noninstitutionalized population of the United States as of July 1, 2000. Figures are consistent with the downloadable series, "U.S. Population Estimates by Age, Sex, Race and Hispanic Origin: 1980 to 1999 (with short-term projection to dates in 2000)" which is available at the Census Internet site:

http://eire.census.gov/popest/archives/national/nat_90s_detail/nat_90s_4.php

Figures have been adjusted for net underenumeration using the 1990 National Population Adjustment Matrix.

Regional estimates were provided by the Division of Health Interview Statistics (DHIS), National Center for Health Statistics, and are based on U.S. Bureau of the Census estimates of the civilian noninstitutionalized population as of July 1, 2000. DHIS estimates are slightly different than monthly postcensal estimates due to differences in the adjustment process. These population estimates are presented here solely for the purpose of providing denominators for rate computation and should not be considered official population estimates.

Table II. U.S. population estimates used in computing annual visit rates for the National Ambulatory Medical Care Survey and the National Hospital Ambulatory Medical Care Survey, by selected characteristics: July 1, 2000

Race and sex	All ages	Under 5 years	5-14 years	15-24 years	25-34 years
All races	274,137,876	19,606,752	40,749,439	38,505,228	37,368,083
Male	133,686,285	10,019,265	20,845,960	19,381,646	18,244,412
Female	140,451,591	9,587,487	19,903,479	19,123,582	19,123,671

II. TECHNICAL DESCRIPTION OF TAPE AND RECORD FORMATS

The NHAMCS public use data file is available in cartridge (3480) and reel tape format. Information is listed for both below:

A. TECHNICAL DESCRIPTION OF TAPE

Label IBM standard label

Number of tapes 1

Density (bpi) 9 (applies to reel tape only)

Language EBCDIC

Parity ODD

Computer compatibility IBM 9021-640

Internal file #1 Emergency Department File

Data Set Name DQS4.ED2000

Label (1,SL)

Record length 663

Block size 66,300

Number of records 25,622

Internal file #2 Outpatient Department File

Data Set Name DQS4.OPD2000

Label (2,SL)

Record length 663

Block size 66,300

Number of records 27,510

B. RECORD FORMAT OF EMERGENCY DEPARTMENT MICRO-DATA FILE

Number of records = 25,622

This section consists of a detailed breakdown of each data record. For each item on the record, the user is provided with a sequential item number, field length, file location, and brief description of the item, along with valid codes. Unless otherwise stated in the "item description" column, the data are derived from the Emergency Department Patient Record form. The hospital induction interview and the SMG Hospital Market Data Base are other sources of data, while the computer generates other items by recoding selected data items.

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
1			DATE OF VISIT
1.1	2	1-2	MONTH OF VISIT 01-12: January-December
1.2	4	3-6	YEAR OF VISIT 1999 or 2000 (Survey dates were Dec. 27, 1999 - Dec. 24, 2000.)
2	1	7	DAY OF WEEK OF VISIT 1=Sunday 2=Monday 3=Tuesday 4=Wednesday 5=Thursday 6=Friday 7=Saturday
3	4	8-11	TIME OF VISIT 0000-2359 (Military time, e.g. 2230=10:30pm)
4	3	12-14	PATIENT AGE (IN YEARS; DERIVED FROM DATE OF BIRTH) 000-099 100 = 100 years and over
5	1	15	MODE OF ARRIVAL 1 = Ambulance (air/ground) 2 = Public service (non-ambulance, e.g., police, social services.) 3 = Walk-in 4 = Unknown 5 = Blank

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
6	1	16	SEX 1 = Female 2 = Male
7	1	17	IS PATIENT PREGNANT? 1=Yes 2=No 3=Unknown 4=Blank/Not applicable
8	1	18	ETHNICITY 1 = Hispanic or Latino 2 = Not Hispanic or Latino 3 = Blank
9	1	19	RACE 1 = White 2 = Black/African American 3 = Asian and/or Native Hawaiian/Other Pacific Islander 4 = American Indian/Alaska Native 5 = More than one race reported
10	3	20-22	WAITING TIME TO SEE PHYSICIAN (IN MINUTES) Calculated from time of visit and time seen by physician. Waiting time was not calculated for records missing the hour of visit. 000-600 999 = Unknown/Not seen by physician
11	1	23	PRIMARY EXPECTED SOURCE OF PAYMENT FOR THIS VISIT 1 = Private insurance 2 = Medicare 3 = Medicaid 4 = Worker's Compensation 5 = Self-pay 6 = No charge 7 = Other 8 = Unknown 9 = Blank

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
12	1	24	DOES PATIENT BELONG TO AN HMO? (Health Maintenance Organization) 1= Yes 2= No 3= Unknown 4= Blank
13	1	25	IMMEDIACY WITH WHICH PATIENT SHOULD BE SEEN 1 = Unknown/no triage 2 = Less than 15 minutes 3 = 15-60 minutes 4 = >1 hour - 2 hours 5 = >2 hours - 24 hours
14	1	26	PRESENTING LEVEL OF PAIN 1 = Unknown 2 = None 3 = Mild 4 = Moderate 5 = Severe 6 = Blank
15			PATIENT'S REASON(S) FOR VISIT (See page 17 in Section I and Coding List in Appendix II.)
15.1	5	27-31	REASON # 1 10050-89990 = 1005.0-8999.0 90000 = Blank
15.2	5	32-36	REASON # 2 10050-89990 = 1005.0-8999.0 90000 = Blank
15.3	5	37-41	REASON # 3 10050-89990 = 1005.0-8999.0 90000 = Blank
16	1	42	IS THIS VISIT RELATED TO INJURY OR POISONING? 0 = No 1 = Yes

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
17	1	43	<p>PLACE OF OCCURRENCE OF INJURY</p> <p>1=Residence 2=Recreation/sports area 3=Street/highway 4=School 5=Other public building 6=Industrial place 7=Other 8=Unknown 9=Not applicable (not an injury visit)</p>
18	1	44	<p>IS THIS INJURY INTENTIONAL? (From the checkbox in Item 15b. Also see Item 50 [pos. 580] which is a recoded item based on the stated cause of injury from Item 15d of the Patient Record form.)</p> <p>1 = Yes (Self-inflicted) 2 = Yes (Assault) 3 = No, Unintentional 4 = Unknown 5 = Not applicable (not an injury visit)</p>
19	1	45	<p>IS INJURY WORK RELATED?</p> <p>1=Yes 2= No 3=Unknown 4=Not applicable (not an injury visit)</p>
20			<p>CAUSE OF INJURY (See page 17 in Section I for explanation of codes.)</p>
20.1	4	46-49	<p>CAUSE # 1 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied.</p> <p>8000-999[-] = E800.0-E999 0000 = Not applicable/Blank</p>
20.2	4	50-53	<p>CAUSE # 2 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied.</p> <p>8000-999[-] = E800.0-E999 0000 = Not applicable/Blank</p>

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
20.3	4	54-57	CAUSE # 3 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied. 8000-999[-] = E800.0-E999 0000 = Not applicable/Blank
21	100	58-157	CAUSE OF INJURY - VERBATIM TEXT Description of events that preceded the injury. Some entries contain the acronym 'MVA.' MVA = motor vehicle accident.

IMPORTANT NOTES ON USING THE CAUSE OF INJURY VERBATIM TEXT DATA

In previous survey years, the cause of injury was converted to an external cause of injury code (E-code) by NCHS medical coders. Since 1997, the actual verbatim text has been included on the public use file in addition to the E-code. The inclusion of the verbatim text is meant to assist data users in two major ways. First, the verbatim text can be used by researchers to assign records to injury classification schemes other than the "Supplementary Classification of External Causes of Injury and Poisoning" found in the ICD-9-CM, if so desired. Second, users can search for key text words (for example, swimming pool) to identify diverse causes of injury. It should be noted that, in an effort to preserve confidentiality, all geographic names, personal names, commercial names, and exact dates of injury have been stripped from the verbatim text.

It is important to remember that, because of their very specific nature, exact verbatim text strings will not translate into national estimates and should not be used as such. In general, we consider any estimate based on fewer than 30 occurrences in the data to be unreliable. Therefore, a single record showing the specific cause of injury of "tripped over a student's backpack in her classroom and fell on left knee" should not be weighted to produce a national estimate. If, however, a researcher is able to identify 30 or more records where the verbatim text involves a "backpack"-related injury, it might then be possible to sum the patient visit weights for these records to generate a national estimate related to a broader category of visits for back-pack related injuries. The reliability of such an estimate would still depend upon the associated relative standard error.

----------	--------------	---------------	----------------------------

NUMERIC RECODES FOR CAUSE OF INJURY, DIAGNOSIS, AND PROCEDURES

The following items were included on the public use file to facilitate analysis of visits using ICD-9-CM codes. Prior to the 1995 public use file, all ICD-9-CM diagnosis codes on the NHAMCS micro-data files were converted from alphanumeric to numeric fields according to the following coding conventions: A prefix of '1' was added to ICD-9-CM codes in the range of 001.0[-] through 999.9[-]. A prefix of "20" was substituted for the letter "V" for codes in the range of V01.0[-] through V82.9[-]. Inapplicable fourth or fifth digits were zero-filled. This conversion was done to facilitate analysis of ICD-9-CM data using Ambulatory Care Statistics software systems. Similar conversions were made for ICD-9-CM procedure codes and external cause of injury codes. Specific coding conventions are discussed in the public use documentation for each data year.

In 1995, however, the decision was made to use actual ICD-9-CM codes on the public use data file. Codes were not prefixed, and a dash was inserted for inapplicable fourth or fifth digits. For specific details pertaining to each type of code (diagnosis, procedure, cause of injury), refer to the documentation for the survey year of interest. This had the advantage of preserving actual codes and avoiding possible confusion over the creation of some artificial codes due to zero-filling.

It has come to our attention that some users of NHAMCS data find it preferable to use the numeric field recodes rather than the alphanumeric fields in certain data applications. Therefore, we have included numeric recodes for cause of injury, diagnosis, and procedure (ambulatory surgical procedure as well as "other" diagnostic/screening service and "other" therapeutic/preventive service) as listed below. These are in addition to the actual codes for these variables which appear earlier on the public use file. Users can make their own choice about which format best suits their needs.

We would be interested in hearing from data users as to which format they prefer so that a decision can be made about whether to include both formats in future years. Please contact Susan Schappert, Ambulatory Care Statistics Branch, at 301-458-4480.

NHAMCS DESIGN VARIABLES

Since their initial release, NHAMCS public use files have never contained sample design information because of confidentiality concerns. This limited the research potential of the data for users who wished to run statistical analyses using software such as SUDAAN and STATA. SUDAAN and STATA take into account the complex sample designs of surveys and thus require sample design information in order to run properly. They enable the user to compute variances, to perform logistic regressions, and to do other types of sophisticated statistical analysis.

Over the last 5 years, research has been conducted at NCHS in methods to include sample design information in the public use files for the NHAMCS without creating unacceptable disclosure risks. Different techniques were developed, tested, and compared. The result was the adoption of a methodology that has as its primary component the collapsing of certain sample strata into larger groups that mask their identity.

The solution to the confidentiality problem has made it possible for NCHS to release NHAMCS public use files that now contain design information. PSU is primary sampling unit.

51	3	621-623	STRATM : PSU stratum marker (masked) 201-404
52	5	624-628	PSUM : PSU marker (masked) 1-46
53	4	629-632	YEAR : Survey year (2000)
54	1	633	SUBFILE : File indicator (This has a value of 2 on the NHAMCS file. The item is used when combining NHAMCS data with data from the National Ambulatory Medical Care Survey. NAMCS files have a value of 1 for this item.)
65	2	634-635	PROSTRAT : Provider stratum marker 1, 2
66	4	636-639	PROVIDER : Provider code (assigned by the Ambulatory Care Statistics Branch; does not carry across survey years) 1-376

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
67	1	640	DEPT : Hospital dept. code 1 = Emergency department 2 = Outpatient department (Note: This item has a value of 1 on the NAMCS file. If combining data from the NAMCS and the NHAMCS, this item can be used to differentiate setting type by creating a new variable using a combination of the SUBFILE and DEPT variables.)
68	3	641-643	SU : Hospital sampling unit code 1-5
69	3	644-646	CLINIC : Hospital clinic code 1-5
70	2	647-648	POPSPSUM : Stratum counts of PSUs (masked) -1, 1
71	3	649-651	POPSUM : Number of clinic sampling units within a hospital (masked) -1, 0
72	6	652-657	POPVISM : Estimated provider visit volume (masked) -1, 0
73	6	658-663	POPPOVM : Estimated count of in-scope providers within PSU (masked) 0-330

For more information about how to use the design variables, please see the section on Relative Standard Errors (page 92).

C. RECORD FORMAT OF OUTPATIENT DEPARTMENT MICRO-DATA FILE

Number of records = 27,510

This section consists of a detailed breakdown of each data record. For each item on the record, the user is provided with a sequential item number, field length, file location, and brief description of the item, along with valid codes. Unless otherwise stated in the "item description" column, the data are derived from the Outpatient Department Patient Record form. The hospital induction interview and the SMG Hospital Market Data Base are other sources of data, while the computer generates other items by recoding selected data items.

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
1			DATE OF VISIT
1.1	2	1-2	MONTH OF VISIT 01-12: January-December
1.2	4	3-6	YEAR OF VISIT 1999 or 2000 (Survey dates 12/27/1999 - 12/24/2000)
1.3	1	7	DAY OF WEEK OF VISIT 1=Sunday 2=Monday 3=Tuesday 4=Wednesday 5=Thursday 6=Friday 7=Saturday
2	3	8-10	PATIENT AGE (IN YEARS; DERIVED FROM DATE OF BIRTH) 000-099 100 = 100 years and over
3	1	11	SEX 1 = Female 2 = Male
4	1	12	IS PATIENT PREGNANT? 1=Yes 2=No 3=Unknown 4=Blank/Not Applicable

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES

6	1	14	RACE 1 = White 2 = Black/African American 3 = Asian and/or Native Hawaiian/Other Pacific Islander 4 = American Indian/Alaska Native 5 = More than one race reported
7	1	15	WAS PATIENT REFERRED BY ANOTHER PHYSICIAN? 1 = Yes 2 = No 3 = Unknown 4 = Blank
8	1	16	WAS AUTHORIZATION REQUIRED FOR CARE? 1 = Yes 2 = No 3 = Unknown 4 = Blank
9	1	17	ARE YOU THE PATIENT'S PRIMARY CARE PHYSICIAN? 1 = Yes 2 = No 3 = Unknown 4 = Blank
10	1	18	PRIMARY EXPECTED SOURCE OF PAYMENT FOR THIS VISIT 1 = Private insurance 2 = Medicare 3 = Medicaid 4 = Worker's Compensation 5 = Self-pay 6 = No charge 7 = Other 8 = Unknown 9 = Blank

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
11	1	19	DOES PATIENT BELONG TO AN HMO? (Health Maintenance Organization) 1= Yes 2= No 3= Unknown 4= Blank
12	1	20	IS THIS A CAPITATED VISIT? 1 = Yes 2 = No 3 = Unknown 4 = Blank
13	1	21	HAS PATIENT BEEN SEEN IN THIS CLINIC BEFORE? 1 = Yes, established patient 2 = No, new patient 3 = Blank
14			PATIENT'S REASON(S) FOR VISIT (See page 17 in Section I and Coding List in Appendix II.)
14.1	5	22-26	REASON # 1 10050-89990 = 1005.0-8999.0 90000 = Blank
14.2	5	27-31	REASON # 2 10050-89990 = 1005.0-8999.0 90000 = Blank
14.3	5	32-36	REASON # 3 10050-89990 = 1005.0-8999.0 90000 = Blank
15	1	37	MAJOR REASON FOR THIS VISIT 1 = Acute problem 2 = Chronic problem, routine 3 = Chronic problem, flare up 4 = Pre- or post surgery/injury follow up 5 = Non-illness care (e.g. routine prenatal exam, general medical exam, well baby exam) 6 = Blank or Unknown

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
16	1	38	IS THIS VISIT RELATED TO INJURY OR POISONING? 0 = No 1 = Yes
17	1	39	PLACE OF OCCURRENCE OF INJURY 1=Residence 2=Recreation/sports area 3=Street/highway 4=School 5=Other public building 6=Industrial place 7=Other 8=Unknown 9=Not applicable (not an injury visit)
18	1	40	IS THIS INJURY INTENTIONAL? (From the checkbox in Item 16b. Also see Item 53 [pos. 604] which is a recoded item based on the stated cause of injury from Item 16d of the Patient Record form.) 1 = Yes (Self-inflicted) 2 = Yes (Assault) 3 = No, Unintentional 4 = Unknown 5 = Not applicable (not an injury visit)
19	1	41	IS INJURY WORK RELATED? 1=Yes 2= No 3=Unknown 4=Not applicable (not an injury visit)
20			CAUSE OF INJURY (See page 17 in Section I for explanation of codes.)
20.1	4	42-45	CAUSE # 1 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied. 8000-999[-] = E800.0-E999 0000 = Not applicable/Blank

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
20.2	4	46-49	CAUSE # 2 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied. 8000-999[-] = E800.0-E999 0000 = Not applicable/Blank
20.3	4	50-53	CAUSE # 3 (ICD-9-CM, E-Codes) There is an implied decimal between the third and fourth digits; for inapplicable fourth digits, a dash is inserted. A prefix 'E' is implied. 8000-999[-] = E800.0-E999 0000 = Not applicable/Blank
20.4	100	54-153	CAUSE OF INJURY - VERBATIM TEXT Description of events that preceded the injury. Some entries contain the acronym 'MVA.' MVA = motor vehicle accident.

