This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Education, Income, and Human Behavior

Volume Author/Editor: F. Thomas Juster, ed.

Volume Publisher: NBER

Volume ISBN: 0-07-010068-3

Volume URL: http://www.nber.org/books/just75-1

Publication Date: 1975

Chapter Title: Index

Chapter Author: F. Thomas Juster

Chapter URL: http://www.nber.org/chapters/c4503

Chapter pages in book: (p. 431 - 439)

Index

Ability (*see* Mental ability)
ACE (American College Entrance) examination, 55
Age, effect on earnings growth, 10
Age differences and crime, 35
Age-earnings profiles, 211–215
  (*See also* Obsolescence)
Alchian, Armen A., 339*n.*
American College Entrance (ACE) examination, 55
American Institutes of Research, 123*n.*
Anderson, G. Lester, 55
APC (average propensity to consume), 274, 277
Aptitude:
  defined, 369
  scholastic (*see* IQ)
  (*See also* Mental ability)
Aptitude tests, 53
Arrest and prison data on education-crime relationship, 323–327
Arrow, K., 110
Ashenfelter, O., 96*n.*, 127*n.*
Astin, A., 106
Attitudes:
  consumer, and savings behavior, 277–292
  toward education, effect of education on, 40–41, 392–394
Attitudes:
  influence of education and ability on, 38–41
  toward job success, effect of education on, 389–392
  toward life, effect of education on, 385–389
  and salary, effect of education and ability on, 365–396
Average propensity to consume (APC), 274, 277

Background and ability variables, regression equations of log of earnings on, 411–417
Bancroft, Gertrude, 172*n.*
Barker, Richard W., 49, 51, 60, 63
Barzel, Yoram, 199*n.*
Beaton, Albert E., 25, 38, 365, 399, 427
Becker, Gary, 14*n.*, 85*n.*, 88, 90*n.*, 95, 96*n.*, 109, 110*n.*, 151*n.*, 152, 158*n.*, 176, 180*n.*, 199, 205, 237, 261, 264, 296*n.*, 311, 314, 339*n.*, 340*n.*, 346*n.*, 360*n.*, 382*n.*
Behavior, effects of education on, 8, 24–25
Ben-Porath, Y., 207*n.*

Benson, Viola E., 49, 51, 60, 63, 67
Berdie, Ralph F., 49, 51–53, 55, 60, 63
Berning, T. J., 55
Birnbaum, Bonnie, 339*n.*
Bogen, Forrest, 171*n.*
Bohm-Bawerk, E. V., 258*n.*
Bowen, William G., 85, 172, 173*n.*, 176, 177, 180, 184*n.*, 185
Bowman, M. J., 199
Bridgman, D., 96*n.*
Brumberg, R., 309
Bumpus, L., 354

Cagan, Phillip, 201, 253*n.*, 280, 282, 285, 286, 290, 401, 419, 424, 426
Cain, Glen G., 172, 173, 180, 185
Campbell, Arthur A., 350
Capital, human (*see* Human capital)
Carnegie Commission on Higher Education, 95*n.*, 123*n.*, 199*n.*, 253*n.*, 313*n.*, 339*n.*
CAS (NBER–Census Bureau's Consumer Anticipation Survey), 356, 358, 362*n.*
Chetty, V. K., 253*n.*
Chicago, University of, 319*n.*
Child care and education, effect on women in labor market, 187–194
  (*See also* Time)
Children:
  effect on women in labor market, 185–187
  quality of, education and, 355–358
  quantity of, education and, 358–362
  (*See also* Fertility)
Chiswick, Barry R., 151*n.*, 335, 339*n.*
Cohen, Joseph, 313*n.*
Cohen, Malcolm S., 172*n.*
Coleman, J. S., 201
College (*see* Education)
Columbia University, 253*n.*, 402
  Teachers College, 397
Commodities, defined, 237
Consumer attitudes and savings behavior, 277–292
Consumers Union of the United States survey, 29, 253*n.*, 256, 257, 277–292, 360*n.*, 401–404, 423
Consumption:
  causes for effects of education on, 236–240
  and education, 31–32, 235–252
  life-cycle, and price of time, 295–312
    empirical implementation, 302–312
  life-cycle hypothesis of, 309
  new theory of, 296–299
  observed effect of education on, 243–250
  possible effects of education on, 240–243
  and saving, 26–41
  and wage rates, 32–33
Contraception, effect of education on, 37, 348–355
  (*See also* Fertility)
Cornell sample of women's time budgets, 187–189
  regression analysis, 192–193
Crayne, Susan, 253*n.*
Creusen, J., 191, 194
Crime:
  and education, 33–36, 313–337
    arrest and prison data, 323–327
    evidence on, in crime statistics, 327–334
  racial and age differences, 35
Criminal, choices of, 314–319
Cutwright, P., 96*n.*

