

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Residential Real Estate, Its Economic Position as Shown by Values, Rents, Family Incomes, Financing, and Construction, Together with Estimates for All Real Estate

Volume Author/Editor: David L. Wickens

Volume Publisher: NBER

Volume ISBN: 0-87014-037-X

Volume URL: <http://www.nber.org/books/wick41-1>

Publication Date: 1941

Chapter Title: Financing Nonfarm Residential Real Estate

Chapter Author: David L. Wickens

Chapter URL: <http://www.nber.org/chapters/c5648>

Chapter pages in book: (p. 201 - 294)

SECTION D

Financing Nonfarm Residential Real Estate

The 48 tables of section D are concerned with the volume, terms, and characteristics of residential mortgage financing. The first 4 tables carry comprehensive data for the country; the others consist principally of sample data.

Table D 1, giving the percentage of properties mortgaged and the percentage debt is of value by three population groups, is derived from the 1920 Census Monograph II. The 1920 data in Table D 2 are also from this source; the 1934 data and the figures in Table D 3 are taken or derived from the Financial Survey.

Table D 4 represents the National Bureau's preliminary estimate of total debt secured by mortgages on nonfarm residential real estate as of January 1, 1934, derived by methods described in Chapter IV, section 3.

Tables D 5-47 are summaries of Financial Survey data. Methods of deriving the weighted geographic division averages are described in Chapter I, section 2.

The term debt as used in section D includes mortgages and deeds of trust of all priorities, land contracts, or sales contracts and all forms of credit secured by nonfarm residential real estate, even though title to the property may still remain in the seller or mortgagee.

The terms property and properties are used in this section as referring to nonfarm residential real estate which is the security on which the credit is based. Whatever the type of property, it is usually considered as a unit for financing purposes; hence this term is generally used throughout this discussion in place of dwellings or dwelling units, as was done in sections A and B which deal with value and rent.

All tables in this section refer to urban nonfarm residential properties, though the nonfarm designation is omitted from table captions. An exception occurs in the New York City areas, where a few properties are used for commercial and industrial purposes.

All data from the Financial Survey are on a sample basis and therefore are not to be taken as having full coverage in any classification for population groups, tenure, priority, or other grouping, or as having the same coverage in different cities. Although the Financial Survey data for individual cities are the number or amount reported in the sample, and not totals for the city, the totals for population groups within geographic divisions and the aggregate usually represent sample figures for several cities weighted by the total number or amount for each constituent city.

TABLE D I

Owner-occupied Dwellings, Percentage Mortgaged and Percentage that Debt is of Value of Total Mortgaged Property, by Population Group, State, and Geographic Division, 1920

| | ← PERCENTAGE OF PROPERTIES MORTGAGED → | | | | ← PERCENTAGE THAT DEBT IS OF VALUE → | | | |
|---------------|--|-----------------|----------------|--------------|--------------------------------------|-----------------|----------------|--------------|
| | All population groups | 100,000 or more | 25,000-100,000 | Under 25,000 | All population groups | 100,000 or more | 25,000-100,000 | Under 25,000 |
| United States | 39.7 | 57.6 | 49.0 | 29.9 | 42.6 | 44.6 | 42.8 | 39.9 |

Source: Census Monograph II, Mortgages on Homes in the United States, 1920; percentage mortgaged 'all population groups' transcribed from Table 26; percentage mortgaged by population group derived from Tables 26, 27, 28, 30, 31, as explained in detail in Part Two, Ch. IV, sec. 1; percentages that debt is of value are transcribed from Table 34. Data as reported by the Census in Monograph II are based on reports from 86.3 per cent of owner-occupied dwellings in the United States (see pp. 17-21).

Source: *Financial Survey of Urban Housing*. Percentage not shown when total number reporting on properties (mortgaged plus free) as shown in Table A 13 is less than 3.

*Metropolitan district.

¹Geographic division and 44-city percentages weighted by total number of rented residential properties in each city (RPI).

²Individual city percentages are based upon the number of properties reporting mortgage debt as shown in this table and the total number of properties reporting (mortgaged plus free) as shown in Table A 13.

Source: *Financial Survey of Urban Housing*. Average not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (51)-city averages weighted by estimated number of mortgaged properties, by tenure, in each city (RPI). For rented properties, where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups, the weighted geographic division and 52 (51)-city averages in the 'All value groups' column are not strictly comparable to the weighted averages for the individual value groups.

²Where only average value 'All value groups' is shown, average value by value groups was not obtained by the *Financial Survey of Urban Housing* either because the number of reports was too small or because of lack of related information for rented properties.