IMPORTANT NOTES ON USING THE CAUSE OF INJURY VERBATIM TEXT DATA

In previous survey years, the cause of injury was converted to an external cause of injury code (E-code) by NCHS medical coders. Since 1997, the actual verbatim text has been included on the public use file in addition to the E-code. The inclusion of the verbatim text is meant to assist data users in two major ways. First, the verbatim text can be used by researchers to assign records to injury classification schemes other than the "Supplementary Classification of External Causes of Injury and Poisoning" found in the ICD-9-CM, if so desired. Second, users can search for key text words (for example, swimming pool) to identify diverse causes of injury. It should be noted that, in an effort to preserve confidentiality, all geographic names, personal names, commercial names, and exact dates of injury have been stripped from the verbatim text.

It is important to remember that, because of their very specific nature, exact verbatim text strings will not translate into national estimates and should not be used as such. In general, we consider any estimate based on fewer than 30 occurrences in the data to be unreliable. Therefore, a single record showing the specific cause of injury of "tripped over a student's backpack in her classroom and fell on left knee" should not be weighted to produce a national estimate. If, however, a researcher is able to identify 30 or more records where the verbatim text involves a "backpack"-related injury, it might then be possible to sum the patient visit weights for these records to generate a national estimate related to a broader category of visits for back-pack related injuries. The reliability of such an estimate would still depend upon the associated relative standard error.

NUMERIC RECODES FOR CAUSE OF INJURY, DIAGNOSIS, AND PROCEDURES

**** The following items were included on the public use file to facilitate analysis of visits using ICD-9-CM codes. Prior to the 1995 public use file, all ICD-9-CM diagnosis codes on the NHAMCS micro-data file were converted from alphanumeric to numeric fields according to the following coding conventions: A prefix of '1' was added to ICD-9-CM codes in the range of 001.0[-] through 999.9[-]. A prefix of "20" was substituted for the letter "V" for codes in the range of V01.0[-] through V82.9[-]. Inapplicable fourth or fifth digits were zero-filled. This conversion was done to facilitate analysis of ICD-9-CM data using Ambulatory Care Statistics software systems. Similar conversions were made for ICD-9-CM procedure codes and external cause of injury codes. Specific coding conventions are discussed in the public use documentation for each data year.

In 1995, however, the decision was made to use actual ICD-9-CM codes on the public use data file. Codes were not prefixed, and a dash was inserted for inapplicable fourth or fifth digits. For specific details pertaining to each type of code (diagnosis, procedure, cause of injury), refer to the documentation for the survey year of interest. This had the advantage of preserving actual codes and avoiding possible confusion over the creation of some artificial codes due to zero-filling.

It has come to our attention that some users of NHAMCS data find it preferable to use the numeric field recodes rather than the alphanumeric fields in certain data applications. Therefore, beginning with the 1997 data release, we have included numeric recodes for cause of injury, diagnosis, and procedure (ambulatory surgical procedure as well as "other" diagnostic/screening service and "other" therapeutic/preventive service) as listed below. These are in addition to the actual codes for these variables which appear earlier on the public use file. Users can make their own choice about which format best suits their needs.

We would be interested in hearing from data users as to which format they prefer so that a decision can be made about whether to include both formats in future years. Please contact Susan Schappert, Ambulatory Care Statistics Branch, at 301-458-4480. *****

47			CAUSE OF INJURY RECODE
47.1	4	549-552	CAUSE OF INJURY #1 (Recode to Numeric Field) 8000-9999 = E800.0 - E999.[9] 0000 = Blank

 1 = Unintentional
 2 = Self-inflicted
 3 = Assault
 4 = Legal intervention
 5 = Unknown intent
 6 = Adverse medical effects
 7 = Blank cause

NHAMCS DESIGN VARIABLES

Since their initial release, NHAMCS public use files have never contained sample design information because of confidentiality concerns. This limited the research potential of the data for users who wished to run statistical analyses using software such as SUDAAN and STATA. SUDAAN and STATA take into account the complex sample designs of surveys and thus require sample design information in order to run properly. They enable the user to compute variances, to perform logistic regressions, and to do other types of sophisticated statistical analysis.

Over the last 5 years, research has been conducted at NCHS in methods to include sample design information in the public use files for the NHAMCS without creating unacceptable disclosure risks. Different techniques were developed, tested, and compared. The result was the adoption of a methodology that has as its primary component the collapsing of certain sample strata into larger groups that mask their identity.

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
----------	--------------	---------------	----------------------------

The solution to the confidentiality problem has made it possible for NCHS to release NHAMCS public use files that now contain design information. PSU is primary sampling unit.

51	3	621-623	STRATM : PSU Stratum Marker (masked) 201-404
52	5	624-628	PSUM : PSU Marker (masked) 1-46
53	4	629-632	YEAR : Survey Year (2000)
54	1	633	SUBFILE : File Indicator (This has a value of 2 on the NHAMCS file. The item is used when combining NHAMCS data with data from the National Ambulatory Medical Care Survey. NAMCS files have a value of 1 for this item.)
65	2	634-635	PROSTRAT : Provider Stratum Marker 1, 2
66	4	636-639	PROVIDER : Provider Code (assigned by the Ambulatory Care Statistics Branch; does not carry across survey years nor across outpatient department file and emergency department file) 1-222
67	1	640	DEPT : Hospital Dept. Code 1 = Emergency department 2 = Outpatient department (Note: This item has a value of 1 on the NAMCS file. If combining data from the NAMCS and the NHAMCS, this item can be used to differentiate setting type by creating a new variable using a combination of the SUBFILE and DEPT variables.)
68	3	641-643	SU : Hospital sampling unit code 1-144
69	3	644-646	CLINIC : Hospital clinic code 1-42
70	2	647-648	POPSPSUM : Stratum counts of PSUs (masked) -1, 1

ITEM NO.	FIELD LENGTH	FILE LOCATION	ITEM DESCRIPTION AND CODES
71	3	649-651	POPSUM : Number of clinic sampling units within a hospital (masked) -1, 0
72	6	652-657	POPVISM : Estimated provider visit volume (masked) -1, 0
73	6	658-663	POPPROVM : Estimated count of in-scope providers within PSU (masked) 0-330

For more information about how to use the design variables, please see the section on Relative Standard Errors (page 92).

1 - White	19094	83,146,820	76.976
2 - Black/African American	5575	21,945,074	20.316
3 - Asian/Native Hawaiian/ Other Pacific Islander	762	2,211,565	2.047
4 - American Indian/Alaska Native	172	630,682	0.584
5 - Multiple categories reported	19	82,636	0.077

(Note: The race item was recoded to produce these categories as follows: records with a single race category reported were assigned to the reported category. Records with a category of "Asian" and/or "Native Hawaiian/Other Pacific Islander" were combined because of small numbers in the second category. Records with other multiple race categories listed were assigned a separate category.)

ETHNICITY

CATEGORY	RECORDS	WEIGHTED VISITS	PERCENT

APPENDIX I

A. RELATIVE STANDARD ERRORS

The standard error is primarily a measure of the sampling variability that occurs by chance because only a sample is surveyed, rather than the entire universe. The relative standard error (RSE) of an estimate is obtained by dividing the standard error of the estimate by the estimate itself and is expressed as a percentage of the estimate. Standard errors and other measures of sampling variability are best determined by using a statistical software package such as SUDAAN or STATA that take into account the complex sample designs of surveys to produce such measures.

The NHAMCS public use file for 2000 includes sample design information that is necessary for running SUDAAN and STATA. Previously, this information was not made available to the general public because of confidentiality concerns. However, after five years of research at NCHS, a methodology was developed that would allow these variables to be included on the files in a way that does not pose unacceptable disclosure risks.

The new design variables include a masked Primary Sampling Unit (PSU) stratum marker (STRATM); a masked PSU marker (PSUM); a constant denoting survey year (YEAR); a subfile indicator which is used to differentiate National Hospital Ambulatory Medical Care Survey files and National Ambulatory Medical Care Survey files when combining data sets (SUBFILE); a provider stratum marker (PROSTRAT); a provider code assigned by the Ambulatory Care Statistics Branch (PROVIDER); a hospital department code (DEPT), a hospital sampling unit code (SU), and a hospital clinic code (CLINIC); a masked stratum count of PSUs (POPPSUM); a masked number of clinic sampling units within a hospital (POPSUM); a masked estimated provider visit volume (POPVISM); and a masked estimated count of in-scope providers within PSUs (POPPOVM).

An example follows for using these design variables with SUDAAN. The variables STRATM, PSUM, YEAR, SUBFILE, PROSTRAT, PROVIDER, DEPT, SU, and CLINIC are all used in the SUDAAN NEST statement. The variables POPPSUM, POPPOVM, POPSUM, and POPVISM are used in the TOTCNT statement.

```

1  PROC CROSSTAB DATA=COMB1 DESIGN=WOR FILETYPE=SAS ;
2  NEST STRATM PSUM SUBFILE PROSTRAT YEAR PROVIDER DEPT SU
   CLINIC/MISSUNIT ;
3  TOTCNT POPPSUM _ZERO_ _ZERO_ _ZERO_ POPPOVM _ZERO_ POPSUM
   _ZERO_ POPVISM ;

```

Using computer software like SUDAAN to produce standard errors will, in general, yield results that are more accurate than those produced using the generalized variance curve described below. This is especially true for clustered variables like race, provider seen, or expected source of payment. The standard errors produced with such software using masked design variables, while improving substantially over the generalized variance curve results, will not always be as accurate as those produced using unmasked data. However, data files containing unmasked variables are confidential and are only available through the NCHS Research Data Center.

Standard errors approximated with the masked design variables have been found to understate the corresponding standard errors using unmasked variables by more than 5 percent for up to a quarter of the estimates published annually in the *Advance Data* summaries of NHAMCS data. Thus, conservative methods are advised when using standard errors calculated with the masked design variables. For example, one may want to use only the 1 percent level of significance instead of the 5 percent level when testing differences using variances that are calculated with the masked design variables.

For data users who do not wish to use SUDAAN or similar programs to produce measures of sampling variability, Table III shows relative standard errors based on generalized variance curves for a range of visit estimates and drug mention estimates, including the lowest reliable estimates, for outpatient and emergency departments. (Estimates with a relative standard error greater than 30 percent are considered unreliable by the standards of the National Center for Health Statistics. It should also be noted here that estimates based on fewer than 30 sample records are considered unreliable, regardless of the magnitude of the relative standard error.)

TABLE III. Approximate relative standard errors for estimated numbers of patient visits and drug mentions: National Hospital Ambulatory Medical Care Survey, 2000.

PATIENT VISITS			DRUG MENTIONS		
Estimate (in 1000s)	Relative Standard Error (in percent)		Estimate (in 1000s)	Relative Standard Error (in percent)	
	ED	OPD		ED	OPD
10	85.3	92.0	10	133.7	137.1
20	60.4	65.6	20	94.6	97.4
50	38.4	42.4	50	60.0	62.4
100	27.4	31.0	100	42.7	45.1
200	19.7	23.3	200	30.5	33.2
500	13.0	17.1	500	19.9	23.3
1,000	9.8	14.5	1,000	14.7	18.9
2,000	7.7	13.0	2,000	11.3	16.2
5,000	6.2	12.0	5,000	8.6	14.4
10,000	5.6	11.6	10,000	7.5	13.8
20,000	5.2	11.4	20,000	6.8	13.4
50,000	5.0	11.3	50,000	6.4	13.2
100,000	4.9	11.3	100,000	6.3	13.1
200,000	4.9	11.3	200,000	6.2	13.1

NOTE: The lowest reliable estimates are as follows:

ED - 83,000 visits

OPD - 108,000 visits

ED - 207,000 drug mentions

OPD - 256,000 drug mentions

Please note, however, that estimates based on fewer than 30 sample records are considered to be unreliable regardless of the magnitude of the relative standard error.

Example of use of table: An aggregate estimate of 20 million patient visits to EDs has a relative standard error of 5.2%, or a standard error of 1,040,000 patient visits (5.2 percent of 20 million).

ED is emergency department. OPD is outpatient department.

In addition, the following formulas may be used to calculate approximate relative standard errors for visit estimates and drug mention estimates. For aggregate estimates, relative standard errors may be calculated using the following general formula, where "x" is the aggregate of patient visits or drug mentions in thousands, and coefficients "A" and "B" are obtained from table IV:

$$RSE(x) = \sqrt{A + \frac{B}{x}}$$

For estimates of percentages, relative standard errors may be calculated using the following general formula, where "p" is the percent of visits or drug mentions, "x" is the denominator of the percent in thousands, and coefficient "B" is obtained from table IV:

$$RSE(x) = \sqrt{\frac{B \cdot p}{p^2}}$$

TABLE IV. Coefficients appropriate for determining approximate relative standard errors of patient visit and drug mention estimates (in 1,000's) by type of estimate and setting: National Hospital Ambulatory Medical Care Survey, 2000.

	Coefficient for use with estimates in thousands	
	A	B
Patient visits		
Emergency departments	0.002363	7.258
Outpatient departments	0.012680	8.339
Drug mentions		
Emergency departments	0.003780	17.835
Outpatient departments	0.017042	18.620

For estimates of visit rates, in which the numerator is the number of visits for a particular characteristic, and the denominator is the total United States population, the relative standard error is equivalent to the relative standard error of the numerator, as shown in the previous paragraph on aggregate estimates.

B. INSTRUCTIONS FOR COMPLETING PATIENT RECORD FORMS (PRFs)

Item 1 - PATIENT'S ZIP CODE

The zip code of the patient's primary residence should be recorded here.

Item 2 - DATE OF VISIT

Record the month, day, and year of this visit in figures. For example, enter 5/15/99 for May 15, 1999.

Item 3 (ED) - TIME OF VISIT

Record the hour and minute in figures. For example, enter 01:15 for 1:15 A.M. or 1:15 P.M. Also, check the appropriate box (Military, AM or PM). Enter the first time appearing in the medial record (i.e., arrival/registration/triage).

It is very important that this item be recorded correctly. Please pay special attention to the military, AM or PM boxes. Also, cross check this item with Time Seen By Physician (item 13). For example, if a patient is seen by a physician, the time seen by physician should be after the time the patient entered the Emergency Department.

Item 4 (ED), Item 3 (OPD) - DATE OF BIRTH

Record the month, day, and 4-digit year of the patient's birth in figures (in the same fashion as DATE OF VISIT above). In the rare event the date of birth is unknown, estimate the 4-digit year of birth as closely as possible.

Item 5 (ED) - MODE OF ARRIVAL

<u>Mode</u>	<u>Definition</u>
1 Ambulance	The patient arrives in an ambulance, either air or ground. This includes private and public ambulances that have either Advanced Life Support (includes both non-invasive and invasive emergency patient care, such as defibrillation and endotracheal intubation) or Basic Life Support (includes non-invasive emergency patient care, such as CPR, controlling bleeding, splinting, and bandaging).

- 2 Public service The patient arrives in a vehicle, such as a police car, a social service vehicle, beach patrol, etc. or is escorted or carried by a public service official.
- 3 Walk-in The patient arrives by car, taxi, bus, or on foot.
- 4 Unknown The mode of arrival is unknown.

If two modes of arrival are shown, check the highest level box--Ambulance/Public service/Walk-in.

Item 6 (ED), Item 4 (OPD) - SEX

Place an "X" in the appropriate category. If "Female" is checked, please answer the sub-question "Is patient pregnant?"

Item 7 (ED), Item 5 (OPD) - ETHNICITY

Ethnicity relates to belonging to an ethnic group - that is a person's national or cultural group. NHAMCS has two categories for ethnicity, Hispanic or Latino or Not Hispanic or Latino.

Mark the appropriate category according to your hospital's usual practices. You are not expected to ask the patient for this information. If the patient's ethnicity is not known or not obvious, mark the box which in your judgment is most appropriate. The definitions of the categories are listed below.

Ethnicity	Definition
1 Hispanic or Latino	A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race .
2 Not Hispanic or Latino	All other persons.

Item 8 (ED), Item 6 (OPD) - RACE

Mark all appropriate categories based on observation or your knowledge of the patient. You are not expected to ask the patient for this information.

If the patient's race is not known or not obvious, mark the box(es) which in your judgment is most appropriate. The definitions of the categories are listed below.

Race	Definition
1 White	A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
2 Black/African American	A person having origins in any of the black racial groups of Africa.
3 Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam.
4 Native Hawaiian/Other Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
5 American Indian/Alaska Native	A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Item 7 (OPD) - WAS PATIENT REFERRED BY ANOTHER PHYSICIAN OR BY A HEALTH PLAN FOR THIS VISIT?

This item provides an idea of the “flow” of ambulatory patients from one physician to another. Mark the “Yes,” “No” or “Unknown” category, as appropriate.

Notice that this item concerns referrals to the sample clinic by a physician different from the one that the patient is seeing at this visit. The sample clinic may or may not be affiliated with the same health care plan as the referring physician (or referring health plan). The interest is in referrals for this visit and not in referrals for any prior visit. Referrals are any visits that are made because of the advice or direction of a physician (or health plan) other than the one being visited.

Item 8 (OPD) - WAS AUTHORIZATION REQUIRED FOR CARE?

Authorization is defined as permission sought or obtained prior to medical treatment from a third party payer. Mark "Yes" if authorization for care was required. Mark "No" if authorization was not required or "Unknown" if it is not known.

Item 9 (OPD) - ARE YOU THE PATIENT'S PRIMARY CARE PHYSICIAN?

The primary care physician plans and provides the comprehensive primary health care of the patient. Check "Yes" if the health care provided to the patient during this visit was from his/her primary care physician. If the physician was substituting for the patient's primary care physician, then check "Yes." Check "No" if care was not from the primary care physician and "Unknown" if it is not known.