Darley, John C., 49*n.*, 51, 61
David, M., 96*n.*
Delak, Antoinette, 253*n.*
Denison, E., 95, 112*n.*
Depreciation, defined, 200
Duncan, O. D., 96*n.*

Earnings:
  and ability, 12, 13
  affected by schooling outputs, 125
  distribution of, human capital and, 72–83
  and educational attainment, 3–4, 6–20
  educational costs and, 16
  effect of education and ability on, 12–13
  forgone, 16, 17
  inequality in, 78–80
  lifetime, ability and education as determinants of, 123–149

Earnings:
log of, regression equations of, on background and ability variables, 411–417
observed, correlation with schooling, 10
quality of education and, 15–16
religious preference and, 19–20
(*See also* Income; Salaries; Wage)
Earnings and ability hypotheses, 124–129
testing: Husén's data, 144–148, 400–401
NBER-Thorndike data, 139–143
Project Talent data, 135–141
Rogers' data, 129–135, 137*n.*, 139–142, 399–400
Earnings-age profiles, 211–215
Earnings function, 73–78
human capital, 152–156
Earnings growth and age, 10
Earnings patterns, lifetime:
estimation, 215–226
data, 217–226
model of, 205–215
Earnings profiles and obsolescence, 23–24
Earnings structure, 80–83
Eckaus, R. S., 214*n.*
EDOCC (education and occupation) scale, 369–371
Education:
attitudes toward, effect of education and, 40–41, 392–394
attitudes toward job success and, 389–392
attitudes toward life and, 385–389
and behavior, 8, 24–25
and child care, effect on women in labor market, 187–194
and consumption (*see* Consumption)
and contraceptive efficiency, 37, 348–355
and crime (*see* Crime)
defined, 71, 319
and earnings (*see* Earnings)
effects on efficiency, 238–240
and fertility (*see* Fertility)
formal, economists' view of, 1
higher: changes since 1900, 47–48
effects of enrollment expansion, 49–52, 60
measuring benefits from, 48*n.*
Education:
higher: rates of returns to, estimation of, 156–164
returns to investment in, 151–170
and threshold level of mental ability, 48–49
increasing amounts of: and higher ability, 376–377
and higher salaries, 378–382
and IQ, association of, 130–135
and labor force participation, 11, 20–23
and mental ability (*see* Mental ability)
private and social rates of return to, 107–108
quality of, 105
earnings and, 15–16
quality of children and, 355–358
quantity of children and, 358–362
rates of return to (*see* Rates of return to education)
returns to investment in (*see* Returns to investment in education)
satisfaction at work and, 382–385
savings and (*see* Savings)
as screening device, 110–118
secular trends in, income inequality and, 90–92
and time allocation by women, 171–197
Education-observed earnings correlation, 10
Education and occupation (EDOCC) scale, 369–371
Efficiency, effect of education on, 238–240
Ehrlich, Isaac, 25, 33–36, 314, 318, 320, 321*n.*, 327, 328*n.*, 330*n.*, 331–334
Eichorn, John R., 313*n.*
Elementary school, rates of return to, 7*n.*
El-Safty, A., 214*n.*
Employment:
distribution of, and human capital, 83–90
unemployment differentials, 87–90
Expenditures as response to change in income, 244–250
(*See also* Consumption)
Experience, learning by, 207–211

Fägerlind, Ingemar, 123*n.*
Fair Labor Standards, 7*n.*

Feldman, K. A., 259
Fertility, 36–38
  and education, 339–364
    analytical framework, 339–342
    graphic interpretation, 342–346
    role of economic factors, 346–348
  and income, 346–347
  price of time and, 347
