Relation of the Directors to the Work and Publications of the NBER

1. The object of the NBER is to ascertain and present to the economics profession, and to the public more generally, important economic facts and their interpretation in a scientific manner without policy recommendations. The Board of Directors is charged with the responsibility of ensuring that the work of the NBER is carried on in strict conformity with this object.

2. The President shall establish an internal review process to ensure that book manuscripts proposed for publication DO NOT contain policy recommendations. This shall apply both to the proceedings of conferences and to manuscripts by a single author or by one or more co-authors but shall not apply to authors of comments at NBER conferences who are not NBER affiliates.

3. No book manuscript reporting research shall be published by the NBER until the President has sent to each member of the Board a notice that a manuscript is recommended for publication and that in the President's opinion it is suitable for publication in accordance with the above principles of the NBER. Such notification will include a table of contents and an abstract or summary of the manuscript's content, a list of contributors if applicable, and a response form for use by Directors who desire a copy of the manuscript for review. Each manuscript shall contain a summary drawing attention to the nature and treatment of the problem studied and the main conclusions reached.

4. No volume shall be published until forty-five days have elapsed from the above notification of intention to publish it. During this period a copy shall be sent to any Director requesting it, and if any Director objects to publication on the grounds that the manuscript contains policy recommendations, the objection will be presented to the author(s) or editor(s). In case of dispute, all members of the Board shall be notified, and the President shall appoint an ad hoc committee of the Board to decide the matter; thirty days additional shall be granted for this purpose.

5. The President shall present annually to the Board a report describing the internal manuscript review process, any objections made by Directors before publication or by anyone after publication, any disputes about such matters, and how they were handled.

6. Publications of the NBER issued for informational purposes concerning the work of the Bureau, or issued to inform the public of the activities at the Bureau, including but not limited to the NBER Digest and Reporter, shall be consistent with the object stated in paragraph 1. They shall contain a specific disclaimer noting that they have not passed through the review procedures required in this resolution. The Executive Committee of the Board is charged with the review of all such publications from time to time.

7. NBER working papers and manuscripts distributed on the Bureau's web site are not deemed to be publications for the purpose of this resolution, but they shall be consistent with the object stated in paragraph 1. Working papers shall contain a specific disclaimer noting that they have not passed through the review procedures required in this resolution. The NBER's web site shall contain a similar disclaimer. The President shall establish an internal review process to ensure that the working papers and the web site do not contain policy recommendations, and shall report annually to the Board on this process and any concerns raised in connection with it.

8. Unless otherwise determined by the Board or exempted by the terms of paragraphs 6 and 7, a copy of this resolution shall be printed in each NBER publication as described in paragraph 2 above.

Contents

Prefatory Note	xi
Introduction	1
Carol Corrado, Jonathan Haskel, Javier Miranda, and Daniel Sichel	
I. EXPANDING CURRENT MEASUREMENT FRAMEWORKS	
1. Expanded GDP for Welfare Measurement in the Twenty-First Century	19
Charles Hulten and Leonard I. Nakamura	
2. Measuring the Impact of Household Innovation Using Administrative Data	61
Javier Miranda and Nikolas Zolas	
3. Innovation, Productivity Dispersion, and Productivity Growth	103
Lucia Foster, Cheryl Grim, John C. Haltiwanger, and Zoltan Wolf	
II. NEW APPROACHES AND DATA	
4. How Innovative Are Innovations? A Multidimensional, Survey-Based Approach	139
Wesley M. Cohen, You-Na Lee, and John P. Walsh	

- 5. An Anatomy of US Firms Seeking Trademark Registration** 183
Emin M. Dinlersoz, Nathan Goldschlag,
Amanda Myers, and Nikolas Zolas
- 6. Research Experience as Human Capital in New Business Outcomes** 229
Nathan Goldschlag, Ron Jarmin, Julia Lane,
and Nikolas Zolas

- 11. Measuring Moore's Law: Evidence from Price, Cost, and Quality Indexes** 403
Kenneth Flamm
- 12. Accounting for Innovations in Consumer Digital Services: IT Still Matters** 471
David Byrne and Carol Corrado
- 13. The Rise of Cloud Computing: Minding Your Ps, Qs, and Ks** 519
David Byrne, Carol Corrado, and Daniel Sichel

14. BEA Deflators for Information and Communications Technology Goods and Services: Historical Analysis and Future Plans	553
Erich H. Strassner and David B. Wasshausen	
Contributors	573
Author Index	577
Subject Index	585

Prefactory Note

This volume contains revised versions of the papers presented at the Conference on Research in Income and Wealth entitled “Measuring and Accounting for Innovation in the 21st Century,” held in Washington, DC, on March 10–11, 2017.

Support for the general activities of the Conference on Research in Income and Wealth is provided by the following agencies: the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Census Bureau, the Board of Governors of the Federal Reserve System, the Statistics of Income/Internal Revenue Service, and Statistics Canada.

We thank Carol Corrado, Javier Miranda, Jonathan Haskel, and Daniel Sichel, who served as conference organizers and as editors of the volume.

Executive Committee, March 2020