Item 9 (ED), Item 10 (OPD) - PRIMARY EXPECTED SOURCE OF PAYMENT FOR THIS VISIT

Mark the **primary** expected source of payment that will pay for *this visit*. This information may be in the patient's file, however, in large hospitals, the billing information may be kept in the business office.

Mark **only one** Primary Expected Source of Payment.

Primary Expected Source of Payment	Definition
1 Private insurance	Charges paid in-part or in-full by a private insurer (e.g., Blue Cross or Blue Shield) either directly to the hospital or reimbursed to the patient. Include charges covered under a private insurance sponsored prepaid plan.
2 Medicare	Charges paid in-part or in-full by a Medicare plan. Includes payments directly to the hospital and payments reimbursed to the patient. Includes charges covered under a Medicare sponsored prepaid plan.
3 Medicaid	Charges paid in-part or in-full by a Medicaid plan. Includes payments made directly to the hospital and payments reimbursed to the patient. Include charges covered under a Medicaid sponsored prepaid plan.
4 Workers Compensation	A program designed to enable employees injured on the job to receive financial compensation regardless of fault.

- 5 Self-pay Charges to be paid by the patient or patient's family, which will not be reimbursed by a third party.
- DO NOT include co-payments or deductibles.
- Includes visits for which the patient is expected to be ultimately responsible for most of the bill, not whether the patient actually pays the bill.
- 6 No Charge Visits for which no fee is charged, e.g., charity, special research or teaching. Do not include visits paid for as part of a total care package, e.g., prepaid plan visits, postoperative visits included in a surgical fee, and pregnancy visits included in a flat fee charged for the entire pregnancy. Check the box that shows how the services were originally paid.
- 7 Other Any other sources of payment not covered by the above categories, such as CHAMPUS, state and local governments, private charitable organizations, and other liability insurance, e.g., automobile collision policy coverage.
- 8 Unknown The primary source of payment is not known.

Item 10 (ED), Item 11 (OPD) - DOES PATIENT BELONG TO AN HMO?

HMO is defined as a health care delivery system that offers comprehensive health services provided by an established panel or network of providers to a voluntarily enrolled population for a prepaid fixed fee and whose members are required to utilize services within the panel of contracted providers. Mark "Yes" if the patient belongs to an HMO. Mark "No" if the patient does not belong to an HMO and "Unknown" if it is not known.

Item 11 (ED) - IMMEDIACY WITH WHICH PATIENT SHOULD BE SEEN

Mark the box that best meets the clinical judgement made by the practitioner (e.g., triage nurse) about the patient's need for immediacy of evaluation and/or treatment. Level is assigned upon arrival at the ED.

At the time you train the ED data abstractor, determine how the hospital's triage categories correspond to those on the PRF. Use the terms that describe each of the "immediacy" levels listed below to help you link the hospital's triage system with that of the NHAMCS. Leave an index card with the ED data abstractor which indicates how the hospital's triage categories correspond to those on the PRF. If the hospital has categories which are not listed below, please contact your supervisor.

1 Unknown/no triage	No mention of immediacy rating or triage level in medical record or hospital does not perform triage or patient arrived DOA.
2 Less than 15 minutes	(Emergent, Stat, Severe, Immediate, Expectant, Major trauma, Major medicine) Severe illness (e.g., heart attack) or injury (e.g., spinal cord injury) requiring immediate care to combat danger to life or limb and where any delay would likely result in deterioration.
3 15-60 minutes	(Urgent, ASAP) Illness (e.g., acute asthma attack) or injury (e.g., broken leg) requiring treatment within 60 minutes. The patient is not in severe pain, and poses no threat to self or others.
4 >1 - 2 hours	(Semi-urgent, Moderate, Delayed) Illness (e.g., diarrhea) or injury (e.g., laceration) requiring treatment within 60-120 minutes.
5 > 2 - 24 hours	(Non-urgent, Minimal, Minor trauma, Minor medicine) Condition (e.g., sprained ankle) where delay of up to 24 hours would make no appreciable difference to the clinical condition, and where subsequent referral may be made to the appropriate alternative specialty.

Item 12 (ED) - PRESENTING LEVEL OF PAIN

Mark the box that indicates the level of the patient's pain as recorded in the medical record. Assessment of pain level should be based on the Clinical Practice Guidelines published by the Agency for Health Care Policy and Research which provide a numerical pain intensity scale.

1 Unknown	Unable to determine level of pain
2 None	Numerical rating of 0
3 Mild	Numerical rating of 1-3
4 Moderate	Numerical rating of 4-6
5 Severe	Numerical rating of 7-10

Item 13 (ED) - TIME SEEN BY PHYSICIAN

Record the time (i.e., the hour and minute) when the physician began seeing the patient in figures. For example, enter 01:15 for 1:15 AM or 1:15 PM. Also check the appropriate box (Military, AM or PM).

If the patient was not seen by a physician or the time that the patient was seen is unknown, check the appropriate box.

It is very important that this item be recorded correctly. Please pay special attention to the military, AM or PM boxes. Also, cross-check this item with Time of Visit (item 3). For example, if a patient is seen by a physician, the time seen by physician should be after the time the patient entered the Emergency Department.

Item 12 (OPD) - IS THIS A CAPITATED VISIT?

Capitation is a method of payment for health services in which an individual or institutional provider is paid a fixed amount for each person served, without regard to the actual number or nature of services provided to each person in a set period of time. Capitation is the characteristic payment method in certain health maintenance organizations (HMOs). Mark "Yes" if the payment for this visit is capitated. Mark "No" if the payment is not capitated and "Unknown" if it is not known.

Item 13 (OPD) - HAS PATIENT BEEN SEEN IN THIS CLINIC BEFORE?

“Seen” means “provided care for” at any time in the past. Mark “Yes, established patient” if the patient was seen before by another physician or staff member in the clinic. Mark “No, new patient” if the patient has not been seen in the clinic before.

Item 14 - PATIENT'S COMPLAINT(S), SYMPTOM(S) OR OTHER REASON(S) FOR THIS VISIT (Use patient's own words.)

1. Most important
 2. Other
 3. Other
-

This is one of the most important items on the form. No similar national data on emergency department visits are available anywhere and there is a tremendous interest in the findings. Please take the time to be sure you understand what is wanted - emphasizing the following three points:

- g Record the patient's principal complaint(s), symptom(s) or other reason for this visit **as stated by the patient or, if the patient is unconscious or otherwise unable to speak, the person accompanying the patient (e.g., paramedic, relative)**. The physician may recognize right away, or may find out after examination, that the real problem is something entirely different, but we are interested in how the patient defines the reason for the visit.
- g The item refers to the patient's complaint, symptom or other reason for **this visit**. Conceivably, the patient may be undergoing a course of treatment for a serious illness, but if his/her principal reason for this visit is a cut finger or a twisted ankle, that is the information we want.
- g The complaint or symptom should be described in the **patient's own words, or if the patient is unconscious or otherwise unable to speak, by the person accompanying the patient (e.g., paramedic, relative)**. We will obtain the physician's diagnosis in Item 16 (ED), or Item 17 (OPD). Here we want the patient's description of the problem: "pain in the chest," "cramps after eating.

Space has been allocated for both the "most important" and two "other" complaints, symptoms, and reasons mentioned by the patient. Enter the most important in (1) and the other(s) in (2) and

(3). By "most important" we mean the problem or symptom which in the physician's judgment was most responsible for the patient making this visit. Since we are interested only in the patient's **most important complaint(s)/symptom(s)/reason(s)**, it will seldom be necessary to record more than three.

There will, of course, be visits by patients for reasons other than some complaint or symptom. Examples might be :

follow-up for suture removal
recheck of heart condition

In such cases, simply record the *reason for the visit*.

NOTE: Remember that if the reason for the patient's visit was only to pay a bill or ask the hospital staff to complete an insurance form or drop off a specimen, the patient is not recorded on the log and no Patient Record Form should be completed.

Item 15 (OPD) - MAJOR REASON FOR THIS VISIT

Mark the major reason for the patient's present visit. Check only one of the following "Major Reasons."

Major Reason	Definition
1 Acute Problem	A condition, illness, or injury having a relatively sudden or recent onset (within three months of this visit). For injury, only include the initial visit for treatment of the injury.
2 Chronic Problem, Routine	A visit primarily to receive care or examination for a pre-existing chronic condition, illness, or injury (onset of condition was three months or more before this visit).
3 Chronic Problem, Flare-up	A visit primarily due to sudden exacerbation of a pre-existing chronic condition.
4 Pre-or Post Surgery/Injury Followup	A visit scheduled primarily for followup of a previous visit to any health care provider for treatment of the injury or for care required prior to or following surgery (e.g., pre-surgery tests, removing sutures). Include followup for treatment of injuries occurring within the last three months (e.g., removing casts). Do not include visits to determine if surgery is needed.
5 Non-Illness Care	General health maintenance examinations and routine periodic examinations of presumably healthy persons, both children and adults. Includes prenatal and postnatal care, annual physicals, well-child exams and insurance examinations.

Item 15 (ED), Item 16 (OPD) - IS THIS VISIT RELATED TO INJURY OR POISONING?

Mark the “Yes” or “No” box to indicate whether the patient’s visit was due to any type of injury or poisoning. The injury/poisoning does not need to be recent. It can include those visits for follow-up of previously treated injuries and visits for flare-ups of problems due to old injuries. Medical misadventures and adverse drug experiences are also included in this item.

If this visit is injury/poison-related, complete parts *a* through *d* as follows:

- a) Indicate where the injury/poisoning occurred.

Place of occurrence	Definition
1 Residence	<p>apartment, boarding house, farm house, house (residential), home including -- private driveway, garage, garden, walk, yard and swimming pool, noninstitutional place of residence.</p> <p>exclude home under construction but not yet occupied and institutional places of residence.</p>
2 Recreation/ sports area	<p>all sports areas including -- baseball field, basketball court, cricket ground, fives court, football field, golf course, gymnasium, hockey field, school gymnasium or sports field, race course, riding school, rifle range, sports ground, sports palace, stadium, tennis court, swimming pool (public) amusement park, beach resort, lake resort, mountain resort, seashore, vacation resort, holiday camp, playground, public park, ice palace, skating rink.</p> <p>exclude those areas that are in a private house or garden.</p>
3 Street or highway	<p>freeway, motor way, pavement, road, sidewalk.</p>
4 School	<p>include all private, public or state schools, university, kindergarten.</p> <p>exclude recreation and sports areas located on school premises.</p>

5 Other public building	<p>building (including adjacent grounds) used by the general public. Includes -- airport, garage building (for car storage), station (bus or railway), bank, café, restaurant, casino, church, cinema, theater, opera house, dance hall, music hall, movie house, radio broadcasting station, nightclub, public hall, clubhouse market (grocery or other commodity), shop (commercial), store, courthouse, post office, hotel, office, office building.</p> <p>exclude home garage and industrial buildings.</p>
6 Industrial places	<p>building under construction, dockyard, dry dock, factory building or premises, industrial yard, loading platform, industrial plant, railway yard, warehouse.</p>
7 Other	<p>mine and quarry, including, gravel pit, sand pit, and tunnel under construction.</p> <p>residential institutions: children's home, hospital, jail, senior citizen's home, orphanage, prison, reform school.</p> <p>farm (buildings, land under cultivation, ranch).</p> <p>farmhouse and home premises of farm should be included under "Residence."</p>

Check the "Other" box if the place of injury is not represented by one of the categories or check the "Unknown" box, if the place of injury is not known.

- b) Indicate whether the injury was intentional (self-inflicted or assault), unintentional, or unknown.
- c) Indicate whether the injury is work related or not. Consider available information with regard to location and activity at time of injury (i.e. if location is farm, suspect work related and evaluate per criteria).

Criteria for work-related injuries:

1 On employer premises

- Engaged in work activity, apprentice, vocational training
- On break, in hallways, restroom, cafeteria, storage area
- In employer parking lot while working, arriving, or leaving

2 Off employer premises

- Working for pay or compensation, including at home
- Working as a volunteer firefighter, law enforcement officer or EMT.

- Working in family business, including family farm. Activity should be clearly related to a profit-oriented business
- Traveling on business, including to and from customer/business contacts
- Engaged in work activity where vehicle is considered the work environment (e.g., taxi driver, truck driver, etc.)

Criteria for non work-related injuries:

1 On employer premises

- Engaged in recreational activities on employer controlled facilities (games, etc) for personal enjoyment
- As a visitor for non-work purposes, not on official business

2 Off employer premises

- Homemaker working at homemaking activities
- Working for self-non profit, i.e., mowing lawn, repairing own roof, hobby, or recreation activities
- Student engaged in school activities
- Operating vehicle (personal or commercial) for non-work purposes
- Commuting to or from work site

- d) Describe in detail the circumstances that caused the injury (e.g. fell off monkey bars, motor vehicle involving collision with another car). Also, include information on the role of the patient associated with the injury (e.g. bicyclist, pedestrian, unrestrained driver or passenger in a motor vehicle, horseback rider), the specific place of occurrence (e.g., lake), and the activity in which the patient was engaged at the time of the injury (e.g., swimming, boating).

Also include what happened to the patient and identify the proximate cause of the injury or injuries for which the patient sought treatment. The proximate cause of injury is the mechanism of injury that is temporarily or immediately responsible for the injury. An example is a laceration caused by a broken piece of glass. Include, in addition, the underlying or precipitating cause of injury... the event, mechanism, or external cause of injury that initiated and led to the proximate cause of injury. An example is a house fire that caused a person to jump out of the window. Both the precipitating or underlying cause (house fire) and the proximate cause (fall from window) would be important to record. It's especially important to record as much detail about falls and motor vehicle accidents as possible. For each, indicate what the fall was from and where the patient landed. NCHS will use the information collected to classify the cause of the injury using the International Classification of Diseases, Supplementary Classification of External Causes of Injury and Poisoning codes (ICD-9-CM E-Codes).

In addition to the usual types of injury-related visits for falls, lacerations, burns, etc. other injury-related visits include, but are not limited: visits for unintentional poisoning by drugs, medicinal substances, biological, other solid and liquid substances, gases and vapors; adverse reaction to drugs, medicinal substances, biologicals; complications of surgical and medical procedures; and insect and animal bites.

Item 16 (ED), Item 17 (OPD) - PHYSICIAN'S DIAGNOSES FOR THIS VISIT

- 1. Primary diagnosis**
 - 2. Other**
 - 3. Other**
-

This is one of the most important items on the Patient Record Form. Item 16-1 (ED), Item 17-1 (OPD) refers to the physician's primary diagnosis for this visit. While the diagnosis may be tentative, provisional or definitive, it should represent the physician's best judgement at this time, expressed in acceptable medical terminology including "problem" terms. If the patient was not seen by a physician, then the diagnosis by the main medical provider should be recorded.

If a patient appears for *postoperative* care (follow-up visit after surgery), record the postoperative diagnosis as well as any other. The postoperative diagnosis should be shown with the letters (P.O.).

Space has been allotted for two "other" diagnoses. In Items 16-2 and 16-3, list the ***other conditions related to this visit or related to the choice of treatment or medications ordered or provided for the patient at this time.*** Include chronic conditions (e.g., hypertension, depression, etc.), if related to this visit.

Item 17 (ED), Item 18 (OPD) - DIAGNOSTIC/SCREENING SERVICES

Mark all services that were ordered or provided during *this* visit for the purpose of screening (i.e., early detection of health problems in asymptomatic individuals) or diagnosis (i.e., identification of health problems causing individuals to be symptomatic). During a visit for a complete physical exam, several services may be ordered or provided.

EACH SERVICE SHOULD BE MARKED.

Mark the "Other" box, if services were ordered or provided but not listed and specify the types of diagnostic tests in the space provided. Mark the "None" box, if no Diagnostic/Screening Services were ordered or provided.

Item 18 (ED) - PROCEDURES

Mark all procedures provided on *this visit*.

- 1 NONE - No procedures were ordered or provided this visit.
- 2 ENDOTRACHEAL INTUBATION - Insertion of a laryngoscope into the mouth followed by a tube into the trachea.
- 3 CPR - Cardiopulmonary resuscitation.
- 4 IV FLUIDS - Administration of intravenous fluids.
- 5 NG TUBE - Insertion of a nasogastric (NG) tube through the nose, down the esophagus and into the stomach.

GASTRIC LAVAGE - Passage of a solution through the inflow tube into the nose, down the esophagus and into the stomach where the gastric contents are irrigated and returned through an outflow tube.
- 6 LUMBAR PUNCTURE - Insertion of a needle into the lumbar spine to extract spinal fluid for laboratory examination.
- 7 BLADDER CATHETER - Any type of catheter used to catheterize the bladder, for example, Foley.
- 8 WOUND CARE - Includes cleaning, debridement, and dressing of burns; repair of lacerations with skin tape or sutures; removal of foreign bodies; excisions; and incision and drainage of wounds.
- 9 EYE/ENT CARE - Care provided to the eyes, ears, nose, and throat; includes measurement of intraocular pressure in the eyes, removal of ear wax, removal of foreign bodies, nasal packing, and laryngoscopy.
- 10 ORTHOPEDIC CARE - Treatment of orthopedic injuries or conditions; includes casting, wrapping, splinting, and aspiration of fluid from joints.
- 11 OB/GYN CARE - Treatment of obstetric or gynecologic conditions, including routine care.
- 12 OTHER - Record all other diagnostic and/or treatment procedures provided this visit. Up to two procedures may be entered.

Mark the "Other" box and specify the type of procedure in the space provided if procedures were provided but not listed.

Mark the "None" box, if no procedures were provided.

