
Acknowledgments

This volume contains edited versions of papers presented at the NBER–East Asia Seminar on Economics’ seventh annual conference, held in Hong Kong, China, on 19–22 June 1996.

We are indebted to members of the program committee who organized the conference, and to Chung-Hua Institution, Taipei; Korea Development Institute, Seoul; Tokyo Center for Economic Research; the National University of Singapore; and the Hong Kong University of Science and Technology for their sponsorship of the conference and of the ongoing seminar series.

Professor Francis Lui and his colleagues in the Economics Department of the Hong Kong University of Science and Technology were the local hosts. All participants are grateful to them for the excellent organization and hospitality they provided.

The National Bureau of Economic Research provided logistical support, as well as support for the North American–based conference participants. We are greatly indebted to the NBER, as well as to the Asian institutions which support the research and conferences.
