

This PDF is a selection from a published volume from the National Bureau of Economic Research

Volume Title: High-Skilled Migration to the United States and Its Economic Consequences

Volume Author/Editor: Gordon H. Hanson, William R. Kerr, and Sarah Turner, editors

Volume Publisher: University of Chicago Press

Volume ISBNs: 978-0-226-52552-5 (cloth); 978-0-226-52566-2 (e-ISBN)

Volume URL: <http://www.nber.org/books/hans-4>

Conference Date: July 10-11, 2016

Publication Date: May 2018

Chapter Title: List of Contributors, Indexes

Chapter Author(s):

Chapter URL: <http://www.nber.org/chapters/c14386>

Chapter pages in book: (p. 239 – 247)

Contributors

John Bound
Department of Economics
University of Michigan
Lorch Hall, 611 Tappan Avenue
Ann Arbor, MI 48109-1220

Gordon H. Hanson
IR/PS 0519
University of California, San Diego
9500 Gilman Drive
La Jolla, CA 92093-0519

John Horton
Leonard N. Stern School of Business
Kaufman Management Center
New York University
44 West Fourth Street, 8-81
New York, NY 10012

Nir Jaimovich
Department of Economics
University of Zurich
Schönberggasse 1
8001 Zurich, Switzerland

William R. Kerr
Harvard Business School
Rock Center 212
Soldiers Field
Boston, MA 02163

Gaurav Khanna
School of Global Policy and Strategy
University of California, San Diego
9500 Gilman Drive
La Jolla, CA 92093

Chen Liu
Department of Economics
University of California, San Diego
9500 Gilman Drive no. 0508
La Jolla, CA 92093-0508

Nicolas Morales
Department of Economics
University of Michigan
Lorch Hall, 611 Tappan Avenue
Ann Arbor, MI 48104

Henry E. Siu
Vancouver School of Economics
University of British Columbia
6000 Iona Drive
Vancouver, BC V6T 1L4 Canada

Christopher Stanton

Subject Index

Note: Page numbers followed by “f” or “t” refer to figures or tables respectively.

- aggregate skill premium, 213–15
ancestry analysis, 33–37
- China, as origin of foreign students, 15
college-educated workers, comparative advantage of, 9
comparative advantage, 8; of college-educated workers, 9; defined, 19–20; Eaton-Kortum-Roy definition of, 9; of foreign-born vs. native-born workers, 20–24; persistence in, 24–33; sources of occupational, 10
competition, high-skilled immigration, 7
computer science (CS) workers, 110; effect of information technology boom on, 113; labor demand curve for, 138–43; labor supply of US and, 127–32; market for, in 1990s, 112–21
constant elasticity of substitution (CES) model, 206
consumption, nationalistic policy and, 232
contract flows: on digital labor platforms, 84–91; gravity models of, 91–95; substitution elasticities and, 95–96, 97t, 98f; on Upwork, 84, 85t
CS workers. *See* computer science (CS) workers
- diasporas, ethnic, 80–84
digital labor markets, 72–73; contract flows on, 84–91; environment of, 73–75; open questions for, 100–102; researcher perspectives for, 99–100; studies of information frictions of, 75–80
digital labor platforms, contract flows on, 84–91
- Eaton and Kortum model, 81, 102–4
educational choices, effect of Internet innovation on, 113–16
Elance, 73. *See also* Upwork
elasticities, substitution, contract flows and, 95–96, 97t, 98f
ethnic diasporas, 80–84
- firm dynamics: about, 205–9; model calibration, 215–19; model of, 209–13; quantification of model, 215–19
foreign-born workers: innovation and, 10; STEM occupations and, 8–9; US college-educated labor force and, 8
frictions, information, studies of, 75–80
- Gates, Bill, 42
gravity models: conceptual framework for, 102–4; of contract flows, 91–95
- higher education, US, 7–8
high-skilled employment: contribution of immigration to growth of, 116–18;