Item 19 (OPD) - THERAPEUTIC AND PREVENTIVE SERVICES

Counseling/Education Mark all appropriate boxes for any of the following types of counseling, advice, education, instructions, or recommendations to the patient that were ordered or provided during the visit:

Diet/nutrition - any topic related to the foods and/or beverages consumed by the patient. Examples include general dietary guidelines for health promotion and disease prevention, dietary restrictions to treat or control a specific medical problem or condition, and dietary instructions related to medications.

Includes referrals to other health professionals, for example, dietitians and nutritionists.

Exercise - any topics related to the patient's physical conditioning or fitness. Examples include information aimed at general health promotion and disease prevention and information given to treat or control a specific medical condition. Includes referrals to other health and fitness professionals. Does not include referrals for physiotherapy. Physiotherapy ordered or provided at the visit is listed as a separate checkbox under "Other Therapy."

HIV/STD transmission - information intended to help the patient understand how HIV (human immunodeficiency virus) or STDs (sexually transmitted diseases) are transmitted. Includes topics such as "safe sex," IV drug use, and exchange of bodily fluids.

Family planning/contraception - information given to the patient to assist in conception or intended to help the patient understand how to prevent conception.

Prenatal instructions - information given to the mother during her entire pregnancy on the growth and development of the fetus and its chances for survival and good health after birth. Includes information about the mother's dietary intake, her weight, other factors affecting the fetus such as alcohol and certain drugs taken by the mother during pregnancy, and diseases that increase the risk of obstetrical complications such as diabetes, heart disease, hypertension, kidney disease, and anemia.

Breast self-exam - information given to the patient instructing her when and how to perform a simple self-examination of the breast.

Tobacco use/exposure - information given to the patient on issues related to tobacco use in any form, including cigarettes, cigars, snuff, and chewing tobacco, and on the exposure to tobacco in the form of "secondhand smoke." Includes information on smoking cessation as well as prevention of tobacco use. Includes referrals to other health professionals for smoking cessation programs.

Growth/development - any topics related to human growth and development.

Mental health - general advice or counseling about mental health issues; education about mental disorders. Includes referrals to other mental health professionals for mental health counseling.

Stress management - information intended to help patient reduce stress through exercise, biofeedback, yoga, etc. Includes referrals to other health professionals for the purpose of health stress coping mechanisms.

Skin cancer prevention - information intended to help the patient understand strategies for reducing exposure to the sun and its effects. Includes information on sunbathing and the use of sunscreens.

Injury prevention - any topic aimed at minimizing the chances of injury in one's daily life. May include issues as diverse as drinking and driving, child safety; avoidance of injury through proper techniques for various physical activities, etc.

Other Therapy Mark all appropriate boxes for therapeutic services (excluding medication) ordered or provided. Examples include:

Psychotherapy - All *treatments* involving the intentional use of verbal techniques to explore or alter the patient's emotional life in order to effect symptom reduction or behavior change.

Psycho-pharmacotherapy - All *treatments* involving the intentional use of medicinal techniques to explore or alter the patient's emotional life in order to effect symptom reduction or behavior change.

Physiotherapy - Any form of physical therapy including treatments using heat, light, sound, or physical pressure or movement. For example: ultrasonic, ultraviolet, infrared, whirlpool, diathermy, cold and manipulative therapy.

Complementary or alternative medicine - Includes medical interventions neither widely taught in medical schools nor generally available in physician offices or hospitals (e.g. acupuncture, chiropractic, homeopathy, massage, or herbal therapies).

All specific forms of medication are excluded because that information is collected in Item 21.

If services were ordered or provided, but not listed, mark the "All other" box and specify in the space(s) provided.

Mark the "None" box, if no services were ordered or provided.

Item 20 (OPD) - AMBULATORY SURGICAL PROCEDURES

Record the specific name of up to two ambulatory surgical procedures *actually performed* at the visit. Routine surgical procedures (e.g. wound care) as well as more complex procedures (e.g., cataract extraction, vasectomy, hernia repair, growth removal, etc.) should be reported. Any procedure designated in the ICD-9-CM Volume 3 as a surgical procedure may be recorded. Diagnostic surgical procedures such as biopsy should also be recorded.

Mark the "None" box, if no surgical procedures were performed.

Item 19 (ED), Item 21 (OPD) - MEDICATIONS/INJECTIONS

List up to 6 medications that were ordered, supplied, administered, or continued during this visit, using either brand or generic names.

Medication, broadly defined, includes the specific name of any:

- È prescription and non-prescription medication;
 - È injections;
 - È topical preparations;
 - È suppositories
 - È allergy shots;
 - È immunizations;
 - È hormones;
 - È vitamins;
 - È anesthetics;
- , drugs and medications that the physician ordered or provided *prior to this visit and instructs or expects* the patient to continue taking regardless of whether a "refill" is provided at the time of visit.

Record the exact drug name (brand or generic) written on any prescription or in the patient's medical record.

Do not enter broad drug classes, such as "laxative," "cough preparation," "analgesic," "birth control pills," or "antibiotics." The one exception is "allergy shot."

Limit entries to **drug name only**. Additional information such as dosage strength or regimen is **not** required. For example, the medication might be in the forms of pills, injections, salves or ointments, drops, suppositories, powders, or skin patch, but this information should not be entered on the Patient Record Form.

Mark the "None" box, if no medications were prescribed or provided during this visit.

Item 20 (ED), Item 22 (OPD) - PROVIDERS SEEN THIS VISIT

Mark all providers seen during this visit. Mark the "Other" box if care was provided, at least in part, by a person not represented in the nine categories.

Item 21 (ED), Item 23 (OPD) - VISIT DISPOSITION

Mark all categories that apply to where the patient went after he/she left the emergency department. (Outpatient categories follow these.)

- | | |
|--|--|
| 1 No follow-up planned | No return visit or telephone contact was scheduled or planned for the patient's problem. |
| 2 Return to ED,
P.R.N/appointment | The patient was instructed to return to the ED as needed; or the patient was told to schedule an appointment or was given an appointment to return to the ED at a particular time. |
| 3 Returned to referring
physician | The patient was referred to the ED by his/her personal physician or some other physician and is now instructed to consult again with the physician who made the referral. |
| 4 Referred out from
triage without
treatment | The patient was screened but his/her condition did not warrant ED evaluation or treatment. The patient was referred to another health care provider for diagnostic evaluation and treatment. |
| 5 Referred to other
physician/clinic for
follow-up | The patient was screened, evaluated, stabilized and then referred to another clinic for followup physician or clinic for followup. |
| 6 Left before being seen | The patient left the hospital after being triaged, but before receiving any medical care. |
| 7 Admitted to hospital | The patient or person accompanying the patient was instructed that further care or treatment will be provided as an inpatient in the hospital. |
| 8 Admitted to ICU/CCU | The patient was admitted to the Intensive Care Unit, Critical Care Unit or Coronary Care Unit of the hospital. |
| 9 Transferred to other
facility | The patient was transferred to a facility other than a facility operated under the auspices of this hospital (e.g., jail, drug or alcohol detoxification, another hospital). |
| 10 DOA/died in ED | If the patient was dead on arrival (DOA) or died in the ED, this patient is still included in the sample if listed on the arrival log. |

- | | |
|--------------------------------|---|
| 11 Referred to social services | The patient was referred to social services. Include both social services provided by the hospital as well as services provided in the community. |
| 12 Other | Any other disposition of the case not included in the categories above. For example, a patient who was instructed to telephone the ED to report on his/ her progress. Mark "Other" is none of the eleven boxes apply and specify the type of disposition. |

OPD Categories:

- | | |
|------------------------------------|--|
| 1 No follow-up planned | No return visit or telephone contact was scheduled or planned for the patient's problem. |
| 2 Return to Clinic, PRN | The patient is instructed to return to the clinic as needed. |
| 3 Returned to Clinic - Appointment | The patient is told to schedule an appointment or is given an appointment to return to the clinic at a particular time. |
| 4 Telephone Follow-Up Planned | The patient is instructed to telephone the physician or other clinic staff on a particular day to report on his or her progress, or to call at any time if he or she has a problem or wishes further consultation, or a member of the hospital staff plans to call the patient to check on his or her condition. |
| 5 Return to Referring Physician | The patient was referred to this clinic by his or her personal physician or some other physician and is now instructed to consult again with the physician who made the referral. |
| 6 Refer to other Physician/Clinic | The patient is instructed to consult or seek care from another physician or clinic. The patient may or may not return to this physician or clinic at a later time. |
| 7 Admit to hospital | The patient is instructed that further care or treatment will be provided as an inpatient in the hospital. |
| 8 Other, Specify | Any other disposition of the case not included in the categories above. Any such "other" disposition should be described on the line provided, for example, a patient who left before receiving treatment or who left against medical advice. |

Item 24 (OPD) - TIME SPENT WITH PHYSICIAN

Include here the length of time the physician spent with the patient. DO NOT include time the patient spent waiting to see the physician or receiving care from someone other than the physician. For example, DO NOT include the time the nurse spent giving the patient an inoculation or the time a technician spent administering an electrocardiogram. It is entirely possible that for visits such as these, the patient would not see the doctor at all. In that case, "0" minutes should be recorded. DO

NOT include time spent on the patient, but not with the patient, such as time spent reviewing the patient's medical records or test results before seeing the patient. The intent of this item is to get the total time spent in face-to-face contact with the *physician*.

If more than one patient is seen by the doctor at the same time, apply the following rule:

If the doctor can easily separate the time spent with each (e.g., 3 minutes with one and 27 minutes with the other), he/she should record that on the Patient Record Forms. If the doctor cannot easily estimate how much time was spent with each, he/she should divide the total time equally among the patients seen together.

C. DEFINITIONS OF CERTAIN TERMS USED IN THE SURVEY

Patient - An individual seeking personal health services not currently admitted to any health care institution on the premises. A person under a physician's care for health reasons. Patients are defined as in scope or out of scope as follows:

In scope - A patient seen by hospital staff in an in scope emergency service area or clinic except as excluded below.

Out of scope - Patients seen by a physician in their private office, nursing home, or other extended care institution or in the patient's home. Patients who contact and receive advice from hospital staff via telephone. Patients who come to the hospital only to leave a specimen, to pick up insurance forms, to pick up medication, or to pay a bill.

Visit - A visit is a direct, personal exchange between an ambulatory patient and a physician or other health care provider working under the physician's supervision, for the purpose of seeking care and receiving personal health services.

Drug mention - The entry of a pharmaceutical agent ordered or provided--by any route of administration--for prevention, diagnosis, or treatment. Generic as well as brand name drugs are included, as are nonprescription as well as prescription drugs. Along with all new drugs, the hospital staff also records continued medication if the patient was specifically instructed during the visit to continue the medication.

Hospital - All hospitals with an average length of stay for all patients of less than 30 days (short-stay) or hospital whose specialty is general (medical or surgical) or children's general are eligible for the National Hospital Ambulatory Medical Care Survey except Federal hospitals and hospital units of institutions, and hospitals with less than six beds staffed for patient use.

Ownership - Hospitals are designated according to the primary owner of the hospital based on the SMG Hospital Market Data Base.

Voluntary nonprofit - Hospitals operated by a church or another nonprofit organization.

Government, non-Federal - Hospitals operated by state or local governments.

Proprietary - Hospitals operated by individuals, partnerships, or corporations for profit.

Urbanicity - Hospitals are classified by their location in a metropolitan or non-metropolitan statistical area.

MSA - Metropolitan Statistical Area as defined by the U.S. Office of Management and Budget. The definition of an individual MSA involves two considerations: first, a city or cities of specified population that constitute the central city and identify the county in which it is located as the central county; second, economic and social relationships with "contiguous" counties that are metropolitan in character so that the periphery of the specific metropolitan area may be determined. MSAs may cross state lines. In New England, MSAs consist of cities and towns rather than counties.

Non-MSA - Non-Metropolitan Statistical Area (area other than metropolitan).

Emergency department - Hospital facility for the provision of unscheduled outpatient services to patients whose conditions require immediate care and which is staffed 24 hours a day. Emergency departments that are open less than 24 hours a day are included as part of the hospital's outpatient department.

Emergency service area - Area within the emergency department where emergency services are provided. This includes services provided under the "hospital as landlord" arrangement in which the hospital rents space to a physician group.

Outpatient department - Hospital facility where non-urgent ambulatory medical care is provided under the supervision of a physician.

Clinic - Administrative unit within an organized outpatient department that provides ambulatory medical care under the supervision of a physician. This excludes the "hospital as landlord" arrangement in which the hospital only rents space to a physician group and is not otherwise involved in the delivery of services. Clinics are grouped into the following six specialty groups for purposes of systematic sampling and non-response adjustment: general medicine, surgery, pediatrics, obstetrics/gynecology, substance abuse, and other. Clinics are defined as in scope or out of scope as follows:

In scope - General Medicine

24 Hour Observation
 Adult - Screening
 Adult HIV
 AIDS
 Allergy (Adult)
 Ambulatory Care
 Anti-coagulation
 Apnea (Adult)

In scope - General Medicine (cont.)

Arthritis/Rheumatology (Adult)
 Asthma
 Brain Tumor
 Breast Medical Oncology
 Cancer Center
 Cancer Screening
 Cardiology (Adult)
 Cerebral Palsy (Adult)

In scope - General Medicine (cont.)

Chest
 Chest TB
 Chorea/Huntington's Disease
 Coagulant
 Connective Tissue
 Counseling - Diabetic
 Cystic Fibrosis (Adult)
 Cytomegalovirus (CMV)
 Dermatology
 Diabetes
 Diabetic Counseling
 Digestive Disease
 Down's Syndrome (Adult)
 Endocrinology (Adult)
 Epilepsy
 Family Practice
 Gastroenterology (Adult)
 General Medicine
 General Medicine (Outreach Program)
 General Practice
 Genetics (Adult)
 Geriatric Medicine
 Head & Neck (Non-Surgical)
 Head (Non-Surgical)
 Hematology (Adult)
 Hemophilia (Adult)
 HIV (Adult)
 Homeless
 Huntington's Disease/Chorea
 Hyperlipidemia (Adult)
 Hypertension
 Immunology
 Infectious Diseases (Adult)
 Internal Medicine (Adult)
 Lead Poisoning (Adult)
 Leukemia
 Lipid
 Liver
 Lupus (Systemic Lupus Erythematosus/SLE)
 Medical Oncology
 Medical Screening
 Melanoma
 Metabolic
 Movement and Memory Disorders

In scope - General Medicine (cont.)

Multiple Sclerosis (MS)
 Muscular Dystrophy (MD)
 Nephrology (Adult)
 Neurocutaneous
 Non-surgical Head
 Non-surgical Head and Neck
 Occupational Medicine
 Oncology
 Outreach Program (General Medicine)
 Pacemaker
 Pentamidine
 Peripheral Vascular Disease
 Pheresis
 Pigmented Lesion
 Plasmapheresis
 Primary Care
 Pulmonary (Adult)
 Renal
 Rheumatology/Arthritis (Adult)
 Screening (Adult)
 Screening - Cancer
 Screening and/or Walk-In
 Seizure
 Senior Care
 Sexually Transmitted Diseases (STD)
 Sickle Cell (Adult)
 SLE/Systemic Lupus Erythematosus (Lupus)
 Spina Bifida (Adult)
 STD/Sexually Transmitted Diseases
 Systemic Lupus Erythematosus/SLE (Lupus)
 Thyroid
 Transplant Medicine
 Tuberculosis
 Tumor
 Urgent Care
 Walk-in and/or Screening
 Weight Management
 Wellness

In scope - Surgery

Abdominal Surgery
 Amputee (Surgery and Rehabilitation)

In scope - Surgery (cont.)

Ano-Rectal
 Arthroscopy
 Back Care
 Bone Marrow Aspiration
 Breast
 Breast Care
 Bronchoscopy
 Burn
 Cardiothoracic Surgery
 Cardiovascular Surgery
 Cast/Brace
 Chief Resident (Follow-up Surgery)
 Chronic Wound
 Cleft Palate
 Club Foot
 Cochlear
 Colon & Rectal Surgery
 Cryosurgery
 Cystoscopy
 Elective Surgery
 ENT (Ear, Nose, and Throat) (Adult)
 ENT (Ear, Nose, and THroat) (Pediatric)
 Eye
 Fine Needle Aspiration
 Fracture
 General Surgery
 Genitourinary
 Genitourinary Surgery
 Hand Surgery
 Head and Neck Surgery
 Heart Transplant
 Knee
 Myelomeningocele
 Neurosurgery
 Oncologic Surgery
 Ophthalmology (Adult)
 Ophthalmology (Pediatric)
 Orthopedic Surgery
 Orthopedics (Adult)
 Orthopedics (Pediatric)
 Ostomy
 Otolaryngologic Surgery
 Otolaryngology (Adult)
 Otolaryngologic (Pediatric)
 Otology

In scope - Surgery (cont.)

Otorhinolaryngology
 Plastic Surgery (Adult)
 Plastic Surgery (Pediatric)
 Post-Operative
 Pre-Operative
 Proctology
 Pulmonary/Thoracic Surgery
 Rectal & Colon Surgery
 Renal Surgery
 Renal Transplant
 Scoliosis (Adult)
 Scoliosis (Pediatric)
 Sigmoidoscopy
 Spinal Cord Injury
 Spine (Adult)
 Spine (Pediatric)
 Sports Medicine
 Surgery (Adult)
 Surgery (Pediatric)
 Surgical Oncology
 Suture
 Thoracic Surgery/Pulmonary
 Transplant Surgery
 Traumatic Surgery
 Urodynamics
 Urologic Surgery
 Urology (Adult)
 Urology (Pediatric)
 Vascular Surgery
 Visual Fields
 Wound Care

In scope - Pediatrics

Abuse (Child)/Sexual Assault
 Adolescent/Young Adult
 Adolescent Medicine
 Airway (Pediatric)
 Allergy (Pediatric)
 Apnea (Infant)
 Arthritis/Rheumatology (Pediatric)
 Attention Deficit Disorder
 Behavior and Development (Child)
 Birth Defect
 Cardiology (Pediatric)

In scope - Pediatrics (cont.)

