Milton Friedman	Raymond J. Saulnier
Millard Hastay	Lawrence H. Seltzer
W. Braddock Hickman	George J. Stigler
F. F. Hill	Leo Wolman
Daniel M. Holland	Herbert B. Woolley

RELATION OF THE DIRECTORS
TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926 and revised February 6, 1933 and February 24, 1941)

This is a preliminary report on a joint study of capital formation and financing in residential real estate by the Institute for Urban Land Use and Housing Studies, Columbia University and the National Bureau of Economic Research, Inc. The study is part of a large investigation of trends and prospects in capital formation and financing made possible by a grant from the Life Insurance Association of America.

IN THE PREPARATION OF THIS PAPER I have benefited greatly from advice and criticism of a number of colleagues and experts. I wish particularly to thank Solomon Fabricant, Simon Kuznets, Geoffrey H. Moore, and Raymond J. Saulnier of the National Bureau staff for careful review of drafts and many helpful comments. Valuable suggestions were made by David M. Blank and Louis Winnick, my associates in the preparation of a monograph on *Capital Formation and Financing in Residential Real Estate*, from which this paper is derived. I am indebted to James J. O'Leary, Director of Investment Research of the Life Insurance Association of America, and to Raymond W. Goldsmith for their keen interest in this paper and incisive comments. The charts were drawn by H. Irving Forman.

Finally, I acknowledge gratefully the assistance rendered by Allan F. Thornton, Director of the Division of Research and Statistics, Federal Housing Administration, and by members of research staffs of other federal agencies who were consulted on points of fact and analysis. No one but the author, however, bears responsibility for the interpretation of data and the judgments expressed in this paper or for any of its shortcomings.

L. G.
