Prefatory Note

This volume contains part of the papers and discussion presented at the 50th Anniversary Conference in Washington, D.C., on 12–14 May 1988. Papers from the Jubilee Conference's "New Horizons in Data Sets" sessions, edited by Jack E. Triplett, were published in three issues of the *Survey of Current Business* (November 1988; March 1989; and May 1989).

Funds for the Conference on Research in Income and Wealth are provided to the National Bureau of Economic Research by grants from the Bureau of Economic Analysis, Statistics Canada, the Bureau of the Census, the Bureau of Labor Statistics, the Internal Revenue Service, and the National Science Foundation; we are indebted to them for their support. We also thank Ernst R. Berndt and Jack E. Triplett, who served as conference organizers and editors of this volume, and W. Erwin Diewert, who served on the conference organizing committee.

Random selection determined the order of the editors' names on the published volume.