Cerebral Palsy (Child)
 Clotting (Pediatric)
 Congenital Heart
 Craniofacial
 Craniomalformation
 Critical Care (Pediatric)
 Cystic Fibrosis (Child)
 Dermatology (Pediatric)
 Developmental Disability
 Developmental Evaluation
 Diagnostic (Pediatric)
 Down's Syndrome (Child)
 Endocrinology (Pediatric)
 Gastroenterology (Pediatric)
 Genetics (Pediatric)
 Growth Hormone
 Hematology (Pediatric)
 Hemoglobinopathy (Pediatric)
 Hemophilia (Child)
 High Risk Pediatrics
 HIV Pediatrics
 Hyperlipidemia (Pediatric)
 Infectious Disease (Pediatric)
 Internal Medicine (Pediatric)
 Lead Poisoning (Pediatric)
 Learning Disorder
 Neonatology
 Nephrology (Pediatric)
 Newborn
 Oncology (Pediatric)
 Pediatrics
 Perinatal
 Phenylketonuria
 Pulmonary (Pediatric)
 Rheumatic Heart
 Rheumatology/Arthritis (Pediatric)
 Sexual Assault/Abuse (Child)
 Sickle Cell (Child)
 Spina Bifida (Child)
 Teen Health
 Teen-Tot
 Teenage
 Well Child Care

In scope - Obstetrics/Gynecology

Adolescent Gynecology
 Antepartum
 Birth Control
 Colposcopy
 Counseling - Pregnancy
 Dysplasia (Gynecologic)
 Endocrinology (Gynecologic)
 Endocrinology (Reproductive)
 Family Planning
 Gynecology
 Gynecology (Adolescent)
 Gynecology (Dysplasia)
 Gynecology (Endocrinologic)
 Gynecology (Oncologic)
 Gynecology (Pediatric)
 Gynecology (Preteen)
 High Risk Obstetrics
 HIV Obstetrics
 In Vitro Fertilization
 Infertility
 Maternal Health
 Maternity
 Obstetrics
 Oncology (Gynecology)
 Perinatal (Obstetrics)
 Postpartum (Obstetrics)
 Pregnancy (Counseling)
 Pregnancy Verification
 Prenatal
 Prenatal (Obstetrics)
 Preteen Gynecology
 Reproductive
 Reproductive Endocrinology
 Well Woman
 Women's Care

In scope - Substance Abuse

Alcohol Abuse
 Alcohol Detoxification
 Alcohol Walk-in
 Chemical Dependency (excluding Methadone Maintenance)
 Drug Abuse (excluding Methadone Maintenance)

In scope - Substance Abuse (cont.)

Drug Detoxification
 Substance Abuse
 Walk-in - Alcohol
 Women's Alcohol Program

In scope - Other

Acupuncture
 Anxiety
 Biofeedback
 Eating Disorder
 General Preventive Medicine
 Geriatric Psychiatry
 Mental Health
 Mental Hygiene
 Myasthenia Gravis
 Neurology (Adult)
 Neurology (Pediatric)
 Neurophysiology
 Pain Medicine
 Pain Management
 Palliative Medicine
 Preventive Medicine
 Psychiatry (Adolescent)
 Psychiatry (Adult)
 Psychiatry (Child)
 Psychiatry (Geriatric)
 Psychiatry (Pediatric)
 Psychopharmacology
 Sleep Disorder
 Sleep Medicine
 Social Evaluation
 Toxicology

Out of scope

Abortion/Pregnancy Termination
 Ambulatory Surgery Centers
 Amniocentesis
 Anesthesia
 Anesthesiology
 Audiology
 Blood Bank
 Bone Density Screening
 Cardiac Catheterization

Out of scope (cont.)

CAT Scan & Imaging
 Chemotherapy
 Cystoscopy
 Dental
 Dental Surgery
 Diagnostic X-ray (Imaging)/Radiology
 Dietary
 Drug Immunotherapy
 Electrocardiogram (ECG)
 Electroconvulsive Therapy (ECT)
 Employee Health Service
 Endoscopy
 Fetal Diagnostic Testing
 Hearing & Speech
 Hemodialysis
 Home Intravenous Therapy
 Imaging & CAT Scan
 Infusion Therapy
 Kidney (Renal) Dialysis
 Laser Surgery
 Lithotripsy
 Mammography
 Methadone Maintenance
 Nuclear Medicine
 Nurse Clinic/Nurse Only
 Nutrition
 Occupational Safety and Health
 Occupational Therapy
 Optometry
 Oral Surgery
 Partial Hospitalization
 Partial Hospitalization Program (Psyc)
 Pathology
 Pharmacy
 Physiatry
 Physical Medicine
 Physical Therapy
 Podiatry
 Preadmission Testing
 Pregnancy Termination/Abortion
 Psychology
 Radiation Diagnosis
 Radiation Oncology
 Radiation Therapy
 Radiology/Diagnostic X-ray (Imaging)

Out of scope (cont.)

Reading and Language
 Rehabilitation
 Renal (Kidney) Dialysis
 School Programs
 Social Work
 Speech & Hearing
 Ultrasound

Region - Hospitals are classified by location in one of the four geographic regions of the United States that correspond to those used by the U.S. Bureau of the Census.

<u>Region</u>	<u>States included</u>
Northeast.....	Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont
Midwest.....	Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin
South.....	Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia
West.....	Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming

APPENDIX II
REASON FOR VISIT CLASSIFICATION

A. SUMMARY OF CODES

MODULE	CODE NUMBER
SYMPTOM MODULE	
General Symptoms	1001-1099
Symptoms Referable to Psychological and Mental Disorders	1100-1199
Symptoms Referable to the Nervous System (Excluding Sense Organs)	1200-1259
Symptoms Referable to the Cardiovascular and Lymphatic Systems	1260-1299
Symptoms Referable to the Eyes and Ears	1300-1399
Symptoms Referable to the Respiratory System	1400-1499
Symptoms Referable to the Digestive System	1500-1639
Symptoms Referable to the Genitourinary System	1640-1829
Symptoms Referable to the Skin, Nails, and Hair	1830-1899
Symptoms Referable to the Musculoskeletal System	1900-1999
DISEASE MODULE	
Infective and Parasitic Diseases	2001-2099
Neoplasms	2100-2199
Endocrine, Nutritional, and Metabolic Diseases	2200-2249
Diseases of the Blood and Blood-forming Organs	2250-2299
Mental Disorders	2300-2349
Diseases of the Nervous System	2350-2399
Diseases of the Eye	2400-2449
Diseases of the Ear	2450-2499
Diseases of the Circulatory System	2500-2599
Diseases of the Respiratory System	2600-2649
Diseases of the Digestive System	2650-2699
Diseases of the Genitourinary System	2700-2799
Diseases of the Skin and Subcutaneous Tissue	2800-2899
Diseases of the Musculoskeletal System and Connective Tissue	2900-2949
Congenital Anomalies	2950-2979
Perinatal Morbidity and Mortality Conditions	2980-2999

MODULE	CODE NUMBER
DIAGNOSTIC, SCREENING AND PREVENTIVE MODULE	
General Examinations	3100-3199
Special Examinations	3200-3299
Diagnostic Tests	3300-3399
Other Screening and Preventive Procedures	3400-3499
Family Planning	3500-3599
TREATMENT MODULE	
Medications	4100-4199
Preoperative and Postoperative Care	4200-4299
Specific Types of Therapy	4400-4499
Specific Therapeutic Procedures	4500-4599
Medical Counseling	4600-4699
Social Problem Counseling	4700-4799
Progress Visit, NEC	4800-4899
INJURIES AND ADVERSE EFFECTS MODULE	
Injury by Type and/or Location	5001-5799
Injury, NOS	5800-5899
Poisoning and Adverse Effects	5900-5999
TEST RESULTS MODULE	6100-6700
ADMINISTRATIVE MODULE	7100-7140
UNCODABLE ENTRIES	8990-8999
BLANK	9000

NOTE: NOS = Not otherwise specified; NEC = not elsewhere classified

B. REASON FOR VISIT CLASSIFICATION TABULAR LISTING

SYMPTOM MODULE	1045.0	Weight loss
GENERAL SYMPTOMS (1001-1099)	1045.1	Recent weight loss
	1045.2	Underweight
1005.0 Chills	1046.0	Symptoms of face, NEC
1010.0 Fever		Excludes:
Includes:		Facial pain 1055.4
High temperature		Facial paralysis 1230.0
1012.0 Other symptoms of body temperature	1050.0	Chest pain and related symptoms (not referable to a specific body system)
Excludes: Chills (1005.0)		
Fever (1010.0)		
1012.1 Feeling cold	1050.1	Chest pain
1012.2 Feeling hot		Excludes:
1012.3 Feeling hot and cold		Heart pain (1265.0)
1015.0 Tiredness, exhaustion	1050.2	Chest discomfort, pressure, tightness, heaviness
Includes:		Includes:
Fatigue		C - pressure
No energy	1050.3	Burning sensation in the chest
Run down	1055.0	Pain, specified site not referable to a specific body system
Worn out		Includes:
1020.0 General weakness		Buttock pain
1025.0 General ill feeling		Gluteal pain
Includes:		Perineal pain
Not feeling well		Excludes:
Multiple complaints		Chest pain (1050.1)
Diffuse Cx		Abdominal pain (see 1545.1-1545.3)
Malaise	1055.1	Rib pain
Illness, NOS	1055.2	Side pain, flank pain
Sick, NOS	1055.3	Groin pain
1030.0 Fainting (syncope)		Includes:
Includes:		Pubic pain
Blacking out	1055.4	Facial pain
Passing out		Includes:
Fainting spells		Jaw pain
Excludes:		Pain over eye
Unconsciousness (5840.0)	1060.0	Pain and related symptoms, generalized, site unspecified
1035.0 Symptoms of fluid abnormalities	1060.1	Pain, unspecified
1035.1 Edema		Includes:
Includes:		Ache all over
Bloated	1060.2	Cramps, spasms, site unspecified
Holding water		Excludes:
Swollen with water		Menstrual cramps (1745.2)
Dropsy	1060.3	Stiffness, site unspecified
Ankles swelling (both)	1065.0	Tumor or mass, site unspecified
Excludes:	1070.0	Bleeding, multiple or unspecified sites
Swelling of one ankle (1930.5)		
1035.2 Excessive sweating, perspiration		
1035.3 Excessive thirst		
1040.0 Weight gain		
Includes:		
Obesity		
Overweight		
Too fat		
Excludes:		
Counseling for weight problem (4600.0)		

1075.0	Symptoms of growth and developmental disorders	1110.0	Depression
1075.1	Lack of growth		Includes:
	Includes:		Crying excessively
	Failure to thrive		Dejected
	Slowness, physical		Feeling low
	Too short		Grief
	Immaturity, physical		Hopelessness
	Poor weight gain		Sadness
1075.2	Excessive growth		Unhappy
	Includes:		Feeling down
	Too tall	1115.0	Anger
	Too big for age		Includes:
	Development, early (physical)		Bitterness
1080.0	General symptoms of infants, NEC		Hostile feelings
1080.1	Crying too much, fussy, fidgety, irritable		Fussy
1080.2	Regurgitation, spitting up		Excludes:
	Excludes:		Temper problems (1130.4)
	Vomiting (1530.0)		Fussy infants (1080.1)
1080.3	Feeding problem	1120.0	Problems with identity and self-esteem
1085.0	General or unspecified nonviral infection		Includes:
	Includes:		No confidence
	Infection, NOS		Loss of identity
1090.0	Allergy, NOS		Identity crisis
	Includes:		No goals
	Allergic reaction, NOS		Don't like myself
	Food allergy, NOS		Guilt
	Milk allergy, NOS		Poor boundaries
	Excludes:		Co-dependency
	Allergic skin reaction (2825.0)		Dependency
	Allergy to medications (5905.0)		Too much is expected of me
	Nasal allergy (2635.0)		Insecurity, emotional
1095.0	Disorders of motor functions	1125.0	Restlessness
	Includes:		Includes:
	Ataxia		Hyperactivity
	Difficulty in walking		Overactivity
	Clumsiness	1130.0	Behavioral disturbances
	Limping		Includes:
	Staggering		Staring spells
	Stumbling		Gambling problem
	Uncoordinated	1130.1	Antisocial behavior
	Dyskinesia		Includes:
			Avoiding people
			Excessive shyness
			Social isolation
			Withdrawal
			Lying
		1130.2	Hostile behavior
			Includes:
			Aggressiveness
			Criminality
			Cruelty
			Destructiveness
			Negativism
			Quarrelsome
			Child abuser
			Child neglecter
			Elder abuser
			Spouse abuser
			Wife batterer
		1130.3	Hysterical behavior
		1130.4	Temper problems
			Includes:
			Blowing up
			Irritability
			Losing temper
			Temper tantrums
		1130.5	Obsessions and compulsions
SYMPTOMS REFERABLE TO PSYCHOLOGICAL AND MENTAL DISORDERS (1100-1199)			
1100.0	Anxiety and nervousness		
	Includes:		
	Apprehension		
	Bad nerves		
	Jittery		
	Panicky feeling		
	Stress		
	Tension		
	Upset		
	Worried		
1105.0	Fears and phobias		
	Includes:		
	General fearfulness		

1135.0	Disturbances of sleep Includes: Night terrors	1165.0	Other symptoms or problems relating to psychological and mental disorders, NEC (comt.)
1135.1	Insomnia Includes: Sleeplessness Can't sleep Trouble falling asleep		Difficulty concentrating Trouble concentrating Hate everybody Mood fluctuation Mood swings Blunted affect Constricted affect Peculiar thinking Inhibited Non-communicative Communications issues Deja vu feelings Psychological problems, NOS Wandering around
1135.2	Sleepiness (hypersomnia) Includes: Drowsiness Can't stay awake		
1135.3	Nightmares		
1135.4	Sleepwalking		
1135.5	Sleep apnea		
1140.0	Smoking problems Includes: Smoking too much Can't quit smoking Excludes: Smoker's cough (1440.0) Physical symptoms of smoking (see particular symptom)		Excludes: Character disorder (2315.0) Personality disorder (2315.0)
1145.0	Alcohol-related problems Includes: Drinking problem Excludes: Adverse effects of alcohol (5915.0) Alcoholism (2320.0)		
1150.0	Abnormal drug usage Includes: Drug abuse Frequent or excessive use of stimulants, hallucinogens, depressants, etc. Excludes: Drug addiction (2321.0) Drug dependence (2321.0) Intoxication with drugs (5910.0) Overdose, intentional (5820.1) Overdose, unintentional, NOS (5910.0)		1165.1 Nailbiting 1165.2 Thumbsucking
1155.0	Delusions or hallucinations Includes: Seeing things Hearing voices Medicine is poisoned Grandiosity Ideas of reference		
1160.0	Psychosexual disorders 1160.1 Frigidity, loss of sex drive, lack of response, lack of libido 1160.2 Homosexuality, concerns with 1160.3 Impotence 1160.4 Premature ejaculation 1160.5 Masturbation excessive, concerns about 1160.6 Orgasm, problem with		
1165.0	Other symptoms or problems relating to psychological and mental disorders, NEC Includes: Can't cope Going crazy Losing my mind Disoriented		
			SYMPTOMS REFERABLE TO THE NERVOUS SYSTEM (EXCLUDING SENSE ORGANS) (1200 - 1259)
		1200.0	Abnormal involuntary movements Includes: Shaking Jerking Tics Tremors Twitch Excludes: Eye movements (see 1325.0-1325.4) Eyelid twitch (1340.4)
		1205.0	Convulsions Includes: Fits Febrile convulsions Seizures Spells Excludes: Fainting (1030.0)
		1207.0	Symptoms of head, NEC Excludes: Headache, pain in head (1210.0)
		1210.0	Headache, pain in head Excludes: Sinus headache (1410.1) Migraine (2365.0) Symptoms of head, NEC (1207.0)
		1215.0	Memory, disturbances of Includes: Amnesia Forgetfulness Lack or loss of memory Temporary loss of memory

- 1220.0 Disturbances of sensation
 - 1220.1 Loss of feeling (anesthesia)
 - Includes:
 - Numbness
 - No response to pain
 - 1220.2 Increased sensation (hyperesthesia)
 - 1220.3 Abnormal sensation (paresthesia)
 - Includes:
 - Prickly feeling
 - Burning, tingling sensation
 - Needles and pins
 - 1220.4 Other disturbances of sense, including smell and taste
- 1225.0 Vertigo - dizziness
 - Includes:
 - Falling sensation
 - Giddiness (dizziness)
 - Lightheadedness
 - Loss of sense of equilibrium or balance
 - Room spinning
- 1230.0 Weakness (neurologic)
 - Includes:
 - Right- or left-sided weakness
 - Drooping, facial or NOS
 - Excludes:
 - General weakness (1020.0)
- 1235.0 Disorders of speech, speech disturbance
 - Includes:
 - Groping for words
 - 1235.1 Stuttering, stammering
 - 1235.2 Slurring
- 1240.0 Other symptoms referable to the nervous system
 - Includes:
 - Pinched nerve
 - Confusion
 - Cognitive decline

SYMPTOMS REFERABLE TO THE CARDIOVASCULAR AND LYMPHATIC SYSTEMS (1260-1299)

