

This PDF is a selection from a published volume from the National Bureau of Economic Research

Volume Title: Capital in the Nineteenth Century

Volume Authors/Editors: Robert E. Gallman and Paul W. Rhode

Volume Publisher: University of Chicago Press

Volume ISBNs: 978-0-226-63311-4 (cloth); 978-0-226-63325-1 (electronic)

Volume URL:

<https://www.nber.org/books-and-chapters/capital-nineteenth-century>

Conference Date: n/a

Publication Date: February 2020

Chapter Title: Index

Chapter Author(s): Robert E. Gallman, Paul W. Rhode

Chapter URL:

<https://www.nber.org/books-and-chapters/capital-nineteenth-century/index>

Chapter pages in book: (p. 375 – 381)

Index

- Abramovitz, Moses, 11, 16, 85, 333, 352–53n2
- Adams, Donald R., 303, 305, 307; Adams series, 81, 310–12, 329, 347n2, 356n9; construction cost index, 81, 83, 314; farm wage rate series, 329; and masonry, 354n10; weighting scheme, 312
- African Americans, 3–4, 335n5
- “age of the machine,” 13, 32
- agriculture, 3, 10, 13, 22, 62, 64, 92, 173; animal inventories, constant price series, 181; animal inventories, estimating procedures, 178, 180–81; buildings, and coverage, 173; buildings, deflation, 175–77; buildings, estimating procedures, 174; buildings, sources of evidence, 173–74; clearing and breaking, 183–88; constant price series, 181; deflation, 175–78; derivation of estimates, 177–78; drainage and irrigation, 197; equipment, 177–78; equipment, deflation, 178; equipment, derivation of estimates, 177–78; estimating procedures, 174, 178, 180–81, 183–90, 192–95, 197; farmland, improvements to, 181–82; farms, cash value of, 173–74; fences, 188–90, 192–95, 197; land, 197–98; land improvements, tests of estimates, 198–201; mechanization of, 15, 50
- Aldrich Committee, 280
- American Revolution, 101
- animals, 39, 92, 99, 128, 193, 209, 266, 272, 318, 320–21; animal inventories, 84, 178, 180–81; experimentation with new types of, 357n11
- antebellum South: enslaved African Americans, as members of population, 4; wealth inequality in, 3
- Balke, Nathan S., 120
- Balke-Gordon series, 120–22, 128
- Barger, Harold, 112, 156
- Bateman, Fred, and Thomas Weiss, 98
- Berry, Thomas: annual estimates, 163; back projection, 118; Berry series, 126; regression analysis, 118
- Bezanson, Anne, 293; general price index, 267, 311, 323–25
- Bezanson-Gray-Hussey arithmetic average price index, 81; general price index, 83
- Blodget, Samuel, Jr., 4, 22, 35, 72, 77–78, 85, 298, 301–5, 308–9, 314–15, 317–18, 320–21, 325, 328–31, 340n3, 340n4, 355–56n5, 356n7
- BLS series, 145, 160–62, 268, 272
- Borenstein, Israel, 40, 47
- Brady, Dorothy, 4, 42, 81, 98, 113, 128, 178, 280, 293, 343–44n16; Brady papers, 43; deflators, sets of, 78, 232; factory price index, 212, 218; structures, index of, 175–76; weighted index numbers, 288
- Brady indexes, 42–43, 74, 79–80, 84–85, 156, 232, 235, 335n6, 340–41n6, 350–51n1
- Brewer, Priscilla J., 354n6
- California, 185, 220
- Cambridge Capital Controversy, 5; re-switching, 336n10

