Donald S. Thompson
Leo Wolman

*Relation of the Directors to the Work and Publications
of the
National Bureau of Economic Research*

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926 and revised February 6, 1933 and February 24, 1941)

CONTENTS

PART I	Structure, 1919-1938	3
1	Total and Per Capita	3
2	Distribution by Industrial Origin	5
3	Distribution by Type	9
4	Distribution by Size	11
5	Distribution by Type of Use	17
6	Regional and Community-size Differences	23
PART II	Long Term Changes, 1869-1938	31
1	Total and Per Capita	31
2	Distribution by Industrial Origin	39
3	Distribution by Type and Size	49
4	Distribution by Type of Use	52
5	Fluctuations in Rates of Growth	60
PART III	Changes during Business Cycles, 1900-1938	73
1	The Magnitude of Changes	73
2	National Aggregates, in Current and Constant Prices	81
3	Differences among Industries	86
4	Differences among Types of Payment	94
5	Differences among Shares of Upper and Lower Income Groups	97
6	Differences among Final Use Components	106
PART IV	Problems of Interpretation	111
1	The Distinction between Net and Gross	112
2	Why Gross National Product?	117
3	National Income and Welfare	121
4	Consistent Valuation	128
5	Directions of Future Work	134
Index		141
Publications Still in Print		145

TABLES

1	National Income and Aggregate Payments, Current and 1929 Prices, Averages for 1919-1938	4
2	National Income, Service Income (both in Current Prices), and Aggregate Employment, Percentage Distribution by Industry	6
3	Percentage Distribution by Type of Income, National Income and Net Income Originating (both in Current Prices) in Broad Industrial Divisions by Predominant Type of Organization	10
4	Percentage Shares of Total Income Payments (Current Prices) Received by Upper and Lower Income Groups	13
5	Some Aspects of the Distribution of Family Income by Size, Total and Groups by Occupational and Employment Status, 1935-1936	16
6	National Income, Percentage Distribution by Type of Use	19