- 1260.0 Abnormal pulsations and palpitations
 - 1260.1 Increased heartbeat
 - Includes:
 - Pulse too fast
 - Rapid heartbeat
 - 1260.2 Decreased heartbeat
 - Includes:
 - Pulse too slow
 - Slow heart
 - 1260.3 Irregular heartbeat
 - Includes:
 - Fluttering
 - Skipped beat
- 1265.0 Heart pain
 - Includes:
 - Heart distress
 - Anginal pain
 - Pain over heart
 - Excludes:
 - Angina pectoris (2515.0)
 - Chest pain (1050.1)

- 1270.0 Other symptoms of the heart
 - Includes:
 - Bad heart
 - Poor heart
 - Weak heart
 - Heart condition
- 1275.0 Symptoms of lymph glands (or nodes)
 - 1275.1 Swollen or enlarged glands
 - 1275.2 Sore glands
- 1280.0 Other symptoms referable to the cardiovascular/lymphatic system, NEC
 - 1280.1 Poor circulation
 - 1280.2 Pallor, paleness
 - 1280.3 Flushed, blushing

SYMPTOMS REFERABLE TO THE EYES AND EARS (1300-1399)

- 1305.0 Vision dysfunctions
 - Excludes:
 - Refractive errors (2405.0)
 - 1305.1 Blindness and half vision
 - 1305.2 Diminished vision
 - Includes:
 - Blurred vision
 - Difficulty reading
 - Poor vision
 - Trouble seeing
 - Can't see distances
 - Weak eyes
 - Scotoma
 - 1305.3 Extraneous vision
 - Includes:
 - Cloudy vision
 - Hazy vision
 - Spots in front of eyes (floaters)
 - 1305.4 Double vision (diplopia)
- 1310.0 Discharge from eye
 - 1310.1 Bleeding
 - 1310.2 Tearing, watering (lacrimation)
 - 1310.3 Pus, matter, white discharge
- 1315.0 Eye infection and inflammation
 - 1315.1 Pinkeye
- 1320.0 Abnormal sensations of the eye
 - Includes:
 - Foreign body sensation
 - 1320.1 Pain
 - Includes:
 - Irritation
 - 1320.2 Itching
 - 1320.3 Burning
 - 1320.4 Strain
- 1325.0 Abnormal eye movements
 - 1325.1 Abnormal retraction
 - 1325.2 Cross-eyed
 - 1325.3 Pupils unequal
 - 1325.4 Deviation

- 1330.0 Abnormal appearance of eyes
 1330.1 Abnormal color
 Includes:
 Bloodshot
 Red
 Excludes:
 Yellow (1610.2)
 1330.2 Protrusion (exophthalmos)
 1330.3 Cloudy, dull, hazy appearance
- 1335.0 Other and unspecified symptoms referable to eye, NEC
 Includes:
 Defect, NOS
 1335.1 Contact lens problems
 1335.2 Allergy
 1335.3 Swelling
 Excludes:
 Foreign body (5600.0)
 Injury (5510.0)
 Abrasion (5410.0)
- 1340.0 Symptoms of eyelids
 1340.1 Infection, inflammation, swelling
 1340.2 Itching
 1340.3 Mass or growth
 1340.4 Abnormal movement
 Includes:
 Twitching
 Blinking
 Squinting
 Drooping
- 1345.0 Hearing dysfunctions
 1345.1 Diminished hearing
 Includes:
 Deafness
 Trouble hearing
 Hearing loss
 1345.2 Heightened or acute hearing
 1345.3 Extraneous hearing
 Includes:
 Ringing (tinnitus)
 Excludes:
 Hearing things (1155.0)
- 1350.0 Discharge from ear
 Includes:
 Fluid in ear
 1350.1 Bleeding
 1350.2 Pus (purulent drainage)
 1350.3 Swimmer's ear
- 1355.0 Earache, or ear infection
 1355.1 Earache, pain
 1355.2 Ear infection
- 1360.0 Plugged feeling in ear
 Includes:
 Ear wax
 Ear feels full
 Congestion in ear
 Blocked
 Cracking
 Popping
 Ears need cleaning
- 1365.0 Other and unspecified symptoms referable to the ears, NEC
 1365.1 Itching
 1365.2 Growths or mass
 1365.3 Pulling at ears, picking at ears
 1365.4 Abnormal size or shape, "ears stick out"
 Excludes:
 Foreign body in ear (5620.0)
- SYMPTOMS REFERABLE TO THE RESPIRATORY SYSTEM
 (1400-1499)
- 1400.0 Nasal congestion
 Includes:
 Drippy nose
 Runny nose
 Post-nasal drip
 Sniffles
 Stuffy nose
 Nasal obstruction
 Excess mucus
- 1405.0 Other symptoms of nose
 Excludes:
 Nasal allergy (2635.0)
 1405.1 Nosebleed (epistaxis)
 1405.2 Sore in nose
 1405.3 Inflammation and swelling
 Includes:
 Sore nose
 Infection
 Red nose
 1405.4 Problem with appearance of nose
 Includes:
 Too large
 Bump(s)
 Undesirable appearance
- 1410.0 Sinus problems
 Includes:
 Sinus drainage
 1410.1 Pain and pressure
 Includes:
 Sinus headache
 1410.2 Sinus inflammation, infection
 1410.3 Sinus congestion
- 1415.0 Shortness of breath
 Includes:
 Breathlessness
 Sensation of suffocation

1420.0	Labored or difficult breathing (dyspnea) Includes: Smothering Respiratory distress Trouble breathing	1470.0	Abnormalities of sputum or phlegm
1425.0	Wheezing Includes: Sighing respiration	1470.1	Coughing up blood Includes: Hemophysis
1430.0	Breathing problems, NEC Includes: Hurts to breathe	1470.2	Pus in sputum
1430.1	Disorders of respiratory sound, NEC Includes: Abnormal breathing sounds Snoring Rattles Stridor	1470.3	Excessive sputum
1430.2	Rapid breathing (hyperventilation)	1475.0	Congestion in chest Includes: Lung congestion Chest cold
1435.0	Sneezing	1480.0	Disorders of voice 1480.1 Hoarseness, loss of voice 1480.2 Hypernasality
1440.0	Cough Includes: Croupy cough Smoker's cough	1485.0	Other symptoms referable to the respiratory system, NEC Includes: Drainage in throat
1445.0	Head cold, upper respiratory infection (coryza) Includes: Cold, NOS Excludes: Chest cold (1475.0)	1485.1	Lung pain
1450.0	General viral infection 1450.1 Flu Includes: Grip Influenza Excludes: Croup (2600.0)	SYMPTOMS REFERABLE TO THE DIGESTIVE SYSTEM (1500-1639)	
1455.0	Symptoms referable to throat 1455.1 Soreness Includes: Throat hurts 1455.2 Pain 1455.3 Infection Includes: Throat virus Excludes: Strep throat (2010.0) 1455.4 Irritation, scratch, tickle 1455.5 Swelling 1455.6 Lump or mass Includes: Sensation of something in throat Excludes: Foreign body in throat (5615.0)	1500.0	Symptoms of teeth and gums Includes: Tooth knocked out 1500.1 Toothache 1500.2 Gum pain 1500.3 Bleeding gums
1460.0	Symptoms referable to tonsils Includes: Infection Inflammation	1505.0	Symptoms referable to lips 1505.1 Cracked, bleeding, dry 1505.2 Abnormal color 1505.3 Cold sore
		1510.0	Symptoms referable to mouth Includes: Saliva too thick Foaming at the mouth 1510.1 Pain, burning, soreness 1510.2 Bleeding 1510.3 Dryness 1510.4 Ulcer, sore
		1515.0	Symptoms referable to tongue Includes: Ulcer on tongue 1515.1 Pain 1515.2 Bleeding 1515.3 Inflammation, infection, swelling 1515.4 Abnormal color, ridges, coated
		1520.0	Difficulty in swallowing (dysphagia) Includes: Choking Inability to swallow

1525.0	Nausea Includes: Upset stomach Sick to stomach Nervous stomach Feel like throwing up	1570.0	Appetite, abnormal 1570.1 Excessive appetite Eats too much Always hungry 1570.2 Decreased appetite Not hungry Loss of appetite
1530.0	Vomiting Includes: Can't keep food down Throwing up Retching Excludes: Regurgitation, infants (1080.2) Vomiting blood (1580.2)	1575.0	Difficulty eating
1535.0	Heartburn and indigestion (dyspepsia) Includes: Excessive belching	1580.0	Gastrointestinal bleeding 1580.1 Blood in stool (melena) 1580.2 Vomiting blood (hematemesis)
1540.0	Gastrointestinal infection Includes: Stomach flu Stomach virus Intestinal virus	1585.0	Flatulence Includes: Gas Bloated, gas Excessive gas Distention due to gas Excludes: Gas pains (1545.1)
1545.0	Stomach and abdominal pain, cramps and spasms Includes: Gastric pain Excludes: Groin pain (1055.3)	1590.0	Constipation
1545.1	Abdominal pain, cramps, spasms, NOS Includes: Intestinal colic Gas pains Abdominal discomfort, NOS	1595.0	Diarrhea Includes: Loose stools The runs
1545.2	Lower abdominal pain, cramps, spasms, Includes: Right lower quadrant (RLQ) pain Left lower quadrant (LLQ) pain Inguinal pain	1600.0	Other symptoms or changes in bowel function 1600.1 Discharge in stools Includes: Mucus Pus 1600.2 Worms 1600.3 Changes in size, color, shape, or odor Includes: Bulky stools Too narrow Unusual odor or color 1600.4 Incontinence of stool Includes: Dirty pants (encopresis) Leaking stools
1545.3	Upper abdominal pain, cramps, spasms Includes: Epigastric pain Left upper quadrant (LUQ) pain Pain in umbilical region Right upper quadrant (RUQ) pain	1605.0	Symptoms referable to anus-rectum 1605.1 Pain Includes: Burning Irritation 1605.2 Bleeding 1605.3 Swelling or mass 1605.4 Itching
1565.0	Change in abdominal size 1565.1 Distention, fullness, NOS Includes: Abdominal bloating Stomach fullness 1565.2 Mass or tumor Includes: Mass in groin Mass, inguinal 1565.3 Abdominal swelling, NOS	1610.0	Symptoms of liver, gallbladder, and biliary tract 1610.1 Pain 1610.2 Jaundice Includes: Yellow eyes Yellow skin

1615.0	Other and unspecified symptoms referable to digestive system Includes: Bad breath Halitosis Stomach problem Stomach trouble Hiccoughs Gastrointestinal distress Epigastric distress	1675.0	Urinary tract infection, NOS Includes: Genitourinary infection Urine infection
		1680.0	Other symptoms referable to urinary tract Includes: Passed stones Excludes: Kidney stones or bladder stones (2705.0)
SYMPTOMS REFERABLE TO THE GENITOURINARY SYSTEM (1640-1829)		1700.0	Symptoms of penis 1700.1 Pain, aching, soreness, tenderness, painful erection 1700.2 Infection, inflammation, swelling 1700.3 Lumps, bumps, growths, warts
1640.0	Abnormalities of urine Excludes: Abnormal findings of urine tests (6200.0) 1640.1 Blood in urine (hematuria) 1640.2 Pus in urine 1640.3 Unusual color or odor	1705.0	Penile discharge
1645.0	Frequency and urgency of urination 1645.1 Excessive urination, night (nocturia)	1710.0	Symptoms of prostate Includes: Prostate trouble 1710.1 Swelling 1710.2 Infection
1650.0	Painful urination Includes: Burning, discomfort	1715.0	Symptoms of the scrotum and testes 1715.1 Pain, aching, tenderness 1715.2 Swelling, inflammation 1715.3 Growths, warts, lumps, bumps 1715.4 Itching, jock itch
1655.0	Incontinence of urine (enuresis) 1655.1 Involuntary urination, can't hold urine, dribbling 1655.2 Bedwetting	1720.0	Other symptoms of male reproductive system Excludes: Psychosexual problems (1160.0-1160.6)
1660.0	Other urinary dysfunctions Includes: Trouble going 1660.1 Retention of urine Includes: Weak stream Can't urinate 1660.2 Hesitancy Includes: Difficulty in starting stream 1660.3 Large volume Includes: Polyuria 1660.4 Small volume	1730.0	Absence of menstruation (amenorrhea) Excludes: Suspected pregnancy (3200.0) Missed a period (3200.0) Period late (3200.0)
1665.0	Symptoms of bladder Includes: Bladder trouble 1665.1 Pain 1665.2 Infection	1735.0	Irregularity of menstrual interval 1735.1 Frequent 1735.2 Infrequent 1735.3 Unpredictable
1670.0	Symptoms of the kidneys Includes: Kidney trouble 1670.1 Pain 1670.2 Infection	1740.0	Irregularity of menstrual flow 1740.1 Excessively heavy (menorrhagia) 1740.2 Scanty flow (oligomenorrhea) 1740.3 Abnormal material, including clots
		1745.0	Menstrual symptoms, other and unspecified Includes: Long periods 1745.1 Premenstrual symptoms Includes: Premenstrual tension or irritability Bloating before periods 1745.2 Painful menstruation (dysmenorrhea) Includes: Menstrual cramps Pain in legs and back during menstruation

<p>1835.0 Discoloration or abnormal pigmentation Includes: Freckles Blotches Redness Spots Circles under eyes Birthmark Excludes: Jaundice (1610.2) Bruise (see 5405.0-5430.0) Flushing (1280.3) Blushing (1280.3)</p>	<p>1870.0 Skin irritations, NEC 1870.1 Pain 1870.2 Itching</p>
<p>1840.0 Infections of skin, NOS Includes: Infected blister Excludes: Athlete's foot (2025.0) 1840.1 Infection of skin of head or neck area 1840.2 Infection of skin of arm, hand, or finger 1840.3 Infection of skin of leg, foot, or toe</p>	<p>1875.0 Swelling of skin Includes: Bumps, lumps Nodules Welts, except hives (2825.0) Tumor, skin</p>
<p>1845.0 Symptoms of skin moles Includes: Skin mole, NOS 1845.1 Change in size or color 1845.2 Bleeding mole</p>	<p>1880.0 Other symptoms referable to skin Excludes: Navel problems (1895.0) 1880.1 Oiliness 1880.2 Dryness, peeling, scaliness, roughness 1880.3 Wrinkles</p>
<p>1850.0 Warts, NOS Includes: Condyloma Condyloma acuminatum Excludes: Plantar's warts (2015.0)</p>	<p>1885.0 Symptoms referable to nails 1885.1 Infected 1885.2 Ingrown 1885.3 Brittle, breaking, splitting, cracked, ridged</p>

1920.0	Leg symptoms	2015.0	Viral diseases
1925.0	Knee symptoms		Includes:
1930.0	Ankle symptoms		Chickenpox
1935.0	Foot and toe symptoms		Shingles (Herpes zoster)
1940.0	Shoulder symptoms		Herpes simplex
1945.0	Arm symptoms		Measles
1950.0	Elbow symptoms		German measles (rubella)
1955.0	Wrist symptoms		Mumps
1960.0	Hand and finger symptoms		Infectious mononucleosis
1965.0	Symptoms of unspecified muscles		Hepatitis (infectious and NOS)
1970.0	Symptoms of unspecified joints		Smallpox
1975.0	Musculoskeletal deformities		Poliomyelitis
	Excludes:		Verruca
	Clubfoot (2960.0)		Plantar's warts
	Curvature of spine (2910.0)		Genital warts
1975.1	Bowlegged, knock-kneed	2015.1	Human immunodeficiency virus (HIV) with
1975.2	Posture problems		or without associated conditions
1975.3	Pigeon-toed, feet turn in		Includes:
			Acquired immunodeficiency
			syndrome
			AIDS
			AIDS-like syndrome
			AIDS-related complex
			ARC
			HIV positive
			Excludes:
			For results of test for HIV (6106.0)
1980.0	Other musculoskeletal symptoms	2020.0	Venereal diseases
	Includes:		Includes:
	Bone pain		Syphilis
	Stump pain		Gonorrhea
			Venereal diseases, NOS
DISEASE MODULE		2025.0	Fungus infections (mycoses)
INFECTIVE AND PARASITIC DISEASES (2001-2099)			Includes:
2005.0	Intestinal infectious diseases		Candidiasis
	Includes:		Yeast infection
	Gastroenteritis		Moniliasis
	Enteritis		Dermatophytoses
	Cholera		Athlete's foot
	Salmonella		Ringworm
	Dysentery		Thrush
			Tinea
2010.0	Streptococcal infection	2030.0	Parasitic diseases
	Includes:		Includes:
	Streptococcal tonsillitis		Pinworms
	Scarlet fever		Ascaris
			Lice
			Maggots
			Leeches
		2031.0	Sepsis, septicemia
		2035.0	Other and unspecified infectious and parasitic diseases
			Includes:
			Staphylococcal infections
			Trichomonas vaginitis
			Tuberculosis

NEOPLASMS (2100-2199)

Malignant neoplasms:

2100.0 Cancer, gastrointestinal tract

Includes:

Esophagus
Stomach
Small intestine
Colon

2105.0 Cancer, respiratory tract

Includes:

Bronchus
Lung
Larynx
Trachea
Throat

2110.0 Cancer, skin and subcutaneous tissues

Includes:

Melanoma
Basal cell carcinoma
Squamous cell carcinoma

2115.0 Cancer, breast

2120.0 Cancer, female genital tract

Includes:

Uterus
Cervix
Fallopian tube(s)
Vagina
Vulva
Ovary(ies)
Endometrium

2125.0 Cancer, urinary and male genital tract

Includes:

Bladder
Kidney
Prostate

2130.0 Other malignant neoplasms

Includes:

Metastatic carcinoma
Brain tumor
Bone cancer
Carcinoma-in-situ, NOS

2135.0 Hodgkin's disease, lymphomata, leukemias

Includes:

Multiple myeloma
Polycythemia vera
Lymphosarcoma
Cancer of blood

Benign and uncertain nature neoplasms:

2140.0 Fibroids and other uterine neoplasms

Includes:

Myoma
Leiomyomata
Cervical polyp
Nabothian cyst

2145.0 Other benign neoplasms

Includes:

Rectal polyp
Ovarian cyst
Bartholin's cyst
Lipoma
Vaginal inclusion
Nasal polyp
Dermoid cyst (ovary)
Nevus

Excludes:

Pilonidal cyst (2825.0)
Sebaceous cyst (2825.0)
Epidermoid cyst (2825.0)
Cyst, NOS (1855.0)

2150.0 Neoplasm of uncertain nature

Excludes:

Neoplasm, NOS
Brain tumor (2130.0)

ENDOCRINE, NUTRITIONAL, AND METABOLIC DISEASES
(2200-2249)

2200.0 Diseases of the thyroid gland

Includes:

Thyrotoxicosis
Thyroid nodule
Hyperthyroidism
Goiter
Myxedema
Hypothyroidism

2205.0 Diabetes mellitus

2210.0 Gout, hyperuricemia

2215.0 Other endocrine, nutritional, and metabolic diseases

Includes:

Hypoglycemia
Hyperlipidemia
Hypercholesterolemia
Disorders of intestinal absorption
Ovarian dysfunction
Poor nutrition
Low blood sugar

DISEASES OF THE BLOOD AND BLOOD-FORMING ORGANS
(2250-2299)

2250.0 Anemia

Includes:

Iron deficiency anemia
Sickle cell anemia
Pernicious anemia
Anemia, NOS

2255.0 Other diseases of blood and blood-forming organs

MENTAL DISORDERS (2300-2349)		2370.0	Other and unspecified diseases of the nervous system Includes:
2300.0	Organic psychoses Includes: Organic brain syndromes Senile dementia Alcoholic psychoses		Carpal tunnel syndrome Bell's palsy Cerebral palsy Demyelinating disease Paralysis, NEC Meningitis Muscular dystrophy Morton's neuroma Myasthenia gravis Alzheimer's disease
2305.0	Functional psychoses Includes: Schizophrenia, all types Manic-depressive psychoses Paranoid states Psychosis, NOS Autism		
2310.0	Neuroses Includes: Depressive neurosis Depressive reaction Anxiety reaction Obsessive compulsive neurosis Neurosis, NOS Excludes: Depression (1110.0) Anxiety (1100.0)		
2315.0	Personality and character disorders		
2320.0	Alcoholism Excludes: Alcohol-related problems (1145.0) Adverse effect of alcohol (5915.0)		
2321.0	Drug dependence Includes: Drug addiction Excludes: Abnormal drug usage (1150.0) Adverse effect of drug abuse (5910.0) Overdose, intentional (5820.1)		
2325.0	Mental retardation		
2330.0	Other and unspecified mental disorders Includes: Transient situational disturbances Adolescent adjustment reaction Grief reaction Sexual deviations Attention deficit disorder		
DISEASES OF THE NERVOUS SYSTEM (2350-2399)			
2350.0	Multiple sclerosis		
2355.0	Parkinson's disease (paralysis agitans)		
2360.0	Epilepsy		
2365.0	Migraine headache		
		2400.0	Inflammatory diseases of the eye Includes: Conjunctivitis Ophthalmia Sty Blepharitis Keratitis Ulcer Excludes: Infection, NOS (1315.0)
		DISEASES OF THE EYE (2400-2449)	
		2405.0	Refractive error Includes: Myopia, nearsightedness Hyperopia, farsightedness Astigmatism Excludes: Test for refractive errors (3230.0)
		2410.0	Cataract
		2415.0	Glaucoma
		2420.0	Other diseases of the eye Includes: Retinal detachment Strabismus Aphakia Amblyopia Color blindness Iritis Esotropia Pterygium Macular degeneration
		DISEASES OF THE EAR (2450-2499)	
		2450.0	Otitis media
		2455.0	Other diseases of the ear Includes: Ruptured tympanic membrane Labyrinthitis Excludes: Infection, NOS (1355.2) Deafness (1345.1)

DISEASES OF THE CIRCULATORY SYSTEM (2500-2599)		2550.0	Other disease of circulatory system Includes:
2500.0	Rheumatic fever and chronic rheumatic heart disease Includes: Chorea		Pulmonary embolism Heart disease, NOS Lymphadenopathy Lymphadenitis Venous insufficiency Aneurysm Infarct(s), NOS
2505.0	Hypertension with involvement of target organs Includes: Hypertensive heart disease Renal hypertension HCD HCVD Hypertensive cardiovascular disease		
		DISEASES OF THE RESPIRATORY SYSTEM (2600-2649)	
2510.0	Hypertension Includes: High blood pressure	2600.0	Upper respiratory infections except tonsillitis Includes: Pharyngitis Sinusitis Laryngitis Croup Rhinitis
2515.0	Ischemic heart disease Includes: Myocardial infarction Coronary artery disease Coronary Heart attack Arteriosclerotic heart disease (ASHD) Arteriosclerotic cardiovascular disease (ACVD) Angina pectoris		Excludes: Allergic rhinitis (2635.0) Cold (1445.0) Throat infection, NOS (1455.3) Nose infection, NOS (1405.3) Sinus infection, NOS (1410.2)
2520.0	Other heart disease Includes: Cardiac dysrhythmias Atrial fibrillation Paroxysmal tachycardia Congestive heart failure Heart failure Heart murmur Premature ventricular contractions (PVCs) Mitral valve prolapse	2605.0	Tonsillitis
2525.0	Cerebrovascular disease Includes: Cerebrovascular accident (CVA) Cerebral hemorrhage Stroke	2610.0	Bronchitis Includes: Chronic bronchitis Bronchitis, NOS Acute bronchitis
2530.0	Atherosclerosis Includes: Arteriosclerosis Hardening of the arteries	2620.0	Emphysema
2535.0	Phlebitis, thrombophlebitis Includes: Phlebothrombosis	2625.0	Asthma
2540.0	Varicose veins	2630.0	Pneumonia Includes: Viral pneumonia Bacterial pneumonia Bronchopneumonia Pneumonitis
2545.0	Hemorrhoids Includes: Perineal tags	2635.0	Hay fever Includes: Allergic rhinitis Nasal allergy Pollenosis Allergy to: Dust Pollen Animals Ragweed
		2640.0	Other respiratory diseases Includes: Pulmonary edema Deviated nasal septum Pneumothorax Hemothorax Pleurisy Chronic obstructive pulmonary disease

DISEASES OF THE DIGESTIVE SYSTEM (2650-2699)

- 2650.0 Diseases of the esophagus, stomach, and duodenum
Includes:
Esophagitis
Duodenal ulcer
Peptic ulcer
Gastritis
Stomach ulcer
Excludes:
Stomach flu (1540.0)
Gastroenteritis (2005.0)
- 2655.0 Appendicitis, all types
- 2660.0 Hernia of abdominal cavity
Includes:
Inguinal
Hiatus
Abdominal
Femoral
Umbilical
Ventral
- 2665.0 Diseases of the intestine and peritoneum
Includes:
Diverticulitis
Diverticulosis
Spastic colitis
Irritable bowel syndrome
Ulcerative colitis
Crohn's disease
Ileitis
Fistula - rectal, anal
Fissure - rectal, anal
Small bowel obstruction
Excludes:
Intestinal virus (1540.0)
- 2670.0 Diseases of the liver, gallbladder, and pancreas
Includes:
Biliary colic
Cirrhosis
Liver diseases
Cholelithiasis (gallstones)
Cholecystitis
Pancreatitis
- 2675.0 Other diseases of digestive system, NEC
- 2675.1 Dental abscess
2675.2 Dental cavities
2675.3 Canker sore
2675.4 Stomatitis
2675.5 Temporomandibular joint (TMJ) pain,
Temporomandibular joint (TMJ) syndrome

DISEASES OF THE GENITOURINARY SYSTEM (2700-2799)

- 2700.0 Cystitis
Excludes:
Bladder infection (1665.2)
- 2705.0 Urinary tract disease except cystitis

Includes:

- Urethritis
Pyelonephritis
Glomerulonephritis
Glomerulonephrosis
Ureteral calculus
Renal failure
Kidney stones
Bladder stones
Neurogenic bladder
Excludes:
Bladder infection (1665.2)
Kidney infection, NOS (1670.2)
Passed stones (1680.0)
Urinary tract infection (1675.0)

2710.0 Diseases of the male genital organs

- Includes:
Prostatitis
Benign prostatic hypertrophy (BPH)
Hydrocele
Phimosis
Epididymitis
Peyronie's disease
Excludes:
Prostate infection (1710.2)

2715.0 Fibrocystic and other diseases of breast

- Includes:
Mastitis
Excludes:
Infection (1810.0)
Cancer (2115.0)

2720.0 Pelvic inflammatory disease (PID)

- Includes:
Salpingitis
Oophoritis
Pelvic peritonitis
Excludes:
Pelvic infection, NOS (1775.3)

2725.0 Cervicitis, vaginitis

- Includes:
Cervical erosion
Vulvovaginitis

2730.0 Other diseases of female reproductive system

- Includes:
Endometriosis
Rectal-vaginal fistula
Prolapse of uterus
Dysfunctional uterine bleeding
Vulvitis
Polycystic ovaries
Cystocele
Rectocele

2735.0	Diagnosed complications of pregnancy and puerperium Includes: Placenta previa Ectopic pregnancy Toxemia Threatened abortion Spontaneous abortion Hyperemesis Fetal death in utero Diabetes during pregnancy Edema of pregnancy High blood pressure during pregnancy RH sensitization Multiple pregnancy Excludes: Abortion induced (3520.0)	2905.0	Nonarticular rheumatism Includes: Bursitis Synovitis Tenosynovitis Tendinitis Myositis Lumbago Ganglion cyst Excludes: Rheumatism, NOS (2900.0)
DISEASES OF THE SKIN AND SUBCUTANEOUS TISSUE (2800-2899)		2910.0	Other musculoskeletal or connective tissue disease Includes: Systemic lupus erythematosus Curvatures of spine Scoliosis Kyphoscoliosis Kyphosis Osteoporosis Degenerative disc diseases Slipped disc Osteomyelitis Bone cysts Bunions Dupuytren's contracture

2825.0	Other diseases of the skin Includes: Allergic skin reactions Pilonidal cyst Urticaria Hives Keloid Keratosis Sebaceous cyst Paronychia Lupus erythematosus discoid Epidermal inclusion cyst Poison ivy Poison oak Excludes: Cyst, NOS (1855.0) Acne (1830.0)	2980.0	Prematurity Includes: Premature infant Late effects of prematurity
DISEASES OF THE MUSCULOSKELETAL SYSTEM AND CONNECTIVE TISSUE (2900-2949)		2990.0	All other perinatal conditions
2900.0	Arthritis Includes: Osteoarthritis Rheumatoid arthritis Rheumatism, NOS		

DIAGNOSTIC, SCREENING, AND PREVENTIVE MODULE

GENERAL EXAMINATIONS (3100-3199)

- 3100.0 General medical examination
Includes:
Annual exam
Checkup, NOS
Checkup, routine
General exam
Multiphasic screening exam
Regular exam
Routine exam
Physical exam
History and physical (H&P)
- Excludes:
Administrative exam (7100.0-7140.0)
Followup visit (4800.0)
Gynecological exam (3225.0)
Prenatal exam (3205.0)
Progress visit (4800.0)
- 3105.0 Well baby examination
- 3130.0 General psychiatric or psychological examination
Includes:
Psychological testing
Excludes:
Court- or school-ordered examination (7140.0)

SPECIAL EXAMINATIONS (3200-3299)

- 3200.0 Pregnancy, unconfirmed
Includes:
Might be pregnant
Period late
Late menses
Pregnancy test
Possible pregnancy
Missed period
- 3205.0 Prenatal examination, routine
Includes:
Routine obstetrical care
Normal antepartum visit
Pregnancy, NOS
- 3215.0 Postpartum examination, routine
- 3220.0 Breast examination
Excludes:
Mammography (3340.0)
Xerography (3340.0)
Breast thermography (3340.0)

- 3225.0 Gynecological examination
Includes:
Pelvic exam
Excludes:
Repeat or abnormal Pap smear (6300.0)
Examination involving IUD (3510.0)
Examination for birth control medication (3505.0)
Examination for birth control, NOS (3500.0)
- 3230.0 Eye examination
Includes:
Routine ophthalmological exam
To test my eyes
Need new glasses
Glasses, NOS
Test for nearsightedness, farsightedness
For glasses
Check glasses
For contacts
Check contacts
Vision test
Excludes:
Fitting glasses or contacts (4515.0)

- 3235.0 Heart examination
Includes:
Heart checkup
Cardiac checkup
- 3240.0 Other special examination
Includes:
Neurological exam
Check tubes
AICD check
ICD check
Examination of functioning internal prosthetic devices, implants, shunts, etc.

DIAGNOSTIC TESTS (3300-3399)

- 3300.0 Sensitization test
Includes:
Allergy test
Excludes:
To check results of skin tests (6600.0)
- 3305.0 Skin immunity test
Includes:
Tuberculin test
PPD test
Excludes:
To check results of skin tests (6600.0)
- 3310.0 Glucose level determination
Includes:
Blood sugar test
Check sugar
Glucose tolerance test
Test for diabetes

3314.0	Human immunodeficiency virus (HIV) test Includes: AIDS test Excludes: For results of test for human immunodeficiency virus (HIV) (6106.0)	3370.0	Other and unspecified diagnostic tests Includes: Centesis Electronic fetal monitoring Lab test, NOS Spinal tap Pulmonary function test Drug screening
3315.0	Other blood test Includes: Blood count Blood culture Blood test, NOS Blood thinning test Check cholesterol Prothrombin time Sickle cell anemia test Excludes: Premarital blood test (7135.1)	3370.1	Glaucoma test Includes: Check intraocular pressure
3315.1	Blood test for venereal disease	3370.2	Throat culture
3320.0	Blood pressure test Includes: Check blood pressure Blood pressure check	OTHER SCREENING AND PREVENTIVE PROCEDURES (3400-3499)	
3325.0	Urine test Includes: Test urine for sugar Urinalysis Estriol for fetal evaluation Urine culture	3400.0	Prophylactic inoculations Includes: Vaccination Immunization Flu shot Tetanus shot
3330.0	Diagnostic endoscopies Includes: Proctoscopy Sigmoidoscopy Cystoscopy Laparoscopy	3405.0	Exposure to venereal disease Includes: May have V.D. Check for V.D.
3335.0	Biopsies	3409.0	Exposure to human immunodeficiency virus (HIV) Includes: Exposed to AIDS
3340.0	Mammography, xerography, breast thermography Excludes: Breast examination (3220.0)	3410.0	Exposure to other infectious diseases Includes: Chickenpox Infectious hepatitis Measles Mumps Tuberculosis
3345.0	Diagnostic radiology Includes: X-ray Myelogram Radioisotope scanning IVP Angiogram Venogram Hysterosalpingogram	3415.0	Exposure to bodily fluids of another person, NOS Includes: Blood exposure Exposure to another's secretions
3350.0	EKG, ECG, electrocardiogram, treadmill, stress testing		
3355.0	EEG, electroencephalogram		
3360.0	Hearing test Includes: Hearing exam		
3365.0	Pap smear		

FAMILY PLANNING (3500-3599)

3500.0 Family Planning, NOS
 Includes:
 Counseling, examinations, and general advice regarding:
 Birth control, NOS
 Unwanted pregnancy
 Contraceptive, NOS
 Sterilization
 Infertility
 Genetics
 Contraception followup, NOS
 Excludes:
 Specified types of birth control:
 Birth control medication (3505.0)
 IUD (3510.0)
 Procedures performed [See Counseling and examinations for pregnancy interruption (3515.0) through Artificial insemination (3530.0)]

3505.0 Contraceptive medication
 Includes:
 Examinations, instructions, and advice regarding:
 Birth control pills
 Renewing pill prescription
 Oral contraceptives
 Contraceptive implants
 Foams, jellies
 Norplant checkup
 Norplant insertion (also code 4520.0)

3510.0 Contraceptive device
 Includes:
 IUD insertion, removal, checkup
 Diaphragm insertion, removal, checkup

3515.0 Counseling and examinations for pregnancy interruption
 Includes:
 Evaluation for an arrangement for abortion
 Wants abortion

3520.0 Abortion to be performed (at this visit)

3525.0 Sterilization to be performed (at this visit)
 Includes:
 Male - vasectomy
 Female - tubal ligation

3530.0 Artificial insemination

TREATMENT MODULE

MEDICATIONS (4100-4199)

4100.0 Allergy medication
 Includes:
 Allergy shots
 Allergy treatments
 Excludes:
 Allergy testing (3300.0)

4110.0 Injections
 Includes:
 Hormones
 Vitamins
 Iron
 Injections, NOS
 Shots, NOS
 Excludes:
 Immunizations (3400.0)
 Vaccinations (3400.0)
 Inoculations (3400.0)
 Allergy shots (4100.0)

4115.0 Medication, other and unspecified kinds
 Includes:
 Renew prescription
 For medication
 Request prescription
 Prescribe medication
 Check medication
 Scripts
 Renew scripts
 Drug studies
 Excludes:
 Birth control medication (3505.0)
 Eyeglass prescription [see Eye examination (3230.0) and Fitting glasses and contact lenses (4515.0)]
 Antibiotic medication (4110.0)