- canals and river improvements: constant cost estimates, derivation of, 238–39; cost, division of, 238; cost estimates, derivation of, 235, 238; coverage, 235
- capital: concept of, as elastic, 71; deepening, 16; equipment, 18; inventories, 18; land improvements, 18; net foreign claims, 18; service life of, 144–49; structures, 18
- capital and economic growth: capital-to-output ratios, 54–58, 333; capital-to-output ratios by industry, 59, 61–67; rates of growth, 49–51, 53; sources of growth, 53–54
- capital consumption, 133; BLS concave, 145, 158, 160–62; declining-balances, 145, 151, 153, 158, 160–62; retirement schedules, 145–46; straight-line, 145; systems of, 145
- capital formation, 102; land clearing, 15
- capital goods, 12–13, 15, 38–39, 42–43, 87–88, 123, 136–38, 175, 283; market price, 140
- capital stock, 1, 4–5, 67, 70, 86–87, 154, 332–33; acceleration in rate of growth, 91; acquisition cost, 136–38, 160–61; annual investment flow data, 34–35; book and reproduction costs, 37–38; book values, 137; capital formation, 15; capital formation, growth of, 12–13, 16; capital goods, 38, 137–38; capital goods, falling price of, 13; capital-labor ratio, 16; capital-to-outpost ratio, increase in, 12; censuses of, 34–35; changing composition of, 92; in colonial and early national period, 10; constant price series, 42–43; consumer durable expenditures, 10; consumption goods, 38; decadal benchmarks, 9; deepening, 16; estimating of, 6, 9; expansion of, 11; farmers, 88–90; GNP series, 44, 50–51, 53, 57–58, 61–62, 113, 116, 120–21, 127–29, 274, 278; growth accounting, 100; growth of, 69, 334; income flows, 2; investment rate, 13; labor quality adjustments, 96–99; long-term growth, 158; manufactured producers' durables, 138; market value, 136, 141–43, 160–61; measuring of, 2; methods of estimating, 34–35, 37–45, 47–49; vs. national product, 54, 56; original and refined capital stock series, comparison of, 43–45, 47–49; output elasticities, 99–100; perpetual inventory methods, 10; rapid growth of, 49–50; reproduction cost, 136–38, 143, 160–61; saving rate, 13; structures, greater importance of, 32; total factor inputs, growth of, 94–96; valuation of, 35–42; variant A series, 27, 50, 56, 62, 64; variant B series, 27, 50, 53, 56, 62, 64. *See also* valuation of capital
- capital stock census-style estimates, 148, 160; omission components, 149–50; perpetual inventory procedure/series, 132–36, 142–43, 146–47, 149–50, 153–55, 158, 161, 163; producers' durables, 149; types of, 132; value, estimating of, 132
- capital stock estimating procedures, 72–73; animal inventories, 84; changing composition of, 92, 94; equipment, 84–85; estimating problems and consistency tests, 74–85; growth accounting, 100; labor quality adjustments, 96–99; land clearing and breaking, 74–78; output elasticities, 99–100; rates of growth, in historical perspectives, 85–91; structures, 78–83; structures, and deflation, 78, 82–83; total factor inputs, growth of, 94–100
- capital stock series, 33; economic growth, sources of, 34; national product series, as proxies for, 33; savings and investment, 34
- Carr, E. H., 2
- Carter, Susan, 122, 337n5
- cast-iron stoves, 276; coal, use of, 281–82; evolution of, 280; fuel, economizing on, 280–81; as innovation, 278–79; open fires, 281; women, creating more work for, 354n6
- Census of Manufactures, 220–21
- Champion, Richard, 318
- Chicago, 80
- Civil War, 3, 16, 22, 30, 41, 43, 55–58, 62, 77, 84, 91, 100–102, 120, 125–26; balloon-frame construction, 340–41n6; capital, destruction of, 150–51; losses of capital, 150–51, 158, 163, 347n10; price deflation during, 53
- Cochran, Thomas, 3
- Cole, A. H., 321
- colonial period: agriculture, 323; animal inventories, 318, 320–21; Blodgett estimates,

- 308–9; capital stock estimates, 309; consistency tests, 301–5, 307–8; equipment, 325–26; estimates, evaluation of, 301–5, 307–9; farmland, other improvements to, 326, 328–31; international sector, 317–18; inventories, 321–23; mining and manufacturing, 323–25; net position of, 355n4; principal aggregate, 297; shipping, 314–15; structures, 309–14; value, meaning of, 298; wealth, components of, 297–300
- communication and electric utilities, 254; electric light and power, 264–65; telegraphs, 254–62; telephones, 263–64
- construction (balloon-frame), 283, 340–41n6; invention of, 79; productivity, rise in, 80
- consumer durables, 25, 275, 339–40n2, 354–55n13; cast-iron stoves, 278–83; decadal estimates of, 283, 286–88, 293–94; perpetual inventory methods, 35; secular rise of, 276–77
- consumer durables revolution, 296, 353–54n3
- Cowan, Ruth Schwartz, 279, 354n6
- Cranmer, H. Jerome, 35; canal series, 5, 235, 238
- Creamer, Daniel, 40, 47
- Creamer, Daniel, Sergei Dobrovolsky, and Israel Borenstein, 203–4, 209–10, 212, 216, 218
- Danhof, Clarence, 193, 195
- David, Paul, 11, 74, 79–81, 113; David series, 99
- David, Paul, and Peter Solar, 311; common wage index, 81, 83, 312
- Davis, Lance, 2, 6, 53, 114, 333, 335n3, 346n2
- Davis, Lance, and Robert Gallman, 114–16, 338n8, 341n8
- Davis, Lance, Teresa Hutchins, and Robert Gallman, 144
- Denison, Edward, 16, 54, 333
- Dennison, W., 255–56, 351n4
- Dobrovolsky, Sergei, 40, 47
- do-it-yourself land improvement projects, 15
- domestic capital, 22, 25, 45, 58, 68, 71, 86, 88–89, 92, 134, 294; as term, 27, 34
- domestic wealth, 68; as term, 27, 34
- durable goods, 275, 278; rise in, 15–16
- durables, 276–77; “age of consumer,” 278; “age of producer,” 278; consumer revolution, 278; as defined, 275. *See also* cast-iron stoves
