Subject Index

- AAP (Alesina, Ardagna, Perotti) approach, 307–12; simple static model of, 312–15
- Belgium, fiscal rules and, 516–18
- Beveridge, Sir William, 409
- Bismarck, Otto von, 409
- Britain. *See* United Kingdom
- Budget deficits, 307–8
- Budget timelines, 327–29; Denmark, 321–23; Finland, 336–39; Sweden, 345–46
- Canada: fiscal adjustments and, 558–59; fiscal rules and, 518–20
- Chile, fiscal rules and, 513–14
- Debt, long-term accumulation of, 7–9
- Debt crises. *See* Public debt crises
- Debt dynamics, 153–55
- Deficit bias, 497–501
- Deficits, ways of reducing, 9–13
- Denmark, as example of exchange rate based stabilizations, 320–27; budget timeline, 321–23; GDP and its components, 325–27; inflation, wage dynamics, competitiveness, and interest rates, 323–25
- Discretionary countercyclical fiscal policy, 2–7
- Employment: effects of government spending on, 36–37, 42–47; government spending and, 134–36
- Entitlement programs: curing problems of, 421–27; European, 405–8
- Entitlement reform, causes for, 411–21
- Europe: current design of pension systems in, 408–11; entitlement programs in, 405–8
- European Union (EU), fiscal rules and, 520–22
- Eurozone debt crises, 157–61
- Exchange rate stabilization examples: Denmark, 320–27; Ireland, 327–35
- Expectational vector autoregressions (EVARs), 20
- Finland: budget timeline, 336–39; as example of floating currency, 335–44; fiscal adjustments and, 559–61; GDP and its components, 343–44; inflation, wage dynamics, competitiveness, and interest rates, 339–43
- Fiscal adjustments, 531–34; analysis of deficit reductions and elections, 537–48; case studies, 557–65; data, 534; reverse causality and, 548–57; ten largest, 534–37
- Fiscal consolidations: literature on, 320; role of VAT in, 464–76
- Fiscal devaluation: analysis of, 448–51; basic argument, 446–48; considerations for, 451–52; policy implications of, 462–64; tax effects on net exports of, 452–62

- Fiscal drift episodes, 365–66; definition, 366–67; description, 368; determinants, 371–94
- Fiscal inflation, 255–60; empirical aspects of policy interactions and, 290–94; methods policy can undermine monetary control of, 276–90; simple model of, 260–76
- Fiscal multipliers, 6, 63–64; data, 68–69; discussion of results, 91–92; methodology, 64–68; results, 69–91
- Fiscal policy, 2; politics and, 13–15; stimulus effects of, 19–20. *See also* Unsustainable fiscal policy
- Fiscal rules, 495–97; analysis of, 501–4; arrangements for, 504–9; deficit bias and, 497–501; effectiveness of, 522–23; historical experiences for, 509–22
- Fiscal tightening episodes, 365–66; definition, 367–68; description, 368–71; determinants, 371–94
- Floating currency examples: Finland, 335–44; Sweden, 344–50
- Forecast errors, growth changes and, 164–66
- Forecasting practices, reality and, 166–72
- Germany, fiscal rules and, 511–12
- Government purchases, government value added versus, 22–25
- Government spending: combining household and state data of, 107–12; econometric identification of effects of fiscal shocks of, 112–16; effects of, on employment, 42–47; effects of, on unemployment, 40–42; effects of, on unemployment and employment, 36–37; employment and, 134–36; household effects of, 103–7; labor market effects of, 22; results of study, 116–34
- Government value added, government purchases versus, 22–25
- Great Recession, questions about, 1–2
- Growth changes, forecast errors and, 164–66
- Growth projections, problems of, 164–72
- Growth slowdowns: influence of, for debt crises, 156–63; public debt crises and, 151–52
- Highly Indebted Poor Countries (HIPC)s, 151–52, 167–69; middle income debt crises of 1980s and, 156–57
- Human capital, Laffer curve and, 232–34
- IMF (International Monetary Fund) approach, 308, 315; censoring bias of, 316; comparing averages in, 318–19; omitting countercyclical response in, 317–18; reasons approach does not explain expansionary fiscal stabilization results, 315–16; standard error of impulse responses of, 316–17
- IMF (International Monetary Fund) criticism of AAP approach, simple static model of, 312–15
- Inflation. *See* Fiscal inflation
- Ireland, as example of exchange rate based stabilizations, 327–35; budget timeline, 327–29; GDP and its components, 332–35; inflation, wage dynamics, competitiveness, and interest rates, 329–32
- Labor markets, case study of, during World War II, 37–40
- Laffer curves, 211–14; consumption taxes and, 234–37; data, calibration, and parameterization, 217–23; human capital and, 232–34; model, 214–17; results, 223–32
- Monetary union, 287–90
- Multipliers. *See* Fiscal multipliers; Spending multipliers
- Netherlands, fiscal rules and, 509–11
- Notional defined contribution (NDC) systems, 11, 411
- Output multipliers, 21
- Pay-as-you-go public pension systems, adapting, 422–26
- Pension systems: current design of, in Europe, 408–11; implications of, for fiscal stability, 428–32
- PIIGS (Portugal, Italy, Ireland, Greece, Spain), 157, 160, 164–65, 169–71
- Prefunding, 426–27
- Private saving, 426–27
- Private spending: econometric framework, 26–28; effects of, 25–26; effects of taxes and implications for multipliers, 31–36; VAR results, 28–30
- Public debt, dynamics of, 153–55
- Public debt crises, growth slowdowns and, 151–52

- Public wage bills, 359–71; episodes of fiscal drift and fiscal tightening and, 365–71; public deficits and, 361–65
- Smooth transition autoregressive (STAR) models, 64
- Smooth transition vector autoregression (STVAR), 64
- Spending multipliers, 35
- Structural vector autoregressions (SVARs), 20, 63–64
- Sweden: budget timeline, 345–46; as example of floating currency, 344–50; fiscal adjustments and, 561–63; GDP and its components, 348–50; inflation, wage dynamics, competitiveness, and interest rates, 346–48
- Switzerland, fiscal rules and, 511–12
- Taxes, 12
- Tax multipliers, 5–6
- Tax smoothing principle, 1
- Unemployment, effects of government spending on, 36–37, 40–42
- United Kingdom: fiscal adjustments, 563–65; fiscal rules and, 514–16
- United States: debt crises in, 162–64; fiscal rules and, 518–20; during new millennium, 171–72
- Unsustainable fiscal policy, 177–78; model with regime change, 187–97; model with shutdown, 178–87. *See also* Fiscal policy
- Valued added tax (VAT), 12, 443–46; fiscal devaluation and, 446–64; role of, in fiscal consolidation, 464–76
- Viable integrated VAT (VIVAT), 475
- World War II, case study of labor markets during, 37–40