PREOPERATIVE AND POSTOPERATIVE CARE (4200-4299)

4200.0 Preoperative visit for specified and unspecified types of surgery
 Includes:
 Discussion of cosmetic surgery

4205.0 Postoperative visit
 Includes:
 Postop care
 Postop pain
 Postop suture removal
 Check surgical wound

SPECIFIC TYPES OF THERAPY (4400-4499)

4400.0 Physical medicine and rehabilitation
 Includes:
 Physical therapy
 Heat therapy
 Hydrotherapy
 Therapeutic exercises
 Back adjustment
 Occupational therapy
 Recreational therapy
 Speech therapy
 Vocational rehabilitation

4401.0 Cardiopulmonary resuscitation (CPR)

4405.0 Respiratory therapy
 Includes:
 Inhalation therapy
 Asthma treatment

4410.0	Psychotherapy Includes: Group therapy Psychoanalysis	4529.0	Internal prosthetic devices (fit, adjust, remove) Includes: Breast implants Joint prostheses Cardiac pacemaker
4415.0	Radiation therapy	4530.0	External prosthetic devices, artificial body parts (fit, adjust, remove)
4420.0	Acupuncture	4535.0	Corrective appliances Includes: Fitting and adjusting: Back brace Leg brace Neck brace Orthopedic shoes
4425.0	Chemotherapy		
SPECIFIC THERAPEUTIC PROCEDURES (4500-4599)			
4500.0	Tube insertion Includes: Chest tube Bad tube Catheter plugged	4540.0	Cast, splint - application, removal
4505.0	Cauterization, all sites	4545.0	Dressing, bandage - application, change
4507.0	IV therapy, infusion	4550.0	Irrigation, lavage
4111.0	Noncompliance with medication therapy	4555.0	Suture - insertion, removal
4510.0	Urinary tract instrumentation and catheterization Includes: Urethral dilation Excludes: Cystoscopy [see Diagnostic endoscopies (3330.0)]	4560.0	Other specific therapeutic procedures, NEC Includes: Ultraviolet treatment Enema Eye exercises Cryotherapy Wound care, NOS TENS unit, NOS
4515.0	Fitting glasses and contact lenses Includes: Prescription renewal Broken or lost glasses or contacts Pick up glasses or contacts Clean glasses or contacts Excludes: Eye examination (3230.0)	MEDICAL COUNSELING (4600-4699)	
4518.0	Detoxification 4518.1 Alcohol 4518.2 Drug	4600.0	Diet and nutritional counseling Includes: Check weight Counseling for weight reduction
4520.0	Minor surgery Includes: Ears pierced Joint manipulation Tattoo removal Norplant insertion (also code 3505.0) Ear tube removal Tube removal 4520.1 Wart removed	4604.0	Human immunodeficiency virus (HIV) counseling Includes: AIDS counseling ARC counseling Worried, concerned about getting, transmitting AIDS AIDS information, education
4521.0	Major surgery Includes: Cholecystectomy Lens extraction Liver biopsy	4605.0	Medical Counseling, NOS Includes: Wants to talk to doctor To meet doctor Medical consultation Patient education To learn about a condition Personal problem Disease counseling Referral Second opinion
4525.0	Kidney dialysis	4605.1	Family history of cardiovascular disease
		4605.2	Family history of cancer
		4605.3	Family history of diabetes
		4605.4	Family history of other disease or condition

SOCIAL PROBLEM COUNSELING (4700-4799)

- 4700.0 Economic problem
 - Includes:
 - Too little income
 - Can't pay bills
- 4702.0 Problem with access to medical care
 - Includes:
 - Limited access to medical care
 - Blocked access to medical care
- 4705.0 Marital problems
 - Includes:
 - Problem with husband, wife
 - Alcoholic spouse
 - Marriage counseling, NOS
 - Premarital counseling
 - Divorce, desertion, separation
 - Custody battle
- 4710.0 Parent-child problems
 - Includes:
 - Working mother
 - Concern about childhood behavior
 - Discipline
 - Maturation problems
 - Adopted or foster child
- 4715.0 Other problems of family relationship
 - Includes:
 - Aged parents or in-laws
 - Problems with relatives
 - Family fights and disruptions
- 4720.0 Educational problems
 - Includes:
 - Absenteeism, truancy
 - Problems with teachers
 - Hates school
 - School behavior problems
- 4725.0 Occupational problems
 - Includes:
 - Unemployment
 - Out of work
 - Job dissatisfaction
 - Problem with boss or coworkers
 - Unable to work
- 4730.0 Social adjustment problems
 - Includes:
 - Loneliness
 - Social isolation
 - Neighborhood and community relations problems
 - Discrimination problems
 - Don't have any friends
- 4735.0 Legal problems
 - Includes:
 - Imprisonment, prosecution
 - Lawsuits, litigation

- 4735.1 Police involvement in outpatient visit circumstances
 - Includes:
 - Police called
 - Brought in by police

- 4740.0 Other social problems
 - Includes:
 - Pregnancy out-of-wedlock
 - Disasters
 - Housing and clothing problems
 - Problem with boyfriend or girlfriend
 - Problems of aging

PROGRESS VISIT, NEC (4800-4899)

- 4800.0 Progress visit, NOS (Use only when the only information given is progress or followup)
 - Includes:
 - Followup, NOS
 - Routine followup
 - Routine, NOS
 - I'm better
 - I'm worse
 - I'm the same
 - Chronic, NOS
 - Touching base
 - Ongoing treatment, NOS
 - Same problems, NOS
 - Excludes:
 - General checkup (3100.0)
 - Followup, disease (Code to disease)
 - Followup, injury (Code to injury)
 - Followup, symptom (Code to symptom)
 - Followup, test results (Code to 6100.0-6700.0)
 - Postoperative followup (4205.0)

INJURIES AND ADVERSE EFFECTS MODULE

INJURY BY TYPE AND/OR LOCATION (5001-5799)

Fractures and dislocations:

- 5005.0 Head and face
 - Includes:
 - Skull
 - Jaw
 - Nose
 - Facial bones
- 5010.0 Spinal column
 - Includes:
 - Neck
 - Vertebrae
 - Back
- 5015.0 Trunk area, except spinal column
 - Includes:
 - Rib
 - Clavicle
 - Collarbone
 - Pelvic scapula

5020.0	Leg Includes: Knee Femur Tibia Fibula Hip	5225.0	Upper extremity Includes: Hand Fingers Arm Wrist
5025.0	Ankle	5230.0	Laceration and cuts, site unspecified
5030.0	Foot and toes		<u>Puncture wounds:</u>
5035.0	Arm Includes: Radius Ulna Elbow Humerus Shoulder	5305.0	Head, neck and facial area
5040.0	Wrist	5310.0	Trunk area
5045.0	Hand and fingers	5315.0	Lower extremity
5050.0	Fracture, other and unspecified	5320.0	Upper extremity
	<u>Sprains and strains:</u>	5325.0	Puncture wound, site unspecified Includes: Needlestick, NOS
5105.0	Cervical spine, neck Includes: Whiplash		<u>Contusions, abrasions, and bruises:</u>
5110.0	Back	5405.0	Head, neck, and face Excludes: Eye (5410.0)
5115.0	Knee	5410.0	Eye Includes: Corneal abrasion Black eye
5120.0	Ankle	5415.0	Trunk area Includes: Injury to scrotum
5125.0	Wrist	5420.0	Lower extremity
5130.0	Sprain or strain, other and unspecified	5425.0	Upper extremity
	<u>Lacerations and cuts:</u>	5430.0	Contusion, abrasion, bruise, site unspecified
5205.0	Head and neck area Excludes: Face (5210.0)		<u>Injury, other and unspecified type:</u>
5210.0	Facial area Includes: Eye Ear Nose Forehead	5505.0	Head, neck, and face Includes: Traumatic brain injury TBI
5215.0	Trunk area	5510.0	Eye
5220.0	Lower extremity Includes: Ankle Foot	5515.0	Back Includes: Tail bone
		5520.0	Chest and abdomen Includes: Internal injuries
		5525.0	Hip
		5530.0	Leg

5535.0	Knee	INJURY, NOS (5800-5899)
5540.0	Ankle	5800.0 Late effects of an old injury
5545.0	Foot and toe(s)	Includes:
		Scars
		Deformities
5550.0	Shoulder	5805.0 Motor vehicle accident, type of injury unspecified
5555.0	Arm	Includes:
		Car accident
		Auto accident
		Motorcycle accident
5560.0	Elbow	
5565.0	Wrist	
5570.0	Hand and finger(s)	5810.0 Accident, NOS
		Includes:
		Fall, type or location of injury unspecified
5575.0	Injury, multiple or unspecified	
	<u>Foreign body:</u>	
5600.0	Eye	5815.0 Violence, NOS
		Includes:
		Beat up
		Stabbing
		In a fight
		Excludes:
		Violence against oneself (5818.0, 5820.0)
5605.0	Nose	
5610.0	Skin	5815.1 Child abuse or neglect
		Excludes:
		Child sexual abuse (5830.1)
5615.0	Digestive tract	
	Includes:	
	Mouth	5815.2 Battered spouse
	Throat	5815.3 Elder abuse
	Rectum	5815.4 Gunshot wound
5616.0	Respiratory tract	
5620.0	Other and unspecified sites	5818.0 Intentional self-mutilation
		Includes:
		Self-abuse
		Tried to hurt self
		Excludes:
		Suicide attempt (5820.0)
	<u>Burns, all degrees:</u>	
5705.0	Head, neck, and face	
5710.0	Trunk area	5820.0 Suicide attempt
		Includes:
		Found in car with motor running
		Hanging oneself
		Stabbed oneself
		Slashed wrists
		Code also: Laceration of wrists (5225.0)
5715.0	Extremities	
	Includes:	
	Upper	
	Lower	
5720.0	Burn, site unspecified	5820.1 Overdose, intentional
5750.0	Sunburn, windburn	5830.0 Rape
	Includes:	Includes:
	Sun poisoning	Sexual assault
		5830.1 Sexual abuse
		Includes:
		Molestation
	<u>Bites:</u>	
5755.0	Insect	5835.0 Dead on arrival (DOA)
	Includes:	Includes:
	Sting	Death
5760.0	Animal, human	Excludes:
		Respiratory arrest (5836.0)
		Cardiac arrest (5837.0)
		Cardiopulmonary arrest (5839.0)

5836.0	Respiratory arrest Excludes: Cardiac arrest (5837.0) Cardiopulmonary arrest (5839.0) Dead on arrival (5835.0) Drowning (5838.0) Near drowning (5838.0)	5910.0	Adverse effect of drug abuse Includes: Drug-induced hallucinations Combination of drugs and alcohols (nonsuicidal) Ingestion of drugs for nonmedicinal purposes Bad trip Freaked out on drugs Unintentional overdose Excludes: Intentional overdose (5820.1)
5837.0	Cardiac arrest Excludes: Cardiopulmonary arrest (5839.0) Respiratory arrest (5836.0) Dead on arrival (5835.0)	5915.0	Adverse effect of alcohol Includes: Intoxication Drunk Acute intoxication
5838.0	Drowning Includes: Near drowning	5920.0	Adverse effects of environment Includes: Air pollution Water pollution Noise pollution Frostbite Sun damage
5839.0	Cardiopulmonary arrest Excludes: Respiratory arrest (5836.0) Cardiac arrest (5837.0)	5925.0	Adverse effects, other and unspecified Includes: Seasickness
5840.0	Unconscious on arrival Includes: Coma Stupor Knocked out Shock Unresponsive Found unconscious	TEST RESULTS MODULE (Includes all abnormal test results and followups for test results)	
5841.0	State of consciousness not specified Includes: Verbally unresponsive Brought in by ambulance Found on floor	6100.0	For results of blood glucose tests Includes: High blood sugar Abnormal glucose tolerance test Sugar in blood Elevated blood sugar
5842.0	Altered level of consciousness, NOS Excludes: Adverse effect of drug abuse (5910.0) Adverse effect of alcohol (5915.0)	6105.0	For results of cholesterol and triglyceride tests Includes: High cholesterol
POISONING AND ADVERSE EFFECTS (5900-5999)		6106.0	For results of test for human immunodeficiency virus (HIV) Includes: Results of AIDS test Excludes: Human immunodeficiency virus (HIV) with or without associated conditions (2015.1)
5900.0	Accidental poisoning	6110.0	For other findings of blood tests Includes: Positive serology, VDRL Positive blood culture Elevated sed rate
5900.1	Food poisoning	6200.0	For results of urine tests Includes: Sugar in urine Positive urine culture Abnormal urinalysis
5900.2	Ingestion, inhalation, or exposure to potentially poisonous products Includes: Household products Chemicals Drugs Gas Smoke	6300.0	For cytology findings
5905.0	Adverse effect of medication Includes: Allergy to medication Penicillin allergy Anaphylactic shock Bad reaction to prescribed medication		

Includes:
 Positive Pap smear
 Repeat Pap smear
 Atypical Pap smear
 For results of Pap smear of cervix or other area

6400.0 For radiological findings
 Includes:
 X-ray results
 Abnormal X-ray
 Xeromammography results

6500.0 For results of EKG

6600.0 For results of skin tests

6700.0 For other and unspecified test results
 Includes:
 Abnormal scans
 Abnormal pulmonary function test
 Abnormal EEG
 Abnormal lab test results, NOS
 To discuss test results with physician
 Ultrasonography results
 Results of fetal evaluation tests

ADMINISTRATIVE MODULE

7100.0 Physical examination required for school or employment
 7100.1 Physical examination required for employment
 Includes:
 Preemployment examination
 Required company physical
 Return to work checkup
 Teacher's certificate physical

7100.2 Executive physical examination

7100.3 Physical examination required for school
 Includes:
 High school
 Nursery school
 College
 Grade school
 Day care center

7100.4 Physical examination for extracurricular activities
 Includes:
 Boy Scouts or Girl Scouts
 Little League
 Camp
 Athletics

7120.0 Driver's license examination

7125.0 Insurance examination

7130.0 Disability examination
 Includes:
 Evaluation of disability
 Social Security examination

7131.0 Worker's comp exam

7135.0 Premarital examination
 7135.1 Premarital blood test

7137.0 Direct admission to hospital
 Includes:
 For admission
 Here for admission
 Direct admit
 Admit to hospital
 Voluntary commitment
 Involuntary commitment

7140.0 Other reason for visit required by party other than the patient or the health care provider
 Includes:
 Physical examination for adoption
 Psychiatric examination required by court

UNCODABLE ENTRIES

8990.0 Problems, complaints, NEC
 8991.0 Patient unable to speak English
 8993.0 Patient (or patient's spokesperson) refused care
 Includes:
 Left AMA
 Walked out

8997.0 Entry of "none" or "no complaint"
 Includes:
 Asymptomatic, NOS

8998.0 Inadequate data base

8999.0 Illegible entry

SPECIAL CODE

90000 Blank entry

APPENDIX III

A. GENERIC CODES AND NAMES IN NUMERIC ORDER

50000 UNDETERMINED	50220 AMINOSALICYLIC ACID	50495 BELLADONNA
50001 DIFENOXIN	50223 AMIODARONE HCL	50498 BENAZEPRIL HYDROCHLORIDE
50002 LEVONORGESTREL	50230 AMITRIPTYLINE	50499 BENACTYZINE
50004 ACACIA	50235 AMMONIA SPIRIT AROMATIC	50500 BENDROFLUMETHIAZIDE
50005 ACETAMINOPHEN	50238 AMMONIA STRONG	50505 BENOXINATE
50008 ACEBUTOLOL HYDROCHLORIDE	50240 AMMONIATED MERCURY	50507 BENTIROMIDE
50015 ACETANILID	50243 AMMONIUM BROMIDE	50508 BENTONITE
50018 ACETATE ION	50244 AMMONIUM CARBONATE	50515 BENZALKONIUM CHLORIDE
50020 ACETAZOLAMIDE	50245 AMMONIUM CHLORIDE	50516 BENZENE
50025 ACETIC ACID	50249 AMMONIUM PHOSPHATE	50520 BENZETHONIUM CHLORIDE
50030 ACETOHEXAMIDE	50250 AMOBARBITAL	50525 BENZIN
50032 ACETOHYDROXAMIC ACID	50258 AMOXAPINE	50530 BENZOCAINE
50035 ACETONE	50260 AMOXICILLIN	50538 BENZOIC ACID
50040 ACETOPHENAZINE	50265 AMPHETAMINE	50540 BENZOIN
50055 ACETYLCHOLINE	50270 AMPHOTERICIN	50545 BENZONATATE
50060 ACETYLCYSTEINE	50275 AMPICILLIN	50548 BENZOPHENONE
50078 ACYCLOVIR	50278 AMRINONE LACTATE	50550 BENZOYL PEROXIDE
50080 ADENOSINE	50280 AMYL NITRITE	50555 BENZPHETAMINE

D. USER QUESTIONNAIRE

In order to improve the NCHS Micro-Data File Release program, we would appreciate your assistance in regard to the following questionnaire.

Name: _____

Title: _____

Organization: _____

Address: _____

Date of file purchase/download: _____

Type of organization (university, insurance, etc.): _____

1. Have you used this datafile? (If not, please indicate why.)
2. Did you have any computer problems using the data?
3. Did you have any analytic problems with the data?
4. What output was produced using the data?
5. How was this output used?
6. How was the overall quality of the documentation?
7. Did you find the explanation of the survey helpful? Was it clear, concise, etc.?
8. Was the description of the record format easy to use? Were the item descriptions understandable? Did you find any errors?
9. Do you have any other comments or complaints?

Return this questionnaire to the address on the back. Please feel free to include additional comments. Thank you very much for your assistance.