Source: *Financial Survey of Urban Housing*. Average not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (51)-city averages weighted by estimated number of mortgaged properties, by tenure, in each city (RPI). For rented properties where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups, the weighted geographic division and 52 (51)-city averages in the 'All value groups' column are not strictly comparable to the weighted averages for the individual value groups.

²Where only average value 'All value groups' is shown average debt by value groups was not obtained by *Financial Survey of Urban Housing* either because the number of reports was too small or because of lack of related information for rented properties.

TABLE D 8

Mortgaged Dwellings, Number reporting Debt and Average Debt Outstanding (Principal only), All Priorities, by Value Groups: Owner-occupied, 52 Cities; Rented, 51 Cities, by Geographic Division, January 1, 1934

Source: *Financial Survey of Urban Housing*. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (44)-city percentages weighted by total number of residential properties, by tenure, in each city (RPI).

²Figures in parentheses are number of cities reporting on rented properties.

³Based on number reporting mortgages on owner-occupied and rented dwellings as shown in tables D 5 and 6.

TABLE D 10

Dwellings reporting Distribution of Original Cost to Present Owner, Percentage Distribution of Cost by Form of Consideration, and Percentage of Consideration in the Form of Debt by Period of Acquisition, 1889 or before, to 1934: Owner-occupied, 52 Cities; Rented, 44 Cities, by Geographic Division

Source: *Financial Survey of Urban Housing*. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (44)-city percentages weighted by total value of properties, by tenure, in each city (RPI).

²Includes only properties purchased for a consideration and excludes those acquired by gift or inheritance.

³The percentages shown by period of acquisition do not necessarily indicate that the average of all properties purchased in the earlier years involved less credit than the average of all properties purchased in the later years. The data are based upon reports of 1934 owners and it may be presumed that properties purchased many years prior with large debt assumption were less likely to be owned in 1934 by the early purchasers than properties purchased for a larger consideration in cash.

TABLE D 10

Dwellings reporting Distribution of Original Cost to Present Owner, Percentage Distribution of Cost by Form of Consideration, and Percentage of Consideration in the Form of Debt by Period of Acquisition, 1889 or before, to 1934. Owner-occupied, 52 Cities; Rented, 44 Cities, by Geographic Division

Source: *Financial Survey of Urban Housing*. Based on average debt (principal only) by value groups and average value of mortgaged properties by value groups as shown in Tables D 7 and 8. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (51)-city percentages are automatically weighted by use of weighted averages from Tables D 7 and 8. For rented properties where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups, the weighted geographic division and 52 (51)-city percentages in the 'All value groups' column are not strictly comparable to the weighted percentages for the individual value groups.

TABLE D 13

Mortgaged Dwellings, Ratio of Debt to Value by Value Groups: Owner-occupied, 52 Cities; Rented, 51 Cities, by Geographic Division, January 1, 1934

Source: Federal Home Loan Bank Board tabulation of data from *Financial Survey of Urban Housing*. For number reporting outstanding debt on first mortgages, see Table D 18. Percentage not shown if less than one-tenth of one per cent.

*Metropolitan district.

¹Geographic division and 52-city percentage distributions weighted by estimated mortgage debt on rented properties, by priority, in each city (RPI).

²Includes public bond issues:

| | All priorities | Per cent First mortgages | | All priorities | Per cent First mortgages | |
|--------------------|----------------|-----------------------------|--|-------------------|-----------------------------|-----|
| Worcester, Mass. | 1.1 | 1.2 | | Asheville, N.C. | 3.4 | 3.6 |
| Kenosha, Wis. | 2.0 | 2.2 | | Paducah, Ky. | 8.4 | 8.5 |
| Racine, Wis. | 2.6 | 2.5 | | Seattle, Wash. | 3.9 | 4.0 |
| Minneapolis, Minn. | 0.9 | 1.0 | | San Diego, Calif. | 0.4 | 0.4 |

TABLE D 20

Mortgaged Rented Dwellings, Outstanding Debt reported for All Priorities combined and for First Mortgages, and Percentage Distribution by Holding Agency, 52 Cities by Geographic Division, January 1, 1934

| FIRST MORTGAGES | | | | | | | | | | | | |

Source: *Financial Survey of Urban Housing*. Based on approximately the same number of reports as shown in Tables D 17 and 18. Certain cities omitted from the rented tenure class because detailed tabulations were not prepared for the original amount of the loan by the agency holding the original loan. The average amounts of these loans shown for all agencies. Averages not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 'All cities' averages weighted by number of loans, by priority and tenure, in each city (RPI). For rented properties where the number of cities included in the 'All holding agencies' column is larger than the number for the individual agencies, the weighted geographic division and 'All cities' averages in the 'All holding agencies' column are not strictly comparable to the weighted averages for the individual agencies.