- high-skilled employment (*continued*)
 empirical facts on immigration and, 179–81; H-1B visas and growth of, 116–18; immigration as source of growth in, 177–78; impact of immigrants on US, 118–21
- high-skilled immigrants, employment of, in STEM occupations, 178
- high-skilled immigration, 109; Asia's rise as source of, 14–15; competition and, 7; consequences for US economic development, 9–10
- High-Skilled Integrity and Fairness Act of 2017, 207n3
- high-tech workforce: contribution of immigration to growth in, 116–18; impact of immigration on US, 118–21
- H-1B visas, 15, 15n6, 15n7, 42–43, 109–12; by country of origin, 64–66; critics of, 118–21; defined, 110; and growth of high-tech workforce, 116–18; nationalistic policy for elimination of, 207, 229–33; precursor of, 117n7; technology sector and, 117–18. *See also* L-1 visa program; temporary work visas
- immigrants: high-skilled, employment of, in STEM occupations, 178; presence of, in US occupations, 12–19. *See also* workers, foreign-born
- immigration: changes in welfare due to, 155–59; contribution of, to growth of high-tech workforce, 116–18; distributional and aggregate effects of, 208; high-skilled, 109; high-skilled, competition and, 7; high-skilled, consequences for US economic development, 9–10; high-skilled employment and, 179–81; impact of, on US high-tech workforce, 118–21; low-skilled, 2
- Immigration Act of 1990, 15
- Immigration and Nationality Act of 1952, 117n7
- Immigration Innovation Act of 2015. *See* I-Squared Act (Immigration Innovation Act of 2015)
- India, as origin of foreign students, 15
- Indian diaspora, 80–84
- information frictions, studies of, 75–80
- information technology (IT) boom, late 1990s, 112–16; endogenous various during, 142–43, 144–45f
- innovation: effect of Internet, on education choices, 113–16; foreign-born workers and, 10; visas, multinationals and, 46–56
- Internet innovation, effect of, on educational choices, 113–16
- I-Squared Act (Immigration Innovation Act of 2015), 206; economic effects of, 220–28; welfare and, 228
- IT (information technology) boom, late 1990s, 112–16
- knowledge creation, multinational enterprises and, 41
- labor demand curve, for computer science workers, 138–43
- labor markets, digital, 72–73; environment of, 73–75; open questions for, 100–102; researcher perspectives for, 99–100; studies of information frictions of, 75–80
- L-1 visa program, 15n6, 42–43, 45–46; data used in study of, 56–57. *See also* H-1B visas; temporary work visas
- low-skilled immigration, 2
- multinational enterprises, 3; effect of temporary visa programs on innovation activities of, 46–56; international flows of labor and, 41; knowledge creation and, 41; sourcing foreign inputs and, 44
- nationalistic policy: for elimination of H-1 visa program, 207, 229–30; output, consumption, and welfare, 232; wages, 230–32
- nativity differences, in STEM occupations, 181–83
- nonroutine-biased technical change (NBTC), endogenous, 178, 183–84; model of, 184–98; quantitative results of model, 191–202
- occupational specialization, 9
- oDesk, 73–74. *See also* Upwork
- offshoring, 72
- output, nationalistic policy and, 232
- O visas, 15n6
- patents, foreign-born workers and, 10 persistence, in comparative advantage, 24–33

- product markets, 121–22; calibrations for model of, 132–37; model of, 122–27
- skilled labor, changes in, and US economy, 7
- skilled-labor visas, country composition of, 64–66, 65f
- STEM (science, technology, engineering, and mathematics) occupations: foreign-born workers and, 8–9; high-skilled immigrants and employment in, 178; nativity differences in, 181–83; specialization in, 9
- substitution elasticities, contract flows and, 95–96, 97t, 98f
- temporary work visas, 15n6, 43–44; analyzing welfare consequences of, 44; conceptual framework for analyzing, 44; cross-industry, by US-based firms, 57–61; effect of, on innovation activities of firms, 46–56; propensity of firms to use, 61–64. *See also* H-1B visas; L-1 visa program
- TN visas, 15n6
- transmission mechanisms, 33
- universities, US, lure of, 7–8
- Upwork, 73–74, 85t; contract flows on, 84; distribution of contracts for job categories, 76t; hours of work on, 106f; studies of information frictions of, 75–80; top employer-worker routes on, 105t
- US labor market, occupational specialization in, 9
- US occupations: college-educated females in, 17–19; college-educated males in, 13–17; foreign-born workers in, 12–19
- visa programs. *See* H-1B visas; L-1 visa program; temporary work visas
- visas. *See* skilled-labor visas, country composition of
- wages, nationalistic policy and, 230–32
- welfare, 150–51; calculating worker, 151–55; changes in, due to immigration, 155–59; I-Squared policy and, 228; nationalistic policy and, 232
- workers, college-educated, comparative advantage of, 9
- workers, computer-science (CS): effect of information technology boom on, 113; labor demand curve for, 138–43; labor supply of US and, 127–32; market for, in 1990s, 112–21
- workers, foreign-born: innovation and, 10, 19; STEM occupations and, 8–9; US college-educated labor force and, 8
- workforce, high-tech: contribution of immigration to growth in, 116–18; impact of immigration on US, 118–21