TABLE D 22

Average Original Loan reported by Owners, January 1, 1934: First Mortgages by Holding Agency, Owner-occupied, 52 Cities, Rented, 30 Cities; and for All Holding Agencies, Owner-occupied and Rented, 52 Cities; Second and Third Mortgages, Owner-occupied, 49 Cities, Rented, 23 Cities; Land Contracts, Owner-occupied, 33 Cities, Rented, 9 Cities, by Geographic Division

Source: *Financial Survey of Urban Housing*. Contract interest rates based on total number reporting interest rate. This number of reports is shown in Table D 28 for first mortgages; for other priorities the number of reports is approximately the same as shown in Table D 15. Effective interest rate based on number reporting both contract and effective interest rates. This number of reports is shown in Table D 26. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division 'All cities' percentages weighted by estimated debt, by tenure and priority, in each city (RPI).

²Individual interest rates in each city weighted by amount of principal outstanding for specified priority.

TABLE D 27

Contract and Effective Interest Rates (per cent), Simple and Weighted Averages by Priority: First Mortgages, Owner-occupied and Rented, 52 Cities; Second and Third Mortgages, Owner-occupied, 49 Cities; Rented, 23 Cities; Land Contracts, Owner-occupied, 33 Cities; Rented, 9 Cities, by Geographic Division, January 1, 1934

Source: *Financial Survey of Urban Housing*. The number of reports on which these interest rates are based is shown for "All holding agencies" in the owner-occupied section of Table D 28. The distribution of the number reporting by agency holding the loan is approximately the same as shown in Table D 17. Rates not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52-city percentages weighted by estimated debt on first mortgage loans in each city (RPI).

²Individual interest rates for each agency and city weighted by amount of principal outstanding on first mortgage loans by agency holding the loan.

³Includes public bond issues:

| | Simple average | Per Cent | Weighted average |
|---------------|----------------|----------|------------------|
| Kenosha, Wis. | 6.00 | | 6.00 |
| Racine, Wis. | 5.84 | | 5.21 |

Source: *Financial Survey of Urban Housing*. The number of reports on which these interest rates are based is shown for all agencies in the rented section of Table D 28. The distribution of the number reporting by agency holding the loan is approximately the same as shown in Table D 18. Rates not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 30-city percentages weighted by estimated debt on first mortgage loans in each city (RPI).

²Individual interest rates for each agency and city weighted by amount of principal outstanding on first mortgage loans by agency holding the loan.

³Includes public bond issues:

| | Simple average | Per cent |
|-------------------|----------------|------------------|
| | | Weighted average |
| Racine, Wis. | 6.00 | 6.00 |
| San Diego, Calif. | 5.83 | 6.40 |

⁴The data do not allow the presentation of contract interest rates by agency holding the loan for all 52 cities. Contract interest rates for all agencies combined for the 52 cities are shown in the first mortgage rented section of Table D 27.

Source: *Financial Survey of Urban Housing*. For number of reports upon which these interest rates are based see the rented section of Table D 31. Rates not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 30-city percentages weighted by estimated debt on first mortgage loans in each city (RPI).

²Individual interest rates for each agency and city weighted by amount of principal outstanding on first mortgage loans by agency holding the loan.

³The data do not allow the presentation of effective interest rates by agency holding the loan for all 52 cities. Effective interest rates for all agencies combined for 52 cities are shown in the first mortgage rented section of Table D 27.

Source: *Financial Survey of Urban Housing*. For number of reports upon which these contract interest rates are based see Table D 34. Rates not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 38-city percentages weighted by estimated debt on second and third mortgage loans in each city (RPI)..

²Individual interest rates for each agency and city weighted by amount of principal outstanding on second and third mortgage loans by agency holding the loan.

³The data do not allow the presentation of contract interest rates by agency holding the loan for more than 38 cities. Contract interest rates for all agencies combined are shown for 49 cities in second and third mortgage, owner-occupied section of Table D 27. The data do not allow the presentation of effective interest rates for owner-occupied properties by agency holding the loan. Effective interest rates for all agencies combined for these properties are shown in the second and third mortgage, owner-occupied section of Table D 27.

Source: Financial Survey of Urban Housing. Average not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (51)-city averages weighted by estimated number of mortgaged properties, by tenure, in each city (RPI). For rented properties where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups, the weighted geographic division and 52 (51)-city averages in the 'All value groups' column are not strictly comparable to the weighted averages for the individual value groups.

²Where only average annual payment 'All value groups' is shown, average annual payment by value groups was not obtained by Financial Survey of Urban Housing either because the number of reports was too small or because related information was lacking for rented properties.

TABLE D 36

Mortgaged Dwellings, All Priorities, Number reporting Payments and Average Annual Payment (dollars) required for Interest and Principal, by Value Groups: Owner-occupied, 52 Cities; Rented, 51 Cities, by Geographic Division, January 1, 1934

Source: *Financial Survey of Urban Housing*. Percentages in this table are based upon average values of mortgaged properties as shown in Table D 7 and average annual payment required for interest and principal as shown in Table D 36. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (51)-city percentages automatically weighted by the use of weighted averages from Tables D 7 and 36. For rented properties where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups the weighted geographic division and 52 (51)-city percentages in the 'All value groups' column are not strictly comparable to the weighted percentages for the individual value groups.

TABLE D 37

Mortgaged Dwellings, All Priorities, Average Annual Payment required for Interest and Principal as a Percentage of Value of Property, by Value Groups: Owner-occupied, 52 Cities; Rented, 51 Cities, by Geographic Division, January 1, 1934

| RENTED | | | | | | | | | | | | |

Source: *Financial Survey of Urban Housing*. The number reporting average annual payment required is approximately the same as that shown in Tables D 17 and 15. Average or percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52-city average annual payment weighted by number of loans, by priority, in each city (RPI).

²Percentages derived by dividing the average annual payment in this table by the average original amount of loan as shown in Table D 22. Geographic division and 52-city percentages automatically weighted by the use of weighted averages in this table and in Table D 22.

TABLE D 38

Mortgaged Owner-occupied Dwellings, Average Annual Payment required and Average Annual Payment as Percentage of Average Original Loan: First Mortgages by Holding Agency, 52 Cities; Second and Third Mortgages, All Holding Agencies, 49 Cities; Land Contracts, All Holding Agencies, 33 Cities, by Geographic Division, January 1, 1934

Source: Financial Survey of Urban Housing. The number reporting average annual payment required is approximately the same as that shown on Tables D 15, 18, and 34. Average or percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 'All cities' average annual payment required weighted by number of loans, by priority, in each city (RPI). Where the number of cities included in the 'All holding agencies' column is larger than the number for the individual agencies, the weighted geographic division and 'All cities' averages and/or percentages in the 'All holding agencies' column are not strictly comparable to the weighted averages and/or percentages for the individual agencies.

²Percentages derived by dividing the average annual payment required in this table by the average original amount of loan as shown in Table D 22. Geographic division and 'All cities' percentages automatically weighted by the use of weighted averages in this table and in Table D 22.

³Includes public bond issue: Racine, Wis., \$368; San Diego, Calif., \$337.

⁴Includes public bond issue: Racine, Wis., 6.1 per cent; San Diego, Calif., 7.3 per cent.

⁵Sample inadequate to obtain averages or percentages by individual agencies.

⁶Summary of all agencies reporting.

Source: *Financial Survey of Urban Housing*. Percentage reduction from original amount of loan based upon the average amount of the original loans and the average amount of the loans outstanding for properties reporting year loan was contracted. The percentages shown may be approximated very closely by using the average amount of the original loans and the average amount of the loans outstanding, by agency holding the loan, as shown in Tables D 22 and 21, respectively. The percentage reduction per annum is obtained by dividing the total percentage reduction by the average years expired as shown in Table D 23.

*Metropolitan district.

¹Geographic division and 'All cities' percentages weighted by estimated total debt, by tenure and priority, in each city (RPI).

²Sample data inadequate to show percentage reduction for second and third mortgages and land contracts.

Source: *Financial Survey of Urban Housing*. The number of reports upon which the percentage with payments in arrears is based is approximately the same as those shown in Tables D 5 and 6. Percentage not shown for fewer than 3 reports.

*Metropolitan district.

¹Geographic division and 52 (44)-city percentages weighted by number of mortgaged properties, by tenure, in each city (RPI). For rented properties where the number of cities included in the 'All value groups' column is larger than the number for the individual value groups the weighted geographic division and 52 (44)-city percentages in the 'All value groups' column are not strictly comparable with the weighted percentages for the individual value groups.

²Where only percentage with payments in arrears 'All value groups' is shown, percentage with payments in arrears by value groups was not obtained by the *Financial Survey of Urban Housing* either because the number of reports was too small or because related information was lacking for rented properties.

Source: *Financial Survey of Urban Housing*. For number reporting 'All holding agencies' combined see Table D 46. Percentage not shown for fewer than 10 reports.

*Metropolitan District.

¹Geographic division and 'All cities' percentages weighted by number of loans, by tenure and priority, in each city (RPI). For rented properties where the number of cities included in the 'All holding agencies' column is larger than the number for the individual agencies, the weighted geographic division and 'All cities' percentages in the 'All holding agencies' column are not strictly comparable with the weighted percentages for the individual agencies.
